New Bern, N. C. November, 28, 1911 REMARKABLE DEMONSTRA

> TION FAVORING NEW BERN.

The old adage of "money talks," is as much in force today as ever. Opinion backed by dollars far out weighs in its effectiveness the best conversationist.

The abeve is actively proven in the article in Saturday's Journal, telling of the raising by popular subscription of \$300, among the farmers living along the line between New Bern and Aurora, a road that passes through parts of Craven, Pamlico and Beaufort counties. Weeks ago a committee representing the poeple of these sections come to this city, and asked that New Bern would join in a movement to put in first class order the road leading from this city to the vicinity of Aurora, saying it was their estimate that about four miles was the longest portion needing special expense in repairing, and to show their willingness in the wor', they agreed to raise \$250. of the \$1,000 they deemed necessary for this road work.

Friday last, the committee sent word to the Journal that \$300 was subscribed, and they were ready to join New Bern Chamber of Commerce in beginning the road work. The sections traversed by this road are rich in trade possibilities for this city. The fact that the counan equal response from the people of this city, through the Chamber Dearness is caused by an inflamed condition of the muccus lining of the Eusbe pledged at once to keep the flamed you have a rumbling the farmers will all help. No more Surfaces.

We will give One Hundred Dollars important matter confronts the Chamber of Commerce and the catarrh that cannot be cured by Hali's business men of this city, than to. follow at once the work now being prosecuted by the farmers.

NEW YORK BANKS AS PHI-LANTHROPISTS.

The press reports that New York Banks stood ready to place \$50,the purpose of handling the cotton crop of 1911, has been given all the publicity possible to make it appear as though these banks really meant it, in the way that the the plan to be.

The proposition was given out Southern governors and cotton con ference recently held.

The plan proposed to advance the grower \$25 a bale upon his cotton, based on the market value at the time of the loan. No interest to be paid upon the loan, the only burgh, was not permitted to testify. charge being \$1 a bale, which was regarded as a legitimate minimum charge for expense of grading and handling. The cotton not held, nor taken from channels of trade, but placed at the best advantage. The grower given the right to des iguate the day of sale price to Jan. 1, 1913, and farmers to participate in any advance in price to the extent of the rise in the market. Provision was made against any apparent violation of the Sherman law, in that each State committee named by the Gorernor or the Comioner of Agriculture of each state has the right to name the day f sale, if cotton reaches 12 or 13 mts, which gives only a close, le-Everything depended on the street of the str

Misspalled Words, Pupils Work Out of Hours. Thanksgiving Holiday and Offering For the Poor.

The accusation is often heard that children now-a-days are not as good spellers as in the "good old times." Of urse, there are good and bad spellers today as there were years ago, and as there will likely be for many years to come. Usually a poor speller has some defect in hearing or sight. During the past week an account has been kept of every word mis spelled in high school sition work. Out of the 8th, 9th and 10th grades, the following words were mis-spelled: giants, nymph, hea-ven, too, fascinating, jealous, until, poplars, pined, manage, stopped. These were found in 90 compositions,

There are quite a number of boys and

girls in the graded school who do work outside of school hours, for which they receive pay. In many instances this money is used to help support themselves. It may be of interest to know just what they do. A large number of boys collect in the afternoon and Saturdays, others clerk in grocery, fruit and dry goods stores; still others deliver telegrams and do work in the lumber yards; several sell newspapers and deliver our daily papers. Quite a number of girls work on the ouside also, but the majority help at home and receive pay for their time and labor Washing the dinner dishes, cleaning up the house, etc. seem to be favorite schemes for the girls. One girl does every bit of her own sewing, for which her father pays her, 48 boys and 22 tion with his pledge to reduce acre. The Norfolk-Southern's "Thankadiving girls report this outside work for which they receive pay. A number of the teachers expect to attend the North Carolina Teachers' Assembly in Raleigh, On next Thursday and Friday the usual Thanksgiving holiday will be given this year and there will be no school on either Thursday or Friday, Nov. 30th Dec. 1st. The usual thanksgiving offering for the poor afflicted of the city. will be taken on Wednesday next. A Post Who Dresded Fire. Thomas Gray, author of the "Elegy," had a weakness in the form of a nerv ous dread of fire. His chamber at St Peter's college, Cambridge, being on the second floor, he thought it likely that in case of a fire his exit by the stairs might be cut off. He therefore caused an iron bar to be fixed by arms projecting from the outside of his win ow, designing by a rope attached thereto to descend in the event of a fire occurring. This excessive caution led to a practical joke by his fellows One midnight a party of students thundered at his door with loud cries of "Fire, fire!" The nervous poet flew to his window and slid down the rope to the ground, where he was halled with shouts of laughter. The win dow, with its fron apparatus, is still shown, it is said. Gray's delicate na ture was so shocked by this rough joke
