

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alternative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. LIZZIE M. HENSHEIMER, of Lincoln, Neb., 33° 0' S., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your medicine. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured."

I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial.

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

SHORT PASSING EVENTS

WEDNESDAY.

Rub-My-Tam will cure you.

Marriage license has been issued to Mr. W. S. Barnes, age 19 and Miss Emma L. Davis, age 15, both the contracting parties residing at Bridgeton.

Mr. M. C. Duncan was among the visitors to the city yesterday. He came to New Bern to visit his son who underwent an operation for appendicitis at Stewart's sanatorium a few days ago. It is with pleasure that we chronicle the fact that the young man is rapidly improving.

Mr. J. J. Baxter's great clearance sale is still in progress and hundreds of bargains are being secured every day by thrifty purchasers. The sale will continue for only a few more days and you should visit the store at once and secure your share of the large number of real bargains.

The concert given by the Singing Class from the Odd Fellows Home at Goldsboro at the Masonic Theatre last evening was a decided success in every way. Those who attended were loud and sincere in their praise of the little singers and a return visit from them in the near future would meet with approval.

THURSDAY.

5 or 6 doses 666 will break any case of Chills & Fever; it acts on the liver better than Calomel, and does not gripe or sicken. 25c.

The N. C. Druggists will hold their annual meeting in New Bern in 1913.

The Clinton, Goldsboro and Kinston companies of the N. C. S. G. passed through here early this morning on a special train on their way to Camp Glenn for their annual encampment.

FRIDAY.

5 or 6 doses 666 will break any case of Chills & Fever; it acts on the liver better than Calomel, and does not gripe or sicken. 25c.

The Circulating Library now have on hand a large number of new books and the public is extended an invitation to become one of the library's list of readers.

The Board of Stewards of Centenary Methodist Church will please meet at the church parlors at 4:45 o'clock Friday afternoon to attend the funeral of our deceased brother, Mr. C. W. Munger.

Several hundred local "Young Americans" celebrated Independence Day by shooting innumerable packs of fire crackers and other explosives. However, as far as can be learned there were no fatalities.

The majority of the local business houses were closed yesterday afternoon in order to give the employes an opportunity of seeing the horse wagon races and to celebrate the "Glorious Fourth" in any other manner they saw fit.

The Board of Trustees of the New Bern Graded Schools will please meet Friday afternoon at 4:45 o'clock at the church parlors of Centenary Methodist Church to attend the funeral of Mr. C. W. Munger, H. M. Groves, Sec'y and Treasurer.

Rev. Dr. E. T. Carter, pastor of the First Baptist church of this city, left last Monday for New York, and Tuesday afternoon he sailed for England on the Mauretania. That is Dr. Carter's home country and he is returning for a visit after an absence of 26 years. He expects to be abroad for about two months.

A carnival is holding forth at Kinston this week. Monday night Rom Gatlin, colored, in company with several other negroes, started a "rough house" on the grounds and incidentally attempted to run several white boys off. As a result Gatlin is dead and Alpheus Falkner, white, is out under bond charged with murder.

Every one who passed the A. T. Willis Company's store on Pollock street yesterday stopped and viewed the attractive window display. The window was resplendent with the national colors intermingled with necessary articles of wearing apparel and was truly and unique in every way. In fact it was one of the best displays in the city.

Local automobile owners are being caused much trouble by having their machines taken without leave by young negroes and being damaged. Yesterday morning Golden McCray, colored, confiscated Dr. G. A. Caton's new machine for a "joy ride" and badly damaged it. The negro was apprehended and placed in the city jail until his hearing can be had. Taking auto without leave is a crime and the offenders should be severely punished.

SCIENTISTS DO NOT AGREE

Divide Into Two Camps on the Question of History of the Earliest Known Americans.

"How long were the ruins of the southwest inhabited? and how dense was the population in ancient times? Some of the best archeologists have strongly insisted that appearances are deceiving. The hundreds, and indeed thousands, of sites of ancient villages in Colorado, the Texan Panhandle, Utah, New Mexico and Arizona, as well as in similar parts of northern Mexico, were not all inhabited at one time, so they tell us. Most represent more temporary stopping places where migratory bands of a people supposed to have been ancestors of the Indians settled for a few years and then moved on. At the outside limit, say these archeologists, the entire population never amounted to more than a few score thousands, whose civilization was of the lowest and most insignificant type. Other students, fewer in number than the orthodox school, hold that the majority of the ruins were all occupied at the same time and for century after century. They say that the population of the arid southwest must have amounted to many hundred thousands—decidedly more in all probability than the country supports today. Furthermore, if this were so, although the type of civilization may have been most primitive compared with ours, yet it was by no means so low as that of the modern Indians. It must have been of the same grade as that of early Babylonia, Egypt, Palestine or Greece before the art of writing was invented. People who could dwell peacefully for centuries in large, permanent communities, and could build great communal houses and long systems of canals, were by no means untutored savages. Civil order and submission to the will of the majority must have been as well developed among them as among us. Such a view leads one to believe that, if only we could trace it, the history of the primitive Americans would prove quite as interesting, and to us possibly more interesting than that of the early oriental peoples to whom our scholars devote so much time and our millionaires so much money.—Harper's.

