SHORT PASSING EVENTS

TUESDAY.

Four bales of cotton were disposed of here yesterday at 15c per pound.

Two minor cases of disorderly conduct were disposed of in the police court yesterday. The defendants were taxed with the cost of the case and released from custody.

Sunday night several "young bucks" got on a rampage at James City and it was necessary for the sheriff and two of his deputies to go the scene and quell the disturbance. Fortunately no one was injured during the mix up.

The local market was well stocked yesterday with watermelons that had been shipped here from Florida. These juicy farm products find a ready sale in this city regardless of the high price that is being charged for them. Canteloupes also are rather plentiful on the local market.

Yesterday morning a colored woman who was very much under the influence of intoxicants, went into one of the local grocery store and after incoherently ordering a number of articles proceeded to tell the proprietor how he should conduct his business. An officer was sent for and the woman placed under arrest and carried to the city hall where she was taxed with the cost of the trial for being disorderly.

Shortly after the train enroute to this city had left Wilmington Sunday afternoon, one of the passengers who was very much under the influence of whiskey, drew his revolver and fired into one of the crowded cars several times. Several of his friends succeeded in quieting him and he was brought on to this city and taken off when the train reached the suburbs. Fortunately no one was injured by the man's promiscuous shooting but this was not due to the fact that he did not intend to shoot any one, but to mere luck.

WEDNESDAY.

Yesterday the New Bern Produce Co. received from Pamlico county 40 barrels of new corn.

After Friday night no more beer or near beer will be sold in this State, at least the State license expires at that time.

Vanceboro citizens are aroused over a special tax election for a longer term for the graded school, and a mass meeting has been called for one night this week to boost the proposition. They have a good school there now, but it only runs four months in the year, and they wish to increase the term to eight months. Mr. Bruce Caraway, of Monticello farm, will be one of the speakers at the mass meeting.—Kinaton Free Press.

At several places along Pollock street ropes are stretched across to keep traffic off this street, which was recently paved, until the cement has had time to sufficiently dry. In one or two places these ropes are not located near an electric light and it is almost impossible to locate them. The accident which occurred Monday night on Eden street in which a horse and two men were injured shows that lights should be placed on these obstructions to show their location.

THURSDAY.

Several hundred barrels of Irish potatoes passed through the city yesterday enroute from Pamlico county to northern markets. The farmers are receiving good prices for them on the market.

Yesterday the local police force received the new uniforms which were ordered several days ago through Mr. J. J. Baxter and today they will be seen on the streets resplendent in their new regalia.

The reporter was informed yesterday that the John L. Roper Company's plant at this place would close down on July 1st. for several days. This is done in order that there may be a general overhauling and cleaning of the plant.

The sale of lots at Pembroke Heights yesterday was decidedly a success. There were about 50 sold at prices ranging from \$40 to \$100 each. The location is good and there is no doubt but what it will be a success and occupied in a short time.

time.
After a day of almost unbearable heat, a refreshing rain fell in this city yesterday afternoon. At noon the thermometer registered 89 degrees in the shade. Shortly before 3 o'clock clouds began to gather in the northwest and in a short while rain began to fall. The shower lasted about two hours.

Next Saturday night the Norfolk Southern Railway Co. will operate a special train from Kinaton to Morehead City account of the grand ball to be held at the Atlantic Hotel on that night. The fair will be 75 cents the round trip, this will include the buffet supper, returning the train will arrive in this city at 12:30 o'clock.

Rev. A. C. Schuler, of New Bern, spent today in the city and left this evening for Seven Springs, where he expects to spend several weeks recuperating. Mr. Schuler was on the Norfolk Southern train enroute for the Springs this morning, but was taken ill and stopped over here to consult with Dr. J. M. Parrott.—Kinaton Free Press.

Yesterday morning two young colored boys going in opposite directions on their bicycles collided on Middle street and one of them was quite painfully injured. The boy that got the worst end of the accident was going up the street at a break-neck pace and when the other rider turned the corner in front of him he became excited and failed to avoid colliding with him.

WORTH WEIGHT IN GOLD

Lady Learned About Cardui, The Woman's Tonic and is Now Enthusiastic in its Praise.

Mount Pleasant, Tenn.—"Cardui is all you claim for it, and more," writes Mrs. M. E. Rail, of this place.

"I was a great sufferer for 2 years and was very weak, but I learned about Cardui, and decided to try it. Now I am in perfect health.

"My daughter, when changing into womanhood, got in very bad health. I gave her Cardui and now she enjoys good health.

"Cardui is worth its weight in gold. I recommend it for young and old."

