**ROBBER SECURES THREE THOUSAND**

Asheville, N. C., August 15.—A lone train robber, masked and armed, boarded Southern Railway train No. 13, Spartanburg to Asheville at 10:30 tonight as it was leaving Biltmore, three miles from this city and covering the express messenger, E. F. Carr, of Marion, with a revolver, secured a package containing \$3,000 in bills. The robber then commanded Carr to get in the express chest which he had just rifled and locked him in it. It is presumed that the robber left the train as it slowed up for the Asheville yards.

When the train arrived at the Asheville station express employees found Carr locked in the chest. When released, the express messenger was unable to give a description of his assailant, saying that the latter was completely masked.

The train was an hour late at Biltmore, a fact of which the local police department say the robber was aware. The express messenger says he had just finished arranging his packages, preparatory to leaving the train at Asheville, when he was confronted by a masked stranger with a loaded revolver, who demanded his money. Carr states that the robber then bound his hands and forced him (Carr) to get into the chest which he locked.

The alarm was quickly given at Asheville and several policemen were sent toward Biltmore on a special train. Other members of the force boarded train No. 35, which leaves Asheville at 10:50. It was thought that the robber might have attempted to escape on this train. At midnight tonight, the police and express officials were still without a clue.

Messenger Carr, up to July 21st, was a clerk in the Southern Express office at Marion, N. C., when he was given the run from Columbia, S. C. to Asheville.

**COAST LINE TRIES TRAIN TELEPHONE**

Raleigh, Aug. 15.—The use of the railway telephonic apparatus has been begun by the Atlantic Coast Line, and Captains Cotton and Davies are trying it on their runs.

The instrument is carried about in a small leather case about six inches long and an inch in diameter. It has receiver and transmitter and a small insulated wire connects it with a folding rod which is hooked on to the main line wire. A signal gets the operator's attention and talking is made easy within a minute.

The Coast Line is making the experiment and already the good of the instrument has been shown. Between stations that are far apart, the instrument has great value. It enables the operators at the various stations to locate the train exactly and the instrument can always betray the particular trouble which is stopping and delaying trains.

A few days ago between Four Oaks and Smithfield, a pipe on the engine of 89 bursted. The conductor immediately called up Smithfield and told the trouble. That was a small incident. In wrecks with casualties of more serious nature attending them, it is to do its best work.

The Coast Line is the first in North Carolina to undertake this plan. Railroad men see in it the possibility of talking in the future while riding on an engine running sixty miles an hour. They think this is the beginning of a new system that will do entirely away with the present mode of dispatching and will cut the operators on the road almost entirely out.

**IN NEW BERN**

The Evidence is Supplied by Local Testimony.

If the reader wants stronger proof than the following statement and experience of a resident of New Bern what can it be?

Mrs. Lavenia Hall, 30 George St., New Bern, N. C., says: "Doan's Kidney Pills have been of great value in restoring my health. I suffered from a weak back and pains across my kidneys that made me restless at night. In the morning I felt tired and had no strength or energy. The secretions from my kidneys were unnatural and caused me no end of annoyance. When I read about Doan's Kidney Pills, I got a supply from the Bradham Drug Co. and they removed my pains and aches. Since taking this remedy, I have had a better appetite and my entire system has been toned up." (Statement given January 25, 1908)

A Lasting Effect.

When Mrs. Hall was interviewed some years later she said: "I take pleasure in confirming my former endorsement of Doan's Kidney Pills. They gave me permanent relief from kidney trouble and during the past three years, I have enjoyed good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

**CONTINUE JOY RIDE HEARING**

**Witnesses Not On Hand At Appointed Hour Is Reason For Delay.**

**HEAR CASE TUESDAY**  
**Defendants Are Put Under \$100 Bond For Appearance Then.**

The trial of Harry Huff, accused, with two other men, of having borrowed the launch of Capt. Josh Smith for a joy ride to James City with a couple of negro girls, and then burning the craft, was set for 7 o'clock last night, before Magistrate Barrington.

At that hour Chief of Police Lupton was on hand, also Huff and some of his witnesses and one of the colored girls. After a time, Capt. Smith, owner of the burned boat, drifted in, in oilskins. The heavy rain seemed to keep the rest of the actors away.

After waiting an hour or so, Attorney Guion arrived, to appear for Huff. He made a proposition to have Huff pay one-third of the cost of rebuilding the boat, and to give bonds for the payment. Then Larry I. Moore got in the game in the interests of Capt. Smith. It seemed that the identity of the third man concerned in the affair had not been clearly established, and a suspected boy present wanted to have witnesses called. He claimed to be able to prove an alibi. Claud Buck, the other young man known to have been on the launch, has not been apprehended. As it was 9 o'clock before the names of witnesses were secured, Mr. Moore asked that the trial be laid over till Tuesday next, at 11 a. m. This was agreed to by all concerned. In the meantime, the boat, which lies sunk at the other end of the Trent river bridge, will be raised and the cost of putting her again in commission appraised. The defendants were held under bond of \$100 each to appear in magistrate's court next Tuesday.—Daily Edition Aug. 16.
