Six Months 5.00
Twelve Months 10.00
ONLY IN ADVANCE.

The Journal is sent on pay-advance basis. Subscribers will receive notice of expiration of their subscription and an immediate response to notice will be appreciated by the Journal.

Advertising rates furnished upon application at the office, or upon inquiry by mail.

Entered at the Postoffice, New Bern, N. C., as second-class matter.

NEW BERN, N. C. AUG. 27, 1912

NOTICE TO SUBSCRIBERS.

The Journal has sent to all of its subscribers statement of subscription account. In a good many cases we have received remittances in reply. But there are a great many of our subscribers who have not taken up to this time any notice of the statement. We will thank them to let us hear from them promptly. Newspapers, like any other business enterprises, have to have money to pay their bills with. They have only two sources of revenue, subscription receipts and receipts from the sale of advertising. The income from neither source is sufficient to keep a paper going and very often it happens that the receipts from both sources is insufficient.

We think that from what we have said, our subscribers will be prepared to draw the conclusion that we are needing the money. We do, but -even if we didn't we think our delinquent subscribers would understand that they would not be relieved of their just obligations to us. Kindly let us hear from you.

FARMERS' CONVENTION

The program of the Farmers' convention to be held in Raleigh next week is a very attractive one. It should draw a large number of the farmers of the State. Farmers who attend these meetings say they always get out of them much more than the cost and the loss of time incurred in attending them. Not only so, but they afford an admirable opportunity for the farmer to get a little outing and everyone knows that of all persons he is entitled to it.

THE WHY OF SOCIALISM.

Whether voting the ticket or not, men everywhere looking upon the awful injustice of this economic system are becoming socialistic in theory if not in conduct.—Governor Marshall. The readiness of men to grab at Roosevelt's new party with its socialistic tendencies shows that there is much of truth in what Governor Marshall says. There has got to be a change in the system or the socialist party will eventually get in control. The change is promised by the Democratic party and under the guidance of Wilson and Marshall it will deliver the goods.

GOT BUSY QUICKLY.

The American National Bank of Wilmington got into the game of raising money for the Wilson campaign fund without delay. President W. B. Cooper writes the Star: "At the request of Mr. W. G. McAdoo acting chairman we beg to say that we shall be only too glad to accept contributions for the Woodrow Wilson campaign fund. Such contributions will be forwarded promptly to the committee in New York. The officers and employees of this bank have already subscribed \$20.00 to the fund. We would be glad to receive any amounts, however small or however large.

THE LIFE OF AYCOCK

The Journal acknowledges the receipt of a copy of "The Life and Speeches of Charles B. Aycock" by R. D. W. Connor and Clarence Poe. It is from the press of Doubleday, Page & Company, Garden City, N. Y., and is all that could be wished typographically. A cursory glance through the book confirms previous impressions based on the reputation of the authors that the subject has been worthily handled. Messrs. Connor and Poe are capable and thorough in whatever they undertake and the Aycock book reflects these characteristics. It makes a notable accession to that list of books which every one who aspires to a well-stocked North Carolina library must have and which every one who loves his State and rejoices in the achievements of her sons and daughters ought to have.

SHOULD BE MADE A CRIME

A Richmond woman the other day made an unsuccessful attempt at suicide. She was arrested and given a hearing before the police justice of the city on the charge of "attempting suicide." It developed that there was no law in Virginia against attempting suicides.

The Times-Dispatch, discussing this matter, says there ought to be a law making the attempt of suicide a crime and providing a suitable penalty. It argues that a considerable percentage of attempted suicides are unsuccessful and for that reason there might be some deterrent influence in an intsuicide law.

A man's life is not his own. He has no right to take what is not his own. It should be a crime in every State for a person to attempt to commit suicide. When a person commits an act which he thinks concerns only himself he is not apt to give to it the consideration that he would give it if it had been made a matter of legislation and thus of public concern. So when a person considers suicide and remembers that it has been made, in the judgment of his fellows, a crime, he is more apt to go slowly than he would be if he thought that his fellows had passed on the matter and come to the conclusion that his life was his own to be disposed of as he saw fit.

PIE IN PARTY-BUILDING

Wake county Republicans are always divided. Republicans everywhere are badly divided but the division is sharper and the feeling apparently bitterer in Wake than almost anywhere else. Lately there has been going on between Lester F. Butler and Postmaster Willis G. Briggs of Raleigh, a spirited newspaper controversy and in his latest effusion Butler gets back to that inevitable subject of pie. But for the promise of the Raleigh post-office, Mr. Butler says, Briggs never would have become a Republican anyhow.

One of the ways the Republicans have gained new converts has been by the use of Federal office. They have been in a way unselfish in their devotion to the party for every time they bought a convert with a Federal job they of course had to make one of their own number do without said job.

