## CONTINUED ANXIETY AT PEKING

### Over Coming of General Chang and Army Preparation For Struggle.

Peking, Nov. 13.—Two men are on the way to Peking, whose coming is anxiously awaited.

One is Liang Chichiao, the noted reformer, who is deemed the most influential Chinaman of letters. He is on his way from Japan, where he has long been in exile.

The other is Gen. Chang Shaotzen, commander of the Lanchow troops, who forced from the throne promises of a constitutional government.

Chang refused to go as Imperial Envoy to conciliate the people of the North saying that his troops wanted to remain under his command, but now he is on his way to the capital at the summons of the Government. Thousands of thousands of natives fear that he may not come alone.

In the National Assembly members have asked what measures had been taken to protect Peking against Gen. Chang and whether he is coming at the head of his troops. No member of the Government was present to reply, but the President of the Assembly stated that Chang is accompanied by his soldiers and that peace evidently ordered him here because he stands for the best of the Manchu dynasty can now hope for a constitutional monarchy.

Chang cannot capture Peking without a struggle, it is thought at the legations. He may be permitted to enter, but a fight is certain before the Manchus will surrender their privileges. The Manchus undoubtedly are preparing for a siege, are storing great quantities of rice in the barracks. The police's loyal garrison has been increased by small bodies of picked men. A thousand have arrived from Changchun, the Chinese are being outfitted and are being sent outside the walls. The city gates have been overhauled and strengthened.

Prince Regent Chun is incapable of connected thought, it is stated semi-officially, and the nobles cannot agree upon a definite line of action.

Gen. Yin and other high officials and Princes have taken refuge in the legation quarter hotel, which still other Manchus have sought shelter in the various legations.

Sealed boxes of treasure arrive at the legations daily. Ancient works of art appear on the legation walls. These have been given to the members of the legation for safe keeping. Special trains drawn by double engines and packed with passengers are making continuous trips to Tientsin.

### To Avoid A Cold.

With the sudden fall of the temperature persons run a great risk of catching cold. There is one simple way of avoiding colds keep your mouth shut while out of doors. The man or woman who comes out of an overheated room especially late at night, and breathes through the mouth, will either catch a bad cold or irritate the lungs sufficiently to cause annoyance and unpleasantness. Chills are often the result of people talking freely while out of doors just after leaving a room full of hot air, and theater-goers who discuss and laugh over the play on their way home are inviting illness.

## SOUTHPORT WILL CELEBRATE

### First Passenger Train Will Enter That Place On Nov. 23. Planning Big Day.

Southport, Nov. 10.—Thursday, November 23, will be a Red Letter Day in the history of Southport. On that day the first passenger train will enter the town and a celebration appropriate to such an important occasion has been planned and the people of the entire State are extended a cordial invitation to be present on that day.

Arrangements will be made to have boats run at frequent intervals to and from Fort Caswell so that visitors may have the privilege of seeing the Fort, with all its attractions, and a glimpse of the "mighty Atlantic" at the same time. The officers at Fort Caswell are invited to serve on the Entertainment Committee and their co-operation will add greatly to the success of the day. The military band will be strongly in evidence, and the committees in charge of the musical part of the program it is hoped, will make sure that there is music a plenty for every one to enjoy. This is one of the chief attractions of the day for many of the good people of the County who cannot listen to a hand concert every week in the year.

Boat racing and field sports will take place during the afternoon, following the barbecue, and bear-steak event, and if the weather is fair, these sports may include baseball.

It is proposed to make the 23, a red letter day and to do justice to the occasion the whole state is invited to take part and help celebrate. People of prominence from all over the country are expected in Southport on that day and invitations are to be extended to all the public men in North Carolina to be guests of Southport at that time.

The program is being arranged and it is going to be one that will wake old Southport from the one hundred years sleep, and focus the eyes of the state and the world on a new born ocean port.

### Exciting Runaway.

Becoming frightened at some trivial object a pony owned by Mr. S. W. Ferebee and which was being driven by young Robert Ferebee, dashed down Craven street late yesterday afternoon and despite all the efforts of the young driver, who was seated in the small cart to which the animal was hitched, gained so much momentum by the time he had reached the intersection of Pollock street that he was only touching the pavement in the high places. Young Robert courageously held on to the reins and succeeded in bringing the animal to a stop near Redmond's wharf at the foot of Craven St. Nothing was injured but a large number of people who witnessed the runaway expected every second to see the driver, pony and cart all badly injured and damaged.