Minister's Usefulness. Among the members of a fashionable country club of Washington are a doctor and a minister, who delight in the exchange of repartee, touching their respective professions. As they met one day, the minister observed that he was "going to read to old Cunningham," adding (as he was aware that the old man was a patient of his friend, the doctor), "Is he much worse?" With the gravest of expressions, the physician replied: "He needs your help more than mine." On his guard, the minister exclaimed anxiously: "Poor fellow. Is it as bad as that?" "Yes, he is suffering from insomnia."

Three Killed. Aurora, Ill., July 2.—The Los Angeles Limited eastbound, on the Northwestern Railroad today struck an automobile, killing two men and a woman.

It's all right to love your neighbor—but don't invest in the questionable mining stock he wants to sell.

After a man has been compelled to eat his words and swallow his pride, he hasn't much appetite for anything else.

War on Coal Dealers. Milwaukee, Wis., July 4.—Milwaukee's crusade against wholesale and retail coal dealers who have raised the price of coal 25 cents a ton since the settlement of the miners strike is to be extended and made an issue in every other city where the price has also gone up.

It is learned here that coal in the cities is at a much higher price than in the country, being sold fifty miles from Milwaukee 50 cents cheaper than here, where it is unloaded from lake ships. The Interstate Commerce Commission has been interested in the Milwaukee complaint and has promised an investigation upon a formal complaint being filed. This will be authorized by a resolution to be introduced at tomorrow's meeting of the City Council.

Bolt Kills Woman and Cow. Minneapolis, July 4.—While Mrs. Carl Nord, aged eighteen, stood in a barn door on a farm near here yesterday watching her husband milking, a bolt of lightning killed the woman and cow. The latter fell on the man, painfully injuring him. The couple had been married but three months.

When a young man sits ten feet away from a girl and kindly informs her that she is his first and only love she can bet on his veracity.

ARRAIGNS HEAD OF TREASURY

Assistant Secretary Andrew Re signs and Tells Tales.

Washington, July 4.—A. Piatt Andrew yesterday tendered his resignation to President Taft as assistant secretary of the Treasury.

In a spirited letter to the president, Dr. Andrew writes of conditions in the treasury department which are alleged to be due to the attitude of secretary MacVeagh toward many of his subordinates.

Assistant Secretary Andrew's letter of resignation charges that subordinates in the treasury department "have been hampered and discouraged at every turn by Secretary MacVeagh's idiosyncrasies and his incapacity for decision."

It contains a scathing arraignment of Secretary MacVeagh's administration of the government's financial affairs and created a profound sensation in official circles.

One portion of Andrew's letter to the president is susceptible of being interpreted to the effect that other high officials in the treasury are dissatisfied with Secretary MacVeagh's treatment of them.

"For further evidence of the peculiar difficulties which surround the handling of business in the treasury," it suggests that President Taft consult Lawrence O. Murray, Comptroller of the Currency; Lee McClung, treasurer of the United States; Joseph E. Ralph, director of the Bureau of Engraving and Printing; Charles A. Kram, auditor for the post office department; Royal E. Cabell, commissioner of internal revenue; James K. Taylor, former supervising architect, and Charles D. Norton, Dr. Andrew's predecessor and former secretary to the President.

Stops Scalp Itch

Dandruff and Every Form of Scalp Disease Cured Quick by Zemo.

It is simply wonderful how Zemo goes after dandruff. You rub a little of it in with tips of the fingers. It gets right down into the glands, stimulates them, stops the itch, and makes the head feel fine. No, it isn't sticky! Zemo is a fine, clear, vanishing liquid. You don't have to even wash your hands after using Zemo. And what a wonder it is for eczema, rash, pimples and all skin afflictions. A 25-cent trial bottle at New Bern, F. S. Duffy's Drug Store is guaranteed to stop any skin irritation.

Zemo is prepared by E. W. Rose Medicine Co., St. Louis, Mo., and is regularly sold by druggists at \$1 a bottle. But to prove what it will do at trifling expense, Zemo is now put up in 25-cent trial bottles.

Cotton Goods Firm and Steady.

New York, July 1st.—The cotton goods markets have been firm and steady all through the week past and the half year of the jobbers closed with values well maintained. This condition is in striking contrast with that of a year ago, and is regarded as noteworthy because firmness has come while presidential conventions have been in session. Fundamentally the cotton goods markets are in a sound position, as many mills have contracts that will carry them through the summer if no further trade is done, and production is restricted because of the difficulty in securing sufficient help. Of the 170,000 pieces of print cloths sold at Fall River 60,000 were for spot delivery.