It's no concern of a Democrat except on purely academic grounds, but it would certainly seem that the policy that has been pursued has not been a good one for building up a party. The horse that pulls the plow should have the fodder, and the old line Republicans when they see the offices going to the recruits are apt to get estranged. The best way to get recruits is to have a Presidential candidate like Woodrow Wilson to whom the young men voting for the first time and independent looking for the best man for any place that is to be filled will just naturally gravitate.

NEW BERN'S PRIME NEED.

During the heavy thunder storm Thursday night a large piece of the stucco on the front of the city hall came loose and crashed to the sidewalk. At the same time Lieut. Gaskill was busy himself distributing buckets about the floor of the police court room, to catch the water that came through the roof. No use talking, New Bern should have a new city hall. The city could sell the old ruin that is now used as a city hall and fire house for business purposes for enough money to buy a more desirable site and pay the cost of construction of a modern building.

NO MAN INDISPENSABLE

Colonel Roosevelt maintains that he is the original trust-buster. Granting for the sake of argument that he is, there are good and sufficient reasons why his once great popularity is rapidly waning, one of the principal ones being that he seems to have come to the conclusion that he is indispensable to the country's future prosperity and happiness and this country is too democratic to indulge any man in such a delusion as that. Roosevelt's overweening vanity has caused a great multitude of people in this country to turn away from him in disgust. Let his trust-busting record be what it may, and according to Senator LaFollette trusts multiplied under his administration of the nation's affairs, his record for egotism is abundant to keep him on the shelf the remainder of his life. There is no man indispensable in this country.

SHALL WE BE SO EASILY EXCELLED?

The little town of Washington has sent the News and Observer fifty dollars for the Wilson campaign fund. We know of only twenty two dollars that has come out of New Bern as yet, twelve dollars subscribed through the Journal and ten dollars sent to the News and Observer before the Journal started its fund. We think very likely that there were other subscriptions through the News and Observer that escaped our attention, but we doubt if altogether New Bern has given as much as the smaller town of Washington. Let's get busy and not let a smaller distance us in the paltry work of undertaking of raising money for the service of the schoolmaster statesman in the Presidential chair.

KITCHIN'S FALLACIES

[Asheville Gazette News.]

One of Governor Kitchin's stock arguments as to why he should displace Senator Simmons is that the Senator voted 19 times against the Democratic majority in 11 years; he knows and the people who read know that 13 of these votes included 12 votes for amendments offered by himself and others to the reciprocity bill and one was against the bill itself—and yet he keeps on using this argument.

He also continues to attack Senator Simmons for his vote on the reciprocity bill knowing full well that thereby he also assails Congressmen Webb, Doughton and Gudgeon, who voted the same way. The eighth, ninth and tenth are close districts, too; the natural tendency of these efforts aimed to destroy Senator Simmons, is to the destruction of his colleagues in the house from these districts. If Senator Simmons is wrong and is out of line with his party, so are they wrong and out of line with the party.

But even that would be more nearly defensible if reciprocity were an issue in the campaign. As a matter of fact the Democratic National Convention ignored the reciprocity question and so did Governor Wilson in his speech of acceptance.

But whatever affords Governor Kitchin a means for his particular kind of political warfare is never disproved by the facts and never dies.

TARIFF TAXATION

Majority Leader Underwood is out with a statement in which he shows that there is hardly anything that a man buys that is not tariff-taxed. It is passing strange how patiently the people of this country have borne the burden of supporting the "infant industries."

Had they paid all this money out in direct taxes they would have thought themselves the most oppressed people in the world and it is entirely probable that there would have been a revolution brought on by such injustice.

But sugar-coated with the specious pleas of the brief-holders for the "infant industries," these bitter pills of taxation have been heedlessly swallowed by the people, who never dreamed that they were being heartlessly duped the while.

BOTH SENATORS TO ENTER THE CAMPAIGN

Washington, Aug. 23.—Immediately after Congress adjourns, Senators Simmons and Overman will take a sabbath rest and then put themselves at the disposal of Chairman Webb of the State Democratic committee for the campaign.

Senator Simmons' friends say that he will not enter into any controversy with his opponents but will make clear-cut Democratic speeches. There is not to be a joint debate between him and any other Democrat, but he will, it is understood, join issues with Republican stumpers.

SENATOR NOT TO SUE SHELBY HIGHLANDER

Shelby, Aug. 21.—Clyde R. Hoey of the law firm of Ryburn & Hoey, interviewed with reference to what disposition had been made of the contemplated libel suits to be instituted against The Highlander newspaper and its correspondent, "Corn Cracker," because of the alleged libelous matter published in that newspaper against Senator Simmons, stated that he had advised Senator Simmons not to pursue the matter further, since the parties concerned had made due amendments of an explanation.

