INTELLIGENCE BEYOND TODAY.

It is not too much to say that man seldom tries to attain a broadness of mind and vision that seeks with the effort of today, to wisely provide for the future. This in the grossly material affairs of today, for men lay aside wealth, property and insure their lives, to assure certain protection to relatives or those dependent upon them in life and so much more so when the man dies, but though all this provision by testament, on the part of the wealthy, there is largely a purpose of selfishness.

The world has a long record of those who have attempted during life to live for self only, and who have tried to continue the scheme through inheritance and entailment. But failures far outnumber the successes. It is fortunate that governing laws of the universe seem to rule against such endeavors of man.

How different from this personal selfishness, is the man, broad minded, liberal during life, who with a far reaching intelligence sees far beyond today, and leaves provision to have maintained after his death, the great purposes that were his during life. In this personal greatness and individual intelligent broadness, that looked beyond today and his earthly efforts, the late Joseph Pulitzer stands conspicuous. His far seeing and far reaching intelligent purpose and aim, is attested in his will in its many public spirited bequests. \$2,000,000, with conditions to Columbia University to establish and maintain a school of journalism. A long series of annual scholarships and prizes for the encouragement of journalistic, literary and dramatic writing and construction, and to stimulate students in music and art. \$250,000 to endow scholarships for deserving students seeking college education. Joseph Pulitzer, truly a genius for uplift and betterment of mankind in life, and death has not stopped this work begun and continued during life.

A MISUNDERSTOOD SAVINGS SYSTEM.

Any honest system that offers features and makes conditions favorable for any wage earner to save daily, weekly or monthly a portion of his money, is to be encouraged. The saving habit is one that cannot be cultivated too young, one that need never be given up because of age. Any man, woman or child with a known wage or income from any source, can with profit put away or save some portion of the money they receive. Just where to place money that is saved, so that it will earn for itself, is no difficult problem in this day. Bank officials gladly give free information on the subject.

Some months ago a new savings system was inaugurated by the government known as the postal savings banks. Hundreds of these banks have been established throughout the country, and be-

persons have been misled into giving the system undue credit as a savings one, that is wholly erroneous. As to safety, a postal savings bank is no better than the national and state banks. As to interest on accounts, the government allows two per cent against four per cent by the regular banks, while the tax is just the same two per cent.

Perhaps the most misleading feature of the postal savings, is the supposed great benefit of depositors being allowed to exchange their money for 2 1/2 per cent government bonds at par. If it was not the government, such an exchange would be characterized as a purely "confidence game," for these bonds can be brought in the bond market for \$92.50, so that postal savings bank depositors are paying the government \$100. for what may be purchased in the public market for \$92.50.

It is just as well for those who want to save their money to put it where they know what it is actually earning, and how, if invested in any kind of securities, what these securities are worth in the public market. There is no need for ignorance on this subject.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by druggists, price 75c. Take Hall's family pills for constipation.

One Disadvantage. Potts-It is a great deal better to own your own home and not have to pay rent, isn't it? Well, yes, in a general way it is, but it has its disadvantages. A fellow can't go round driving nails anywhere he pleases in the woodwork of his own home, you know.-Boston Transcript.

WOMEN

Women of the highest type, women of superior education and refinement, whose discernment and judgment give weight and force to their opinions, highly prize the wonderful corrective and curative properties of Chamberlain's Stomach and Liver Tablets. Throughout the many stages of woman's life, from girlhood, through the ordeals of motherhood to the declining years, there is no safer or more reliable medicine. Chamberlain's Tablets are

SAVED CHILD FROM DEATH.

"After our child has suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala. "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure and our child is again strong and healthy. "For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs, it is the most infallible remedy that's made. Price 50c and \$1.00. Trial bottle free. Guaranteed by all druggists."

Verdi Was Right. When Verdi was putting the last touches to "Il Trovatore" he was visited in his study by a privileged friend, who was one of the ablest living musicians and critics. He was permitted to examine the score and run over the "Ave! Chorus" on the pianoforte.

"What do you think of that?" asked Verdi. "Trash!" responded the connoisseur. Verdi rubbed his hands and chuckled. "Now look at this," he said. "Rubbish!" said the other, rolling a cigarette. The composer rose and embraced him with a burst of joy. "What do you mean?" asked the critic. "My dear friend," cried Verdi, "I have been making a popular opera. In it I resolved to please everybody except the purists, the great judges, the classicists like you. Had I pleased you I should have pleased no one else. What you say assures me of success. In three months 'Il Trovatore' will be sung and roared and whistled and barrel organed all over Italy." And so it proved.

Considerable damage was done to crops and shipping by the cold wave and storms.

WHAT WOULD YOU DO?

In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without leaving a scar. For sale by all dealers.

The Art of Poisoning.