"It's curious how habits fasten themselves on people. You know Wappler?"

"Yes."

"He's an enthusiastic fisherman and always has a story to tell about some gigantic monster of the deep that he has almost caught."

"I've heard him tell a lot of lies of that kind."

### Dana's Ten Books.

Charles A. Dana once made a list of ten "indispensable books." They are the Bible, Shakespeare, the Declaration of Independence, the Constitution of the United States, Bancroft's "History of the United States," Irving's "Life of Washington," Franklyn's "Autobiography," Chauncy's "Essay on Napoleon Bonaparte," Gibbon's "Decline and Fall of the Roman Empire" and Trollope's "Early Life of Lincoln."

### In Mourning For Tigers.

The Moss-Ard, otherwise known in Darraug as Bagh-larod, the tiger folk a suburb of Agra of the Bara race, still regard it as the correct thing to go into mourning for twenty-four hours or so whenever a tiger dies near their village. Solid food is tabooed, so slight privation to the Kachert, stout fellows and, in fact, the natives of Assam par excellence. Then at the end of the fast there must be a general cleanup, the floors and walls being smeared with a mud, clothes and brass utensils being thoroughly cleaned in running water and earthenware vessels that have been used at all being actually broken and thrown away. Lastly, snail-jal, "the water of peace," is drunk and the flesh of a sacrificed fowl or pig eaten by all the clansmen in common.—London Athlete.

## ITALIANS ARE AGAIN VICTORS

### Repulse Determined Attack by Ambushed Turks and Arabs.

Tripoli, Nov. 11.—Strong forces of Turks and Arabs, supported by artillery, delivered a determined attack on the Italians today all along the line between Hamidch and Boumeliana, but principally against the extreme left.

Beginning early this morning with a series of skirmishes, the fighting all noon took on the character of a general action. As usual, the Turks displayed desperate courage, but were unable to withstand the tremendous combined fire from the trenches and the field artillery and guns of the armored cruiser Carlo Alberto, which lay in the roadstead. Therefore, they retreated all along the line.

While the eleventh Bersaglieri were attacking the fort at Hamidch, which had been stormed last night, they were suddenly taken on the flank by a large force of Arabs hidden in the palms and olive groves and heavy losses were sustained before the enemy were beaten off.

## COTTON MARKET PAST WEEK

### 15,000,000 Crop and Whether Nine Cents Seems To Meet Consumptive Demand.

New York, Nov. 11.—Although prices have almost shown weakness they have latterly rallied. When the market near nine cents it strikes a spinning demand from home and foreign houses, which cause an immediate recoil. The opinion is gaining ground that even a crop of 15,000,000 bales has been pretty nearly discounted in the enormous price. These critics think the yield may easily be put to be no more than 14,000,000 bales, and in fact, a Chicago house the other day estimated it at only 13,000,000 bales. December at times has been suggestively strong.

Meantime, the weather at the South has been rainy and unsettled, interfering more or less with the movement of the crop. The holding back movement seems, if anything, to be gaining momentum rather than dying out. Large spot interests have at times been buying January. Wall Street houses were buying rather more freely on Thursday and many of the shorts in the distant months have been covering. Manchester has been firm with a better demand and the spot sales in Liverpool have later been 10,000 bales a day. Yet there can be no question that there is still a strong undercurrent of bearish sentiment. It is based on the idea that the crop is 15,500,000 bales—no Southern estimate the other day put it as high as 15,000,000 bales—and that such a crop can only be absorbed or financed at a further decline in prices. Liverpool telegraphs that large shipments destined for China have been stopped. Though sales of print cloths at Fall River have latterly increased and some other branches of the cotton goods business have also shown improvement, the general condition of textile industry in this country still leaves much to be desired.

The South of late has sold December and so have spot houses against cotton coming here. The government will issue an estimate of the crop on December 11th, and believers in lower prices profess to the confident that it will be in substantial accord with their ideas as to the size of the yield. Yet the resistance to pressure which the market has latterly shown, together with talk of the persistent holding back of cotton encourages some who are disposed to begin buying in a cautious way for a rise while there is undoubtedly more or less nervousness among the shorts not a few of whom have latterly been covering, taking indeed, some 150,000 to 200,000 bales within two days, partly owing to wet weather and partly, it is said, because of the prodding by Eugene Scales and the Pell party in Wall Street, who are supposed to exploit the short interest whenever it becomes large enough to make it worth while.