Prices range about as follows: Print cloths, 28 inches 64x64's, 315 1/2 cents; 64x60's, 31 cents; 64x64's 64's, 63 cents; brown sheetings, southern standards, 71 cents; denims, 9-ounce 13 1/2 cents tickings, 8 ounce, 13 cents; standard prints, 61 cents; standard staple ginghams, 61 cents; dress ginghams, 91 cents.

Bids Invited For Erection of School Building.

Bids are invited for the erection of a school building in the Sheffield-Stapleford District, Township No. 2, the said bids to be filed with the Supt. of Public Instruction of Craven County before 12 M Saturday, July 6th, 1912.

The plan and specifications will be furnished upon application to the undersigned.

S. M. Brinson, Supt. Public Instruction, Craven County.

If you expect others to follow the golden rule set the example for them.

Allen Trial In Progress.

Wytheville, Va., July 2.—Judge Walter R. Staples came to Wytheville yesterday preparatory to opening circuit court today when Claude Allen will a second time be placed on trial for his life on an indictment growing out of the court room tragedy at Hillsville, Va., on March 14th last, when the Allen killed four court officials and a bystander. The young man already has been convicted on an indictment and given 15 years in the penitentiary.

A venire from Washington county has been summoned, the court thinking that it would be impossible to secure a jury from Wythe county.

Will Advise About His Campaign.

Baltimore, Md., July 4.—Governor Wilson will determine the direction of his own Presidential campaign, pass upon the desirability of appointing the campaign committee and confer with a sub-committee of the National Committee on naming officers of the new Democratic National Committee. This was the decision of members of the National Committee yesterday morning.

Lane Gets Majority.

With all precincts but one heard from Dick Lane had a majority in the county primary in the race for sheriff over his opponents Messrs. J. W. Biddle and F. S. Ernul, of 26 votes. The vote stood as follows: Lane 879; Biddle 501; Ernul 352. Gum Grove has not been heard from but there are less than 15 votes at that place.

INTERNATIONAL CONGRESS

North Carolina To Be Well Represented at Congress of Hygiene and Demography.

Washington, July 4.—Preparations are in the making to secure a thoroughly representative attendance of delegates from the State of North Carolina to the International Congress on Hygiene and Demography, which meets in Washington in September. Besides the formal invitation to Governor Kitchin, which went out from the Department of State in the name of President Taft and which Governor Kitchin has accepted, the mayors and health officers of the principal cities of North Carolina now are receiving special invitations from the headquarters of the congress in the National Capital.

Copies of the program also are going out to the municipal officers, as well as other printed matter which sets forth the paramount importance, from the public health viewpoint, of the great assemblage of hygiene experts. Each North Carolina mayor is being asked to appoint one or more delegates, and each municipal health officer is having brought to his attention the benefits which he may expect to receive at congress.

Forty-seven States and many American cities already have accepted the invitations to congress, while nearly thirty foreign countries will send official representatives. Twenty-six bureaus of the Federal Government will assist in the congress.

The mayors and health officers of the following cities of the State of North Carolina have reached the special invitations from the headquarters of the Congress: Asheville, Charlotte, Durham, Elizabeth City, Fayetteville, Gas ton, Goldsboro, High Point, Kinston, New Bern, Raleigh, Rocky Mount, Salisbury, Washington, Wilmington, Wilson and Winston-Salem.

Divide Immigrant Travel.

New York, July 4.—All railway lines which participate in maintaining the joint ticket agency at Ellis Island share equally in the business of transporting immigrants to their destinations, and in all instances where tickets cost more than \$2.50 the railways pay a 10 per cent commission to the steamship lines for such business, according to testimony of C. C. McCain, chairman of the Trunk Line Association today. He appeared at the hearing of the government suit against the "shipping trust" as alleged to be constituted in the business of the North Atlantic conference on steamship dealers.

The immigrants do not choose the railway lines they take and are not even consulted in the matter, the witness admitted. The hearing adjourned to Tuesday next.

His System Upside Down.

Paris, July 4.—A curious discovery has just been made on board the French cruiser Patrie. A young doctor, Albert Cassan, aged 23, came to the doctor and told him that he suffered from palpitations of the heart. Quite naturally, the man accompanied his words by a gesture, but to the doctor's great astonishment, it was to his right side that he pressed his hand.

"But your heart is in your left side," he protested. Cassan, however, insisted that his heart was on the right side, and finally the doctor examined him, and discovered, not only that this was actually the case, but that the man's whole system, heart liver, stomach and spleen were reversed.

Cotton Acreage and Condition.

Washington, July 4.—The department of agriculture's preliminary estimate of the acreage planted to cotton in the United States this year, which by act of congress was deferred from June to this month and heretofore will be announced annually in July, was made public at noon yesterday and shows the area planted to be 84,977,000 acres, compared with 84,521,000 acres indicated by the bureau of statistics revised estimate of last year's planted area.

The condition of the growing crop on June 25 was 30.4 per cent. of a normal condition, as compared with 33.2 per cent. June 25 last year, and 30.7 per cent. the average condition for the past ten years on June 25.

North Carolina's acreage is 1,558,000, condition 33; Virginia, acreage 48,000, condition 57.
