## SHORT PASSING EVENTS

### WEDNESDAY.

During the past few days but very little cotton has been disposed of on the local market. The buyers are of the opinion that but little more of the staple will be brought here until the fall.

There was little or no change in the temperature yesterday. The mercury continued to hover above the 90 degree mark in the shade and despite the prediction of the weather man, cool weather has not yet put in its long looked for appearance.

One of the leading local physicians informed the reporter yesterday morning that there was comparatively little sickness in this city just at this time. A few weeks ago there was quite an epidemic of fever and measles but at the present time there are but few cases.

It was learned yesterday that Metrol Mitchell, the colored man who was shot during a street brawl Sunday night near Five Points by Wm. Chapman, also colored, has but little chance for recovery. Two of the four bullets that the assailant fired passed through his victim's lungs.

Owners of dumb animals should make every attempt to keep them as cool as cool as possible during this extremely hot weather. Some of the animals driven on the streets never have more than an hour's rest during the entire day. This is cruel to the beasts and if there was a society for the prevention of cruelty to animals in this city, the owner would be handed by the law. For humanity's sake if nothing else, the drivers should allow them to rest whenever possible.

United States Commissioner A. J. Everts this morning bound George Horner over to the next term of the federal court at New Bern, in the sum of one hundred dollars. Horner is charged with operating an illicit still, which was captured by the revenue officers last week. Jay Cade, who was also arrested, charged with being implicated in the operation of the still, was also given a hearing and bound over to federal court by Commissioner Loftin, in a hundred dollar bond.—Kinston Press.

The unloading of a cargo of cattle from a boat yesterday furnished a considerable amount of amusement to a crowd that was attracted by the cry of "man overboard" a wild looking steer, hoisted ashore, before he could be made fast, espied a negro and made a furious charge upon him. The negro made a few leaps—and they were long ones—before he landed head first in the Trent. He evidently preferred death in its cool waters rather than on the points of the mad animal's horns. He was finally fished out and not much the worse off for his wetting.

### THURSDAY.

It was reported here yesterday that one of the revenue officers in this section had been shot and seriously wounded near Kinston. An investigation was made but so far as could be learned no such occurrence had happened.

A refreshing rain fell in this city yesterday afternoon shortly before 1 o'clock. Aside from doing all plant life a deal of good the shower considerably cooled the atmosphere and caused the mercury to descend several degrees.

Several schooners which were loaded with merchandise from the northern markets arrived in port yesterday morning. The cargoes were consigned to local merchants and all through the day the crews were busily engaged in unloading.

Mr. J. Council Brown is having the mill building located at the foot of Met calf street, and formerly occupied by him, remodeled. The reporter was informed yesterday that when the improvements have been completed the building will be used as a fertilizer plant.

From present indications there will be a very small docket at the next term of court, but the majority of the cases will be interesting ones. Burrell Casey and his wife are the only defendants on the docket at the present time charged with capital crimes, the others are only minor offenses.

A "hamb" pony passed through the

city yesterday morning enroute to Ayden from Beaufort. The little animal was being shipped by express and he was giving the men on the car a warm time. Not content with kicking off the ends of the crate in which he was confined, he endeavored to chew up the boards.

Two carloads of watermelons arrived in the city yesterday morning from Florida. Up to the present time practically all of the melons sold on the local market have been brought in from points outside of the State. Within a few weeks, however, all of these delicacies disposed of here will be home grown.

The Norfolk-Southern announces in a second circular concerning the excursion to be run from Goldsboro to Norfolk on July 18, that persons going may remain over until Sunday noon. This gives the opportunity to spend five days in Norfolk for the very low round trip rate of \$3.00. Those desiring to do so can visit Washington City and Baltimore and return on the excursion train.

A message received here last night stated that one of the worst storms of the season visited Wilson and vicinity yesterday afternoon. Telegraph wires all along the line between Wilson and Freemont were blown down and there was general havoc played by the wind and rain. The Postal Telegraph Company's wires were blown down and the office in this city was delayed in sending messages via that place for several hours.

