SHORT PASSING EVENTS

SATURDAY.
5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c.

Three cases of disorderly conduct were disposed of in the police court yesterday afternoon. The defendants all plead guilty and were dismissed upon the payment of the costs of the cases.

Have you noticed the scarcity of lightning bugs this Summer? Maybe they do not like our city ways and are more content to flash their little lights in the country, far away from the din and oppressiveness of the city.

A view of the harbor at this place just at this time will convince any skeptic that there is an immense amount of water traffic being carried on between this and other ports. At one dock three three-masted schooners are unloading cargoes of merchandise and there are numerous other smaller craft doing the same thing at various other local docks.

Quite a large shipment of Irish potatoes arrived in this city yesterday morning consigned to local dealers. The farmers say that they can get as good or better price on the local market than they can by shipping their products to the north just at this time and that they stand no risk of having a shipment returned to them or lost en route when sent to this city.

Fishermen coming into port state that there are very few fish in the surrounding waters just at this time. This condition is doubtless due to the fact that the recent rains up the State have caused the water to become very muddy and this driven the majority of the fish to other parts. This condition, however, does not seem to have any effect upon the thousands of crabs that inhabit the local waters.

Just a year ago the Corporation Clerk in the Department of State at Raleigh issued a circular in regard to the number of automobiles in this state. At that time there were 1,580 machines in the entire State. Out of this number there were 23 in Craven county. A fair estimate of the number of the machines now owned by citizens of this county would be about 50 machines. This number of machines would cost approximately \$75,000.

Although several of the near beer dealers took down their signs on July 1st, as the law prescribed they also took out government beer license. This is a mild suggestion that there may yet be something doing in the near or far beer business, even though the State says "thou shall not." If they are caught red handed with the goods may be they can do as the Standard Oil Company did and find another Judge Stronach to settle the matter for them.

SUNDAY.

5 or 6 doses "666" will cure any case of Chills and Fever. Price, 25c.

Every precaution should be taken just at this season against contracting fever in one of its many forms. Often times typhoid is brought on by over exertion in the sun. This can be avoided by proper care. Stay out of the sun as much as possible.

A message received in this city last night stated that Mr. Arthur A. Larnfield, son in law of Mr. Geo. W. Meredith, of this city, had died at Greensboro, yesterday afternoon and that the funeral of the deceased would be held at Mt. Airy this afternoon. Mr. Larnfield married Miss Bingham Meredith of this city a little over four months ago.

John Hughes, who was arrested Friday charged with being implicated in the operation of a still with George Horner, was given a hearing before Commissioner A. J. Loftin this morning, and required to give bond of \$100 for his appearance at the next term of the federal court in New Bern. He gave the bond and was released from custody.—Kinston Free Press.

TUESDAY.

An unusually large shipment of green corn arrived in this city yesterday morning from Pamlico county. The shipment was consigned to local dealers and it was readily disposed of the local consumers.

A boat load of small chickens arrived in this city yesterday morning from Pamlico county. These delicacies are very much in demand on the local market just at this time and they were

BUT TWO PASSENGERS

Attended by Seven Cooks, Eighteen Stewards and a Host of Servitors.

New York, July 8th.—The steamship Minneapolis reached New York from London with but two first cabin passengers. The vessel was tied up for 3 days at her English docks by the striking seamen, and when substitutes for the strikers were procured there remained but two passengers in the first cabin. During the six-day trip they sat in lonely grandeur, attended by 7 cooks, 18 stewards and a profusion of minor attendants.

A party of amateur fishermen from the western part of the State passed through this city yesterday morning en route to Beaufort. One of the party informed the writer that they had been reading of the large catches at that place and that they were desirous of trying their skill with the line and reel.

OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines."

—Mrs. J. G. JOHNSON, Scottville, Mich., R.F.D. 3.
Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record for the largest number of actual cures of female diseases.

WILL PURIFY ATMOSPHERE NEXT

Dr. Wiley Wants Smoking, Chewing and Drinking in Public Forbidden by Law.

Washington, July 10—Dr. Harvey W. Wiley, the Government pure food and drug expert, has joined the Non-Smokers of America, an organization whose object is to discourage smoking in public.

"I predict that within twelve years smoking and tobacco chewing in public will have become obsolete," said Dr. Wiley today. "A man has a perfect right to drink, chew or dip snuff in his private sanctum, but he has not the shadow of a right to inflict unwholesome smoke and his vile breath on the community at large.

"There should be a strictly enforced law prohibiting smoking and chewing in public places or on the cars where other persons are obliged to be.

"College students, a brand of animal that is not noted for daintiness or regard for the feelings of others, will crawl under a grandstand to take a pull from the bottle that curses. Even these fellows will not drink openly so that their fellow citizens can watch them, and the same thing will come to pass as regards tobacco within the next few years."

ENTERING PORT ARTHUR.

It is Something Akin to Sailing Through a Picture Frame.

Getting into the harbor of Port Arthur is something like an Alice in Wonderland trick. One sails through a picture frame—the rocky bluffs at the mouth, barely wide enough for a stout ship to squeeze through without lacing—wondering how there can be room for a ship to anchor between the frame and the picture itself, a small hamlet somewhat Swiss or Norwegian in homeliness. But once behind the frame the wonderland unfolds. The small basin of water becomes a lake-like body, delightfully protected behind sheltering cliffs. The little hamlet reaches out into two big towns, one on either side.

The old town to the east contains the older Russian buildings, barracks, storehouses and the like. Here also now are the small Japanese shops and the poorer classes of Japanese dwellings, semi-Japanese in construction, with the ramshackle Chinese quarter on the outskirts.

