### MRS. MCGILL BROKE DOWN

Gives the Real Facts in Regard to Her Case and Tells How She Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good.

One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this purely natural remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

M. B. White, Jr., Ladies' Advisory Dept., Chicago, Ill., writes: "I have used Cardui for several years, and it has done me much good."

### DANGEROUS LABOR REPORT

Showing in North Carolina. Estimated Cost of Growing Crops.

Raleigh, Oct. 26th.—Figures carefully gathered from all the cotton growing counties in North Carolina by the commissioner of labor and printing show that the farmers estimate the cost of growing cotton this year is \$33.07 per bale as compared with \$33.37 last season. The decrease in cost is figured to be due to additional yield. This estimate is made on 500 pound bales.

The commissioner finds that this year 35 counties raised wheat at a cost of 69 cents per bushel; 99 counties raised corn at an average cost of 48 cents per hundred pounds; 54 counties raised tobacco at \$7.63 per hundred pounds; 96 counties raised oats at a cost of 35 cents per bushel. There was a report of increased cost of living by farmers in 93 counties, seven reporting no increase, and reports of increase in wages of farm hands and 72 counties no change.

Reports from 91 counties show labor scarce and 9 plentiful. Tendencies toward smaller farms reported from 94 counties and to larger farms in 8 counties. Fertility is reported as maintained in farms of 97 counties. Reports from 94 counties report negro labor unreliable, 4 as reliable and 2 report no negro labor.

Rulers of England. The first to rule over all England was Egbert, king of Wessex, who united all the various petty kingdoms and became king of England in 827. The greater kingdom was disrupted from 878 to 908, when the Danes ruled north of the Thames. In the latter year King Edgar reunited the kingdom, and since that time it has never been partitioned.

Between Edmund Ironside (1016) and Edward the Confessor (1042) three Danish kings ruled all England—Canute, Harold I. and Hardicanute. The first king of Great Britain was James I. (1603). The first king of the United Kingdom of Great Britain and Ireland was George III. From the conquest of Ireland in 1172 by Henry II, the kings of England were styled Lord of Ireland until the assumption of the title king of Ireland by Henry VIII, and there after this title was used until the act of union in 1801. The imperial sovereignty of India was assumed by Queen Victoria.

The sidewalks, and steps entering the Government building, as usual during the sessions of Federal Court, present a disgusting appearance. It would seem that some force or persuasion could be employed to turn the spitters elsewhere. There are ladies and gentlemen who have to go to the post office and pass this spectacle daily this week.

Tonight the Metropolitan Grand Concert Co will give one of their concerts at Griffin Memorial hall. This company visited New Bern last year and pleased a large audience. At the previous concert seats sold for \$1 each. This time the price has been reduced. Tickets can be secured from any member of the Circulating Library Committee or at the door tonight. If you are a lover of good music and melodious singing you should not fail to attend this concert.

### CHINESE COME VIA CANADA

Immigration Commissioner Suggests Registration, Vassalage on Hawaiian Sugar Plantations.

Washington, Oct. 25.—Commissioner General of Immigration Keefe has virtually completed his annual report and will submit it to Secretary Nagel next week. He has laid special stress on Chinese immigration, labor conditions in Hawaii and the present status of the international white slave traffic.

The business of smuggling Chinese into this country has been growing steadily in spite of the efforts of inspectors. Most of the Celestials are coming over the Canadian border. Owing to the length of the border, Mr. Keefe will report, it is impossible for his Agents to keep these activities within bounds. Last year more than eight thousand Chinamen landed in Canada. A great percentage of these have entered the United States. The government has 55 cases in court at present, but this does not represent a fraction of the number who have entered this country.

The ease with which Chinamen can get into the United States from Canada has caused an increase of more than 100 per cent in the number of immigrants who have entered the Dominion within the past five years. Canadian statistics give 22,000 Chinamen residents, although it is known that two or three times that number have entered the country in the past decade. Th others have been smuggled across the American border.

Mr. Keefe will advise Secretary Nagel that the only way to handle the Chinese situation is to register all Celestials now in this country, irrespective of the manner of their entry, and to allow them all to stay here. He will suggest that Congress then pass a law that every Chinaman found without registration papers be deported.

After a two months' trip in Hawaii, Mr. Keefe made a report to Secretary Nagel on labor conditions on the sugar plantations, severely arraigning the great land owners for keeping the greater part of the population in a state of vassalage. He will ask Congress to take action to remedy the "commensary store" system by which the underpaid laborers are deprived of their meagre earnings by overcharging for food stuffs.

United States Immigration Inspector John Clark, of Montreal conferred with secretary Nagel. It is understood that one of the subjects under consideration was Mormon immigration. Officials say the immigration of this class has dwindled greatly during the last year owing to the activity of the English authorities, who have thrown every obstacle in the way of the missionaries from Utah, but that there is still an influx of Mormons.

### More Than Gratuitous.

Appropos of the custom of some hostesses to invite professional artists to their home in the expectation that they will amuse their guests free of charge a story is told of Miss Forthie Bady the famous Parisian artist, who was invited to a social gathering and asked by the hostess to recite. She consented, and then, in order that there might be no mistake about the matter, she hostess said:

"How kind it is of you to work for us in this friendly manner!"  
The emphasis on the word "friendly" was so marked as to show clearly enough that the service was to be gratuitous. After the recitation was over Miss Bady took a silver card tray from a footman, and, imitating the musicians in the cafes chantants, she made a tour of the drawing room and collected whatever contributions were offered and they were substantial ones. Then she handed them to her hostess and left the house.