### FRIDAY.

A visitor in the city yesterday morning from Pamlico county informed the reporter that a refreshing rain fell in that section Wednesday afternoon and also Wednesday night. The shower was accompanied by a high wind and this did considerable damage at some places.

According to the signs of the zodiac dog days are now with us and the hundreds of complaints of ailments that are invariably heard during this season are beginning to make their appearance. People should use every precaution to avoid contracting fever and other diseases just at this season.

Don't fail to read the next installment of "The Third Degree" which will appear in Sunday's Journal. This is one of the most interesting stories ever written and is well worth the price of the entire paper. Several other very interesting articles on different subjects will be published in that issue.

M. E. Whitehurst & Co., are making a number of improvements in their store on Pollock street. New shelves are being put in, the interior repainted and a general re-arranging of stock is being made. This progressive firm are endeavoring to give the people of New Bern one of the best retail book and stationery stores in the State.

Boys who go in bathing at some of the various docks around the waterfront should take notice of the fact that they are required to wear bathing suits. Recently there have been several complaints made at police headquarters that crowds of boys are going in swimming within view of the public without the least vestige of raiment covering their bodies.

Next Tuesday the Norfolk-Southern will operate an excursion from Goldsboro to Norfolk and return. The fare from this city will be \$2.50 for the round trip and it is more than probable that a large number of New Bern people will take advantage of these low rates to visit that city. Those who go will be given an opportunity to visit Washington, D. C. and Baltimore at a very small cost.

Despite the fact that the local market is well supplied with young chickens just at this time, the price of these delicacies still remains the same as it was several weeks ago when they were comparatively scarce. The dealers say that the cause of this is that the producers can ship them to other cities and get as good price as they are paid here and that they are compelled to give them their price.

Yesterday morning a small boy who had been sent on an errand by his mother narrowly missed being instantly killed by an automobile in the business district of the city. Parents should use some discretion in sending small children unaccompanied into the business district of the city. The little tota do not realize the danger in crossing a crowded street and are liable to be either killed or injured by passing vehicles.

Mayor McCarthy has given the policemen orders to arrest and bring before him all vagrants, both white and colored, that they may find within the city limits. During the past few weeks crowds of negroes have congregated around public places all over the city, and they are fast becoming a nuisance. When they are arrested and brought to trial they are compelled to show some good cause why they are not at work or else take a job on the street cleaning force.

The thousands of swallows that have during the past few years migrated to this city along about this time, and who up to the present year took up their habitation in two large trees near the First Baptist Church, have again made their appearance. The trees were removed last year and the birds were compelled to seek other quarters. Several large trees in a lot at the corner of Craven and South Front streets evidently suited their fancy and their chattering at night in that location can be heard for more than a block.

Pizarro, Va.—"I suffered for several years," writes Mrs. Dorra A. Smith, "with that awful backache and the bearing down sensations, so fully described in your book.

"I tried doctors and other medicines and found little relief, until I was induced to try Wine of Cardui, when I found instant relief and today I can heartily recommend Cardui to all suffering women and think there is no other as good."

In some instances, Cardui gives instant relief; in others, it may take a little time. But in all cases of female trouble Cardui can be depended on to be of benefit, as it is a specific remedy for women and acts in a curative way on the womanly organs.

As a general tonic for women, to build up your strength, improve your appetite, bring back rosy cheeks and make you look and feel young and happy, nothing you can find will do so much for you as Cardui.

Your druggist has it.

## N. Y. APPROVES INCOME TAX

Assembly Voted to Ratify Proposed Amendment to Federal Constitution.

Albany, July 13.—New York State's approval of a Federal income tax was given when the Assembly adopted by a vote of 81 to 42 the resolution ratifying the proposed amendments to the United States constitution. The Senate several weeks ago approved the measure. Only one Democrat broke away from the party pledge to support the resolution, and nine Republicans voted against it despite the protest of their leaders.

Republican opponents declared that New York State would suffer at the hands of the Western and Southern States, which "had put their heads together indirectly to manufacturing the business States what they couldn't do directly."