## ELKS ARRANGING FOR MEMORIAL

### Annual Memorial Service in Memory of Departed Brothers Will be Held on Dec. 2d.

The ever beautiful and solemn service of the Benevolent and Protective Order of Elks, held in every city in the United States, in which there is a lodge of the entired tribe on the first Sunday in December of each year, will be held in the Masonic Theatre in this city on Sunday December 3.

The motto of this order: "The faults of our brothers we write upon the sands, their virtues upon the tablets of Love and Memory," is in keeping with the teachings of the order and it is to keep up the teachings of the order and it is to keep alive the memory of those who have passed on to the Grand Exalted Ruler of the Universe that these meetings are held, and the many good deeds of the departed Elks are recorded, and the eraser of brotherly love again wipes from memory forever, every fault, and records anew a tablet of virtue and filial affection.

Judge Robert H. Sykes, of Durham, has accepted an invitation to deliver the memorial address before the New Bern Elks.

The entire program has not yet been completed, but it is understood that a number of splendid musical selections have been arranged for and also several short talks by prominent members of the lodge.

### Beaufort News Notes.

November 13th.—Fishermen and the fish factory people are rejoicing now over the run of menhaden or fat backs, which began last Friday, in quantities. Long hours were the rule Friday and Saturday, the weather being fine for the boats, and the profits were large, some crews averaging \$40.00 per man for single loads. The fish are sold at \$1.10 per 100.

Sunday night as the Norfolk Southern mail train passed Thurman, a rock crashed through a car window on one side and then crashed through the glass on the opposite side, falling outside. Capt. Hinnant at once stopped the train and a rush was made to discover the guilty party. A group of negro youths were encountered and their names taken, no one confessing to be the culprit. Warrants will likely be issued.

The Wireless Station here reported a gale velocity of 60 miles an hour on Sunday.

### The Funny Penguins.

Of all the foreign birds to be seen in zoological collections it is the penguin that gains the most popularity with the least attempt to do so, says a writer in the London Graphic, who proceeds: They do not affably converse with the public like parrots or make grotesque grimaces like pelicans. Indeed, they studiously ignore the visitors whom they attract by their imitatively quaint caricature of humanity. No bird departs more in form from the usual bird type, and there is something about them which irresistibly suggests an overfed little boy in an overcoat with the sleeves very much too tight for him as they toddle about with their stiff wings hanging down or solemnly meditate a three inch jump.

## CYCLONE FOLLOWS WARM WAVE

### Causing Widespread Destruction In West. Temperature Falls Fifty Degrees.

Chicago, Nov. 13.—Reports received Saturday night by the Associated Press indicate that cyclonic storms, coming between the abnormally warm period and the following cold wave, have caused death and widespread destruction in southern Wisconsin, eastern Iowa and Illinois.

Twelve deaths, several dying and a score of injured are known to be lying in the wake of the storms, and suffering because of the bitter cold and sleet and snow already is being reported.

Southern Wisconsin was hardest hit, according to early reports. Near Orfordville, Rock county, nine persons were killed and another is reported to be living.

In the village of Virginia, Ill., three persons were found dead and fifty injured.

In Iowa a fifty degree drop in temperature, accompanied by a driving storm of sleet, tied up traffic for many hours.

An electric disturbance which ushered this storm, destroyed several feed wires in the city's electrical system and two men were injured.

Property losses mounted up rapidly in the path of the cyclonic blizzard. Nearly every public building in Virginia, Ill., was demolished, farmers' houses were wiped out in Wisconsin and the damage was increased by the heavy downpour of rain, sleet and snow.

Later reports indicated that the dead in Rock County, Wis., alone would reach a dozen. Two deaths at Milton Wis., were reported to the train dispatcher's office of the Chicago, Milwaukee and St. Paul Railroad, but the wires were blown down before the reports could be verified.

Severe weather conditions are reported all the way from the Rocky Mountains. In Chicago the wind blew 41 miles an hour.