Being composed exclusively of harmless vegetable ingredients, with a mild and gentle medicinal action, Cardui is the best medicine for weak, sick girls and women.

It has no harsh, powerful, near-poisonous action, like some of the strong minerals and drugs, but helps nature to perform a cure in a natural easy way.

Try Cardui.

N. B.—Write to L. D. Abbott, Dist. Office, 100 N. 3rd St., Philadelphia, Pa., for Cardui, the best medicine for women, and for a free trial.

HOT TIME AGAIN IN GEORGIA

Recently Elected Governor Hoke Smith Will Make Hard Fight For Senator Terrell's Toga.

Washington, June 29.—Unusual interest is manifested in Democratic political circles here in the Senatorial fight in the legislature which will take place in Georgia on July 10th to decide whether Hon. Joseph Meriwether Terrell shall continue to represent the State in the Senate of the United States or be succeeded by Hon. Hoke Smith, former governor of Georgia and the present governor-elect.

As is well known, Senator Terrell was appointed by Governor Brown to fill out the unexpired term of the late Senator A. S. Clay. During nearly all of his service Senator Terrell has been in very poor health, as he had a stroke of paralysis which has sadly interfered with his locomotion, and it is with much difficulty that he can get about. His mentality, however, has not been weakened, and the report is that he and his supporters are going to put up a strong battle at the primary, and have been confidently claiming that they will vanquish former Governor Hoke Smith.

TALENT AND GENIUS.

The world is always ready to receive talent with open arms. Very often it does not know what to do with genius. Talent is a docile creature. It bows its head meekly while the world slips the collar over it. It backs into the shafts like a lamb. It draws its load cheerfully and is patient of the bit and of the whip. But genius is always impatient of its harness. Its wild blood makes it hard to train.

THE RULE OF THREE.

Three things to govern—Temper, tongue, conduct.
Three things to love—Courage, gentleness, affection.
Three things to hate—Cruelty, arrogance, ingratitude.
Three things to wish for—Health, friends, a cheerful spirit.
Three things to avoid—Idleness, loquacity, flippant jesting.
Three things to fight for—Honor, country, home.
Three things to think about—Life, death, eternity.

BE HELPFUL.

When you rise in the morning form a resolution to make the day a happy one to a fellow creature. It is easily done—a left-off garment to the man who needs it, a kind word to the sorrowful, an encouraging expression to the striving. Trifles in themselves as light as air will do it, at least for the twenty-four hours, and if you are young, depend upon it, it will tell when you are old, and if you are old it will send you gently and happily down the stream of time to eternity.

GOOD DEEDS.

You must always remember that if the opportunity for great deeds never comes to you the opportunity for doing good deeds is renewed for you day by day. The thing for us to long for is the goodness, not the glory.—Frederick W. Farrar.

HOUSE INCREASES MEMBERSHIP

Senate Reports Bill to Give That Body Forty-Two More Members.

Washington, June 29th.—The Senate Committee on Census has agreed to report the Congressional reapportionment bill without amendment, providing for 433 representatives, notwithstanding practically all the committee members had expressed themselves as opposed to the increased representation.

The bill provides for 43 representatives over the present number, and was framed so as to prevent a decrease of the membership from any state. Three of the ten members present, Senators La Follette, Du Pont and McLean voted in the negative, but while expressing disapproval of the increase the other 7 decided to allow the House to have its way in a matter so peculiarly pertaining to its own affairs. The report will be withheld for a week to give Mr. La Follette time to prepare a minority report, which will be presented by Senator Bailey.

BACK AT ITS OLD TRICKS

Morgan-Guggenheim Syndicate Making Another Grab at Alaska.

Washington, June 28th.—That the Guggenheim syndicate in Alaska can afford to laugh over the loss of the Cunningham coal claims by the decision of the Land Office provided it is able to engineer through an application now pending before the department for harbor privileges around Controller Bay, Alaska, was the charge which today impelled Senator Miles Poindexter, (Rep. Wash.) to introduce a senatorial resolution in the Senate.

The resolution demands that President Taft produce all records bearing on the Controller Bay filing by James J. Ryan and others connected with the Controller Railroad and Navigation Co. Mr. Poindexter is convinced that if this claim goes through, the Guggenheim will control the only feasible outlet for coal, and have all the railroads in their grasp.

"It now seems evident that the interests which were seeking to monopolize the natural resources of Alaska were not dependent entirely upon one method," said Poindexter today. "Control of transportation and access to these coal fields is equivalent to control of the coal itself. The harbor of Controller Bay is the only available deep water within reasonable access of the coal fields. Realizing this fact the administration on Feb. 26th, 1909, withdrew that portion of the shore line of Controller Bay which was essential for its use as a harbor.