"A tax on incomes from whatever source derived," Republican Leader Merritt said, "will act in a manner detrimental to the securities of this State. The Western States need money for improvements and they propose to reach for it where it is. I don't like to see New York delivered, bound hand and foot, to a sister State."

The Wallace shipyards in Vancouver, B. C., were destroyed by fire.

The various docks around the waterfront should take notice of the fact that they are required to wear bathing suits. Recently there have been several complaints made at police headquarters that crowds of boys are going in swimming within view of the public without the least vestige of raiment covering their bodies.

Next Tuesday the Norfolk-Southern will operate an excursion from Goldsboro to Norfolk and return. The fare from this city will be \$2.50 for the round trip and it is more than probable that a large number of New Bern people will take advantage of these low rates to visit that city. Those who go will be given an opportunity to visit Washington, D. C. and Baltimore at a very small cost.

## COFFEE RATES TO BE REDUCED

The Interstate Commerce Commission Will Reduce Rates From New Orleans.

Washington, July 13.—A reduction of approximately 20 per cent. on coffee shipped from New Orleans to Birmingham, Ala., has been requested of the Interstate Commerce Commission. A reduction of this or any other considerable amount naturally would affect the rates on coffee from New Orleans to all Northern and Eastern points.

The complaint was instituted by the freight bureau of the Merchants' and Manufacturers' Association, of Birmingham, against the Louisville & Nashville Railroad Company, and other north and south carriers. Certain low grades of coffee now are transported between the two cities at a rate of 35c. a hundred pounds, the higher grades taking a rate of 55 cents a hundred lbs.

The rates from New Orleans to Nashville, Tenn., are now respectively 22 cents and 28 cents a hundred pounds, although the distance between New Orleans and Nashville is greater than that between New Orleans and Birmingham. The Birmingham rates, therefore, are alleged to be excessive and discriminatory.

Bond Election Farm Life School No. Seven Township.

Whereas, one-fourth of the free-holders of No. 7 township having certified their intention to apply to the Board of Trustees of the County Farm Life School to have the said school located in the seventh township;

And whereas, the said one-fourth of the free-holders of No. 7 township, presented a petition to this Board, asking that an election be held in No. 7 township, at the regular polling places in said township, on Saturday, August 5th, 1911, for the purpose of voting a thirty year bond issue in the sum of \$10,000.00 of said No. 7 township, Craven county, bonds bearing 5 per cent interest, and for levying and collecting on all the taxable property and polls in said township, sufficient to provide for the payment of interest on said bonds and creating a sinking fund, for the payment thereof, for the purpose of offering the same under the provisions of section 9, as aforesaid, to the said Trustees of the County Farm Life School, provided said County Farm Life School be located in the seventh township.

Now Therefore, it is hereby ordered that an election be called and held in No. 7 township, Craven county, at the regular polling places in said township, on Saturday Aug. 5th, 1911, during the hours on said day as prescribed by the general laws governing new registrations, at which election those favoring the issuing of said township bonds, and the levying and collecting of such a tax for said purpose shall vote a ballot on which shall be written or printed the "For County Farm Life Schools," and those opposed, shall vote a ballot on which shall be written or printed the words, "Against County Farm Life Schools."

Ordered Further, that for the purpose of holding such elections, Mr. H. C. Wood is hereby appointed Registrar, and Messrs. J. W. Conner and J. A. Miller are hereby appointed poll-holders. At the close of said election, the Registrar and Poll-holders shall certify the returns of said election to the Board of County Commissioners, at their next regular meeting after said election, in the same manner and governed by the said laws as such election, officers are requested to certify election returns in any general election.

By order of the Board, this July 3rd, 1911.

S. H. FOWLER,  
Clerk Board of County Com.

THE X RAY TREATMENT FAILED BUT DUFFY'S ITCH OINTMENT CURED ME.

Writes a prominent physician of South Carolina.

He had tried everything for Eczema on his hands, known to the medical profession for seven long years; when almost by accident his attention was called to Duffy's Itch Ointment.

Recommended for all itching scalp or skin diseases.

Dealers are instructed to refund purchase price if patient is not relieved or satisfied.

At druggists generally, or can be mailed on receipt of price, 25c., by