The new town to the west is an open, modern European or American residence section, built largely by the Russians in the early days, imposing government buildings erected by the Japanese, a hospital, a shady park and a well run modern hotel.—New Orleans Times-Democrat.

Punishment After Death.
A negro, already under sentence of life imprisonment, was convicted of two charges of assault to murder. With great gravity the jury sentenced him to five years on each charge and ordered the prison officers to keep his corpse for ten years after he died. Perhaps a little theology entered the decision, the jury feeling as did the man found hammering away at a snake after he had killed it and who explained by saying he believed in punishment after death.—Judge.

There was a time when our people used light-wood knots for lights. There was a time when lead and oil mixed by hand was the best paint for our houses. Those days are no more—Electricity and machinery have put the tar knot light and hand-mixed paint into yesterday's page of history—See J. S. Basnight Hdw. Co., for B. P. S., a machinery mixed paint. A WEAK WOMAN AND HER STORY

In Floral, Ark., Lives a Lady Who Feels That Her Strength Was Restored by Cardui.

Floral, Ark.—"I must speak a good word for Cardui," writes Mrs. Viola Baker, of this place.

"About a month ago I was in very bad health. I was so weak and nervous that I was not able to do my housework.

"My husband bought me one bottle of Cardui, the woman's tonic. I took it according to directions and now I am in good health.

"I think Cardui is a fine tonic for weak women."

"And you are not the only lady who thinks so, Mrs. Baker.

"Thousands, like you, have written to tell of the wonderful benefit Cardui has been to them.

Cardui contains no minerals, or other powerful drugs. It contains no glycerin or other mawkish-tasting ingredients.

It is just a pure, natural extract, of natural vegetable herbs, that have been found to regulate the womanly functions and strengthen the female system.

All druggists sell Cardui. See yours about it.

WANT MORE LIQUOR LEGISLATION

Bill to Prohibit Mails Carrying Advertising Soliciting Sale of Intoxicants in Dry States

Washington, July 10th.—Two bills aimed at the traffic in intoxicants into "dry" states from other states has been introduced by representative Roddenberry, of Georgia. One of them would prohibit the use of the "mails for the purpose of advertising, soliciting or offering for sale intoxicating liquors in communities where state or local laws forbid the sale of such liquors."

The other bill would make it unlawful "to collect or receipt for a special tax for carrying on wholesale or retail liquor business in states where the laws forbid the sale of intoxicants."

His Sudden Call.

The Masons of Manhattan gave a banquet. The toastmaster called upon one brother whose name was not on the program. It rather confused him.

"Look here, Mr. Toastmaster," said he, "this isn't exactly fair. You have called upon me to make an ass of myself without any preparation whatever."—Kansas City Journal.

NO PENITENTIARY FOR THEM

Dishonest Meat Packers Can Only Be Sent To House Of Correction.

Chicago, July 8—After a nine years' fight District-Attorney Edwin Sims now confesses that the packers can not be sent to the penitentiary if convicted under the Anti-Trust law. Heretofore it was generally believed they could be both fined and imprisoned. Now Sims says:

"The packers are charged with a misdemeanor and can not be sent to a penitentiary. The fact that the Government has no place of detention of its own in this district gave rise to the report that if sentenced to serve terms of one year, as provided by the Sherman act, the packers would necessarily be at liberty.

"There is a special statute which gives us power to make arrangements with local authorities. This is done frequently. Several oleomargarine men sentenced for misdemeanors have served their terms in the House of Correction."

Special Assistant Attorney-General James H. Wilkerson, who is specially engaged to prosecute the packers, said:

"These indicted men are facing imprisonment for a misdemeanor, not a felony. If they should be found guilty and remanded to places of detention the court could send them wherever it chose. The county jail, however, is the most probable place."

Auspicious Opening of the Southern Automobile College

The Southern Automobile College, Oak Ridge, N. C., opened its doors April 17th. It has been crowded to the limit ever since. Students are arriving daily, and daily are going out to accept paying position in this most fascinating business.

They announce a special June offer to students of schools and colleges, and to men who want to better their salaries. Automobile owners also would do well to write for information.

TOBACCO CHEFS.

Experts That Make Sauces For Flavoring the Different Brands.

"I am a tobacco chef," said the sal-low man. "I make the sauces that give us smoking or chewing tobacco as a food chef makes the sauces which give us sole Colbert or poulet creole.

"Take this dark, sweet, juicy plug of 'navy brown,' so popular among the more prosperous type of teamsters. Well, the flavor of this plug is due to a sauce made of sugar, licorice, whisky and honey.

"Here is a mild, cool pipe tobacco that college boys favor. Smell it. Very aromatic, eh? Well, it has been steeped in a sauce composed of the essential oils of citronella, bergamot and cassia.

"But it is when you come to the high grade Havana cigar, the cigar that sells for 40 or 50 cents, that you see the tobacco chef at his best. He doesn't make his sauces then of such common ingredients as sugar, bergamot, licorice and so forth. No, he makes them of bacteria. The flavors of the high grade Havana tobaccos depend, you see, entirely on their ferments. Each tobacco undergoes a different fermentation and here the chef comes in, applying the bacteria of years which cause these fermentations to the leaf.

"Yes, the tobacco chef of the highest type, the one who ferments Havana tobacco, handles the various breeds of bacteria as an ordinary chef handles pepper and salt, mustard and cloves and mace."—Buffalo Express.

Two Sets of Muscles.

You have two sets of muscles—the outer ones, which you can feel, and the inner ones, which are your lungs, heart, stomach and other internal organs. The outer ones are conveniences for performing actions. The inner ones are your life—the "fate" which makes you happy or depressed, powerful or weak, useful or the contrary. These inner muscles require training, just like any other muscles, by intelligently directed exercise.—J. Edmund Thompson in National Magazine.