Professional poisoners arose early in our era. It is recorded that Agrippina (A. D. 25) refused to eat apples at the table of her father-in-law, Tiberius, through fear of poison. The notorious Locusta flourished in that epoch. It is charged that she supplied with appropriate directions the poison by which Agrippina rid herself of Claudius. She also furnished the poison that was administered to Britannicus by order of Nero. This crime was committed in quite a conventional manner. The Romans were accustomed to drink hot water at table, but the same temperature did not appeal to all. A slave offered hot water to Britannicus. "Too hot," he remarked. The slave added cold water. Britannicus drank, gasped once or twice and died. The cold water was poisoned either with a cyanide or with prussic acid.

EYES OF THE WORLD NOW ON SAVANNAH

Savannah, Ga.—The eyes of the automobile world are fixed on Savannah and from now until the first day of the big races there late in this month Savannah will be the Mecca for every one interested in the world famous events. The railroads have offered reduced rates, numerous newspapers have conducted contests in which free trips to the races were offered as prizes, a big "around-the-state-tour" has been projected and will end in Savannah, automobile clubs in Richmond, New York, Philadelphia, Boston, Charlotte, Durham, Columbia, Charleston, Jacksonville, Atlanta, Augusta, Macon, Birmingham, New Orleans and many other cities will have cross country "runs" to the races, and it is certain that there will be more people in Savannah during the first four days of Thanksgiving week than were ever before there. The races are to be the greatest the world has ever known and every one who has any way of getting to Savannah and can spare the time is going to be there. The representatives of numerous foreign automobile clubs will be on hand, and all foreign entries must be made through the recognized clubs, which are Automobile Club de France, Royal Automobile Club of Great Britain and Ireland, Automobile Club of Italy, Kaiserlich Automobile Club, Automobile Club de Belgique, Oesterreichische Automobile Club, Automobile Club of Canada, International Racing Association of Cuba, Dansk Automobile Club, Nederlandsche Automobil Club, Magyar Automobile Club, Automobile Club of Guadalupe, Auckland Automobile Association, the Automobile Club of Porto Rico, Royal Automobile Club, Automobile Club of Romania, Automobile Club of Moscow, Royal Automobile Club of Spain, Kungl. Automobil-Klubben and the Automobile Club de Suisse. Of these France, Italy, Germany and the United States are the most interested, for they have the largest number of entries in the races. It will be truly an international, universal race meet and the winners will get not only the enormous cash prizes offered, but before duck falls on those eventful days their names will have been flashed to the four corners of the earth. It is small wonder that the people are literally wild over the coming races.

"I do not believe there is any other medicine so good for whooping cough as Chamberlain's Cough Remedy," writes Mrs. Francis Turpin, Junction City, Ore. "This remedy is also unsurpassed for colds and croup. For sale by all dealers."

HOW ONE WOMAN WON Her Health and Strength Back Again by The Use of Cardul.

Tampa, Fla.—In a letter from this city, Mrs. E. C. Corum writes: "I was almost lost my reason, but thanks to Cardul, I did not. Soon, I felt and looked like a new woman. I think the remedy is wonderful. I recommend it to my friends, for I have received great benefit from it." Cardul acts specifically on the weakened womanly organs, strengthening the muscles and nerves, and building them up to health. It helps to refresh the worn-out nervous system and relieves the effects of overwork, both mental and physical. Fifty years' successful use fully prove the merits of this purely vegetable, tonic remedy for women. In every community, there live some who have been benefited by Cardul. The beneficial effects of this time tested woman's remedy, soon show themselves in many different ways. Try it.

IS THE WORLD GROWING BETTER?

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. OLD PERSIAN RUGS.

Why They Retain Their Sheen in Spite of Their Great Age. If you have ever seen a Persian rug fifty years old or older which had been used only in its native country you have doubtless observed that, though made of wool, it had the sheen of velvet. This was due partly to the excellence of the dyes and the workmanship, but partly also to the fact that it had never known the touch of a shoe, but had been walked over in stockinged feet. If a man should enter your drawing room and stand on the soft and upholstered chairs it would appear no more outrageous to you than it does to a Persian to walk with shoes upon his rug. It seems impossible that such a beautiful thing as a Persian rug should be produced on the rudest of looms, consisting, as they do, merely of crooked, irregular beams of wood roughly fastened together. The rude construction of the loom explains why it is that every genuine Persian rug of any length is more or less crooked. This is because after part of it is woven it must be removed from the loom and lowered, and on so crude an affair it is impossible to get the warp of the second part exactly straight with that of the first part.

Until quite recently each province had its own style of rug, each village its own pattern, and yet each rug had an individuality of its own, and no two rugs were identical in design. The weaver copied designs and effects from trees and flowers or from common objects in everyday use. Sometimes a verse from the Koran or a stanza of a poem in the graceful, intricate Arabic character formed part of the pattern.—New York Sun.
