EYES OF THE WORLD NOW ON SAVANNAH

Savannah, Ga.—The eyes of the automobile world are fixed on Savannah and from now until the first day of the big races there late in this month Savannah will be the Mecca for every one interested in the world famous events. The railroads have offered reduced rates, numerous newspapers have conducted contests in which free trips to the races were offered as prizes, a big "around-the-state-tour" has been projected and will end in Savannah, automobile clubs in Boston, New York, Philadelphia, Richmond, Charlotte, Durham, Columbia, Charleston, Jacksonville, Atlanta, Augusta, Macon, Birmingham, New Orleans and many other cities will have cross country "runs" to the races, and it is certain that there will be more people in Savannah during the first four days of Thanksgiving week than were ever before there. The races are to be the greatest of the world has ever known and every one who has any way of getting to Savannah and can spare the time is going to be there. The representatives of numerous foreign automobile clubs will be on hand, and all foreign entries must be made through the recognized clubs, which are Automobile Club de France, Royal Automobile Club of Great Britain and Ireland, Automobile Club of Italy, Kaiserlich Automobil Club, Automobile Club de Belgique, Oesterreichische Automobil Club, Automobile Club of Canada, International Racing Association of Cuba, Dansk Automobil Club, Nederlansche Automobil Club, Magyar Automobil Club, Automobile Club of Guadaluajara, Auckland Automobile Association, the Automobile Club of Porto Rico, Royal Automobile Club, Automobile Club of Roumania, Automobile Club of Spain, Royal Automobil-Klubben and the Automobile Club de Salsus. Of these France, Italy, Germany and the United States are the most interested, for they have the largest number of entries in the races. It will be truly an international, universal race meet and the winners will get not only the enormous cash prizes offered, but before dusk fall on those eventful days their names will have been flashed to the four corners of the earth. It is small wonder that the people are literally wild over the coming races.

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

Here is her own statement:

"I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. ORVILLE ROCK, R. R. No. 5, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound. For thirty years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

SEASICKNESS.

It is Not Beneficial, and In Rare Cases It Causes Death.

In the light of modern intelligence the once popular idea that seasickness was of real benefit to the sufferer and that it never terminated fatally has been exploded. Not only is this malady to be guarded against by every means possible, but it is even to be dreaded by those who are not over robust as leading to possible fatal results.

The old fashioned notion that a good dose of seasickness was beneficial was due wholly to the fact that upon recovery the victim of mal de mer is usually so delighted that he is apt to imagine that he never felt better in his life, while feeling normal again is merely so great a contrast to the exceedingly wretched condition which this disorder brings about that exaggeration of one's feelings is the most natural thing in the world. Seasickness is far from pleasant. It is not beneficial, and in rare cases it terminates fatally.

There is one consolation, however, that with the growth of the size of ships and the increase of speed travelers are to a certain extent insured against it or if attacked are certain that their sufferings will be short—Marine Journal.

Walnuts as Food.

The ancients held the walnut in high esteem. Mortals could and did exist on acorns, but walnuts were so delicious in taste and flavor, so palatable and nutritious, that they were revered as food only for the gods to dine upon. Modern investigation and modern customs have popularized the uses of the walnut to such an extent that it is now regarded not only as a luxury, but as a food of great nutritive value. A chemical analysis of the nut shows that it is six times as nutritious as meat. No vegetable or fruit, with the possible exception of the olive, can be compared with the walnut as a strength giving and fat producing food. All nuts are possessed of elements of nutrition, but the highest in rank is the walnut.—Manchester Guardian.

The Stickleback Legend.

The stickleback is one of the species of fish that build nests. There is a legend that the stickleback builds a nest because during the deluge it pulled the low out of the huge hole of the ark, and if it had not been for the hedgehog, who plugged up the leak with his own body, Noah and his sons would have had an exciting time balancing out their boat. When Noah found out who had done the deed he ordered as a punishment that the culprit should be compelled each year to build a nest, while other fishes would have an easy time of it.

Two Visiting Cards.

Visiting cards differ in style according to latitude, and as an example a Paris contemporary recalls an incident in 1844 when M. de Lagrene was sent under Louis Philippe as minister extraordinary to China. The courtesy of the Chinese statesmen, particularly their "doyen." When the negotiations had been completed and M. de Lagrene was ready to embark a delegation brought him a great roll of paper. The ambassador seeing this parcel at once thought this was a present, knowing Chinese methods, but to his surprise they started to unroll the cylinder, which extended to about fifty meters of paper, over 162 feet. Then he learned that it was the visiting card of the "doyen." In returning his modest little list he boarded the humiliated ambassador and read a few words, which read, "The ambassador of France regrets that he is able to offer only these simple words to your excellency."

Thirty lives were lost when a passenger train plunged into the Tooty river at Mansfield, Ohio.

THE SOUTHERN STATES.

Their History Rich in Events of Consequence to the Nation.

The south is especially rich in points of historic consequence, remarks a writer in Leslie's Weekly. At the outset Virginia was the most populous as well as the most powerful of all the states. As "the mother of presidents" she practically gave the law to the country from the accession of Washington in 1789 to the retirement of Monroe in 1825, except during the four years of John Adams in the presidency. In the next third of a century, with its Hayne, Calhoun, McDuffie and other statesmen of large influence, South Carolina was the center of events in the nation. Texas, with its boundary dispute with Mexico, precipitated the war between the latter and the United States, in which by conquest and purchase we obtained Arizona, New Mexico, Utah, Nevada, California and parts of Colorado and Wyoming. The necessity for the control of the mouth of the Mississippi incited the negotiation with France which resulted in the annexation of the province of Louisiana, by which the area of the United States was doubled and all subsequent acquisitions of territory were rendered inevitable. Florida saw the earliest white settlements which were planted anywhere in the present United States. In the Watauga colony in Tennessee self government made its advent west of the Alleghanies.

Right Handed Parrots.

Past the parrot cages walked the bird fancier, poking an inquisitive finger at the birds.

"I am looking for a right handed parrot," he said, "but there doesn't seem to be one in this lot. Most parrots are left handed. Training, not nature, made them so.

"Their owners are right handed and when putting out a finger for the bird to stand on it is most convenient for him to step up with the left foot. In a little while that left handed action becomes second nature and he doesn't know how to use his right foot first.

"The only right handed parrots have belonged to left handed persons. In their training the order was reversed. The left finger was extended for a perch and the bird naturally grasped it with his right foot."—New York Sun

SOME WELSH WORDS.

Welsh is a marvellously expressive language. In a souvenir guide to Carharvon there is a list of Welsh railway stations with their English equivalents. Here are some of them: Aber-gwynn, entrance to the place of bliss; Amwrech, a place of frequent expansion; Cefn Brynach, the back of the scrawling hill; Dowlais, the voice of God, and Llanbister, the manure yard road." There is also one station the name of which runs to fifty-eight letters. Its meaning is merely, "The fair church at the pool of the white seagull near the alder grove where the fodder for the oxen is stored in the red barn." And surely totalitarianism ought to flourish in a country where beer is known as "ewrew."—Fall Mall Gazette.
