REPORTED CAPTURE BY TURKS

Of Commander of Tripoli, Also Five Forts. Arabs Aid Sultan.

Constantinople, Nov. 2.—General Canova, commanding the Italian army in Tripoli, has been captured by the Turks, according to an official report given out at the War Ministry. Considerable doubt is expressed in foreign diplomatic circles here as to the statement's accuracy. The capture was effected, it is added, during a desperate fight between Turks and Arabs on one side and Italians on the other, in the streets in the outskirts of Tripoli. Official dispatches gave assurance, the War Ministry announces, that the Turks are steadily pushing the Italians back toward the coast, and confidence is expressed that they will be forced either to surrender or take to their boats soon.

War Minister Chesky Pasha is himself authority for the announcement that the Turks captured five more forts at Tripoli after three hours of hard fighting, which ended much in the Turks favor, despite the fact that the Italians were assisted by a fire from their torpedo boats off shore. The Italians are being reinforced daily, the War Minister says, but to offset this Arabs from the deep interior are flocking to the Turkish standard.

MILITARY RULE FOR ISTHMUS

Government of Canal Zone May Be Like Gibraltar's.

Washington, Oct. 30.—The form of government which the British Army maintains, at Gibraltar may be the model upon which the United States will establish a government for the Panama Canal Zone after the canal is finished.

The likelihood that troops always will occupy the zone fits in with ideas of a military government. It is reported from the Isthmus that Major-General Leonard Wood, chief of staff of the army, has declared he would not Judge Advocate General Crowder to Gibraltar to study the problem.
