ABNORMAL POLITICAL SITUATIONS.

The President of the Cane Growers Association is quoted as saying, "I say frankly I believe the time is ripe for Louisiana to send Republicans to Congress. Protection to Louisiana industries has always come from Republicans."

It is this abnormal situation, the conflict between local self-interests from a trade view point, and the demand for political allegiance based on prejudice or past issues, that is confronting the voters in many sections of the country.

The Hillsville, Virginia killing is an instance of the specially sensational. It is horrible, the contemplation from a civilized view point, that a court room of all places, should be the place for such a scene of human slaughter, and from all accounts, without particular passion to arouse it.

When honesty, every day common sense, a clear study of the problems of the hour, are the governing factors for the voter, instead of some party alliance, that is purely sentimental, there will enter into our elections natural politics, a condition that will place men right everywhere, for they will vote from the dictates of a clear judgment unhampered by prejudice.

THE UNDERWOOD PRESIDENTIAL ANNOUNCEMENT.

What has been termed the Underwood presidential section, issued in a separate sheet by a number of North Carolina newspapers last week, has given the Alabama Congressman a prominence of no small importance.

While the Journal continues to favor Judson Harmon, of Ohio, for the Democratic nomination, it rejoices in the efforts of the Southerner's friends to exploit his canvass for the first political honors in this country.

Congressman Underwood is a man who stands for things, and is not ashamed to declare. As a representative from the South his candidly reflects credit, and the man himself stands for a sound democracy.

Of special merit is the manner of the announcement. The Journal was offered this section, as a business proposition, but for its own reasons declined it. But the merit in the announcement is its open business form, no insinuating requests for "special rates."

No favor sought because "you publish a Democratic newspaper and a Southern Democrat should be given your help."

The Underwood announcement emphasized in this section is worthy of high recognition and will make it. There will be Democratic "victories," but no success.

CHAPTER XIV. The detective announces that he has discovered important clues as to the thief. It looks as if in some way Mackay had got hold of Tom's key to the hallway door and might have been the burglar.

Its object its perpetration was a severe violation of the law. I began to grow both uneasy and angry as I awaited my partner's reappearance. To make my position still more unpleasant I knew that we must descend by the same means by which we had arisen; and no one perched aloft as I was could know into whose arms we might drop as we retreated down the ladder.

honest democrat will take any exception to it, rather will praise it, and feel proud that a Southerner seeking such a high honor, has gone about it in the most creditable manner, one that will win him respect in all honorable quarters, among all men.

CRIME NOT A MATTER OF LOCALITY.

The occurrence of some atrocious crime in a remote country place, in some small village, is usually creative of a sensation vastly greater than a crime of greater heinousness in the crowded city.

The Virginia killing is an instance of the specially sensational. It is horrible, the contemplation from a civilized view point, that a court room of all places, should be the place for such a scene of human slaughter, and from all accounts, without particular passion to arouse it.

The Virginia tragedy because of its remoteness, the character of men who entered into it with such terrible effects, has received unjust criticisms in the way of imputing special ferocity and a semi barbarous condition to the mountain people.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitution remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c.

Stay right there, with your friends, and take this safe medicine. Throat and lung troubles find quick relief and health returns. Its help in coughs, colds, grip, croup, whooping-cough and sore lungs make it a positive blessing. 50c and \$1.00. True bottle free. Guaranteed by all druggists.

I told him that while such things were not exactly in my line, that relying upon his assurances I would put myself in his hands, and he led me down a street that branched from the brightly lighted main thoroughfare which we had been pursuing into a less lighted section. For several blocks we continued our way under the scattering street lights of a section of the wholesale district which was practically abandoned of nights.

"Something dropped upon my shoulder as we were coming down the ladder and I picked this up at the foot of it when we struck earth again. 'Must have worked out of your pocket as we came down while you were using your arms for climbing. 'Best way to lose anything smooth' (Continued on Page 3)

Rainless Thunderstorms. The records of meteorological offices show that rainless thunderstorms have not been common, but a few are on record. The most extraordinary was encountered near Chesterton, England, on Aug. 9, 1893. It began at 9 p. m. and lasted five hours, and in that time it was estimated 10,000 flashes of lightning were seen, but not one drop of water fell. In a thunderstorm at Cape Verde in 1903 the sky was a continuous blaze of lightning, lasting an hour yet both rain and lower clouds were absent.—Boston Advertiser.

Mar Alibi. Much to the curious little girl's disgust her elder sister and her girl friends had quickly closed the door of the back parlor before she could wedge her small self in among them. She waited uneasily for a little while, then she knocked. No response. She knocked again. Still no attention. Her curiosity could be controlled no longer. "Dodo," she called in staccato tones as she knocked once again. "Tally ho! It's mamma!"—Lippincott's.

A COLD, LAGRIPPE, THEN PNEUMONIA. Is too often the fatal sequence, and coughs that hang on weaken the system and lower the vital resistance.
