Would Raise the Doomed Titanic.

Fishkill Landing, N. Y., June 1 .-John Marcus, a hatter, employed in a Matteawan shop, declares he has a plan by which the Titanic can be raised. He claims that the ship sank in 15,240 feet of water, and that the shin's weight is not sufficient to bear it to the bottom of the sea. Marcus thinks the ship is floating about half way down,

On all ships there is a balance wing below the waterline at an angle of 45 degrees. These wings extend the en tire length and keep the ship on an even keel. His idea is to lower four PAZO OINTMENT fails to cure any high'y magnetized gab hooks from two case of Itching. Blind, Bleeding or Probarges with derricks on them When the hooks come near the bull the magnetism will attract them. Nine times out of ten, Marcus says, one of the three arms of the grub hocks would catch, the wing. He would then draw up the saip a certain distance, without price since 1882, was reached by beef in taxing the c bles too much. As it be came heavier, because of I at buoyance, he would re-aforce the cables,

Hampton's Magazine Ceases Publication.

New York, June 1 .- Hampton's Magazine has suspended publication and the June number will not be issued. The company which was organized after the failure of the consolidation of the first Hampton's and the Columbian Magazines last fall, found it had no money to continue the business and the direct re decided to me for a receiver in dissolution. One of the losers in the magazine is Speaker Champ Clark, who is said to have invested \$4,000 in the publication.

To Manufacture Farmers' Trucks

R. W. Taylor of Morehead City and L C. Tolson of New Bern have organized the Taylor Truck Company, for the purpose of manufacturing farmers trucks. The truck, which was invented and patented by Taylor, can be run between the rows of a field, and heavy loads can be hauled without damaging growing crops It is said that alreacy there are orders for near'y 2000 trucks before a wheel of the factory has been turn d. The factory will be lecated in the yards of the Tolson Lumber & Manufacturing Co., at New Bern .-Beaufort (N. C.) News.

Suffragist is Sent To Jail; Beat Has

NEW GENERAL

Recede. Speculation Small.

New York, June 1 .- In cotton prices

have shown more tendency to recede, steele and tariff revision bill passed the owing to more favorable crop reports at times. Still the weather and crop news has cut both ways. Early in the week the ginners' report putting the condition as high as 79.4 per cent, when everybody had been looking for about 70 per cent., was a wet blanket for the market. It sent prices down sharply, Also there were some favorable reports from Texas, Arkansas, Oklahoma and parts of the eastern section of the belt. Good stands are reported in Texas and some other parts of the belt. But later on a new factor came up. It was dry. hot weather over a large portion of the belt. These new conditions were rather strikingly reflected in the last weekly government report which shows that over a large tract of cott n country temperatures had been abnormally high and the rainfall abnormally low

The fact that there was so little rain during the past week accounted for the rapid recovery of prices, after the depression following the publication of the National Ginners' report last Monday. Cotton goods have not sold so freely. Manchester reports have not been of so bouyant a character as they were some time ago. The speculation here has flagged. At times well known interests with extensive Southern connections have been selling very freely. Some of the spot people have sold to a certain extent and the same is true of commission houses in and out of Wall treet. On the other hand the late hot dry weather in Texas and other parts of the best, including the Atlantic sect ons, has had a stimulating effect on the market. The shorts have covered with precipitancy. Some of the large Wall Street and spot interests have brught to some extent. Southern interests which at one time sold have latterry been buying. Finally the buying by spinners has been a noteworthy feaa little. Everybody is now awaiting the government report of June 14. Norden puts the condition at 78 5 per cent., with an average reduction in the acreage of 7 per cent. This caused mo derate selling.

or not they are carriers of disease germs. We can help keep them out of your house. J. S. Basnight Hdw. Co.

- Still After Meat Trust.

Washington, June 3. - Although there have been no changes in the legal aspect of the case of the Department of Justice against the beef trust, following the acquittal of packers on trial at Chi ago. Attorney General Wickersham said yesterday his department would in no way oppose the plan that is now under way in the House, of having a congressional investigation.

Wickersham is known to be of the opinion that there are several phases of the meat trust situation which might properly be judiciously handled by a probe by the legislators. He feels that the result of such an inquiry would be to thresh out the question of whether any changes in the cadi-treat law could be suggested which would smalle the government to deal with the packers in a more effec ive manner.

It is understood that the department has made no new plans for expediting the proceedings under consideration in Chicago, which are in charge of Federal District Attorney Wilkinsod.

Annual Meeting of Confedera te Veter-

The annual meeting of the New Bern Camp of Confederate Veterans was held in this city yesterday and was lar-

gely attended. The Veterans first assembled at Wolfenden's hall on South Front street, where a number of speeches and short talks were made by the members of the Camp. Later they repaired to Redmond's wharf at the foot of Craven St. where a sumptuous dinner was served them by the Daughters of the Confed-

This annual meeting of the Veterans is always a source of much pleasure to them and it is always well attended.

End Of London Dock Strike Near.

Fire at Winston Salem.

Winston-Salem, N. C., June 1 .- Fire belived to have been of incendiary origin yesterday damaged the five story brick building and jos crinting plant of Stewart Bros., in the heart of the city. The conflagration is being investigated by assi-tant State In urance Commissi oner W A. Scott. The building and plant was valued at \$45,000 and were insured for \$43,000.

Destructive Fire.

Washington, N. C. May 31,-A very costly and destructive fire occurred in the town of Belhaven, this county, and about fifty miles from this city early vesterday morning when a large portion of the immense manufacturing plant of the Interstate Cooperage Co. was totally destroyed. The fire was first discovered about 1 o'clock in the large box factory of the company, and Brooklyn, rapidly spread to the lumber shed, and dry kilns, all which were totally destroyed. By hard work the stave mill was saved, also the large manufacturing plant of the John L. Roper Lumber Co. situated rearby.

From what can be ascertained of the damage done by the fire, there were 2,500,000 feet of lumber turned, 4 box cars of the Norfolk-Southern, a valuable tug beat belonging to the company besides the box factory and dry kilns.

Cotton Bill Reintroduced.

Washing on, June 3. - Representative Underwood, with the direction of the Democratic members of the Ways and Means Committee, yesterday re introduced the co ton tariff revision bill which was passed by the House and Senate at the extra session of Congress and vetoed by President Taft.

The Democracy claim the bill would reduce the average ad valorem cotten duties to 27.06 per cent as against sa ad va'eram of 47 15 per c nt. in 1911, and 47,12 in 1910. The Ways and Means Committee will report the bill favorably to the House early next week,