Senator Simmons has agreed to this course and there will be no further proceedings in the case. Senator Simmons' friends are satisfied with the retractions and explanations and feel that there is no occasion to pursue the matter further.

DEATH OF MRS. W. T. CAPPS.

Mrs. W. T. Capps died Monday at her home, 48 Griffith street. The funeral took place Tuesday afternoon at five o'clock at the Salvation Army barracks on Griffith street. Mrs. Capps is survived by her husband and five children one of whom is only two weeks old.

ONE TIME RIVALS WORK FOR WILSON

New York, Aug. 23.—As an evidence of the harmony that is prevailing in the united Democratic party, the Democratic National Committee is pointing with unconcealed pride to the co-operation of Governor or Judge Harmon, Speaker Champ Clark, Representative Underwood, Governor Baldwin and Governor Fos in the campaign. These men were all active candidates for President on the Democratic ticket.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh, Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood, and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

SAVE COUNTRY FROM W. H. TAFT

Baltimore, August 24.—To "save the country from another four years of Taft," Mr. George E. Waters, of George E. Waters & Co., wholesale lumber dealers of Baltimore, and president of the Mount Washington Club, announced yesterday that next November, for the first time in his life, he expects to forsake the standards of the national Republican party and to cast his ballot for Gov. Woodrow Wilson for President.

"I have voted the Republican ticket in national elections since 1881," he declared, "and cast my ballot at the last Presidential election for Taft, but my main object now, so far as the national political situation is concerned, is to defeat Taft, and, for that reason, I will support Wilson, the strongest man in the field."

"What are your objections to Mr. Taft?" he was asked.

"His administration has demonstrated that he has not had the interests of the business men of this country at heart, and consequently, that he has ignored the real interests of the people at large. I was cured of Taft when he took his stand for Ballinger in the Ballinger-Pinebot controversy. He showed himself incapable of handling the situation, and if the affair had not become public I believe the whole of Alaska would have fallen into the hands of the Ballinger interests. Mr. Taft is not sound in his views on conservation, as his administration has shown. He has listened to the wrong kind of advice, and, I believe, would do so again.

"There is no reason in the world why any Democrat in the country should fail to support Governor Wilson with all his heart. Wilson is a good man, and the kind of a man to have a good Cabinet. There will be no political pull allowed in the appointment of that Cabinet. Wilson is above that."

CONFEREES AGREE ON THE GOOD ROADS BILL

Washington, Aug. 22.—The conferees on the postoffice appropriation bill reached an agreement late this afternoon. One of the most important items in the bill is the Simmons aid to good roads proposition, which as amended, provides an annual appropriation of \$500,000 for improving roads over which rural delivery of mail is made. The original bill as proposed by Senator Simmons provided for an appropriation of \$1,000,000, but a compromise was made and the amount cut in half.

Senator Simmons said he would have preferred the house plan to his own, but in lieu of this he was greatly delighted at the adoption by the conferees of his own bill. It is understood the conference report will be adopted without opposition. The Bourne parcels post system, which was also adopted, was quite pleasing to the senior senator. It is believed it will reasonably satisfy both to the farmers and to the merchants.

Governor Wilson, our nominee, is partly a North Carolina man; he was the favorite of our people for the nomination, and our support tended greatly to bring about his nomination. Now let us make good and each one chip in to raise a liberal contribution from North Carolina, to meet the necessary expenses of the campaign.—Senator F. M. Simmons

A. S. HOLTON ADDS A PROTEST

Comments Vigorously on That Villainous Piece of Road.

FIGHT TO BE KEPT UP

Says Farmers Won't Relax Efforts Until Road is Improved.

Mr. A. S. Holton of Olympia was one of the most recent visitors at the Journal office to protest against the condition of that villainous piece of corduroy road the other side of Bridgeton. He was in yesterday morning.

"If you have any doubts about the losses to which the people of Reelsboro and that section are subjected on account of this road," he said, "just go around to any of the groceries and see the quantities of broken and scrambled eggs there are to be thrown out. Ask the reason and you will find that this was hen fruit that farmers attempted to bring to market over that corduroy road.

"You may get tired of hearing us farmers talk about this terrible stretch, about a mile of waterlogged logs, on a level with the water on each side, but I tell you we are not going to let up on the thing till ditches are dug on each side.

"All the County Commissioners would have to do would be to ditch the road, throw the material up over the logs and then use a split log drag over the road thus made. It was all I could do to stay in my buggy as I came over that stretch this morning. Can hardly get a wagon over it at all."

Want Wilson elected President?

If so, lend a hand. The Journal will forward any amount not under a quarter that you want to contribute. Give fifty dollars if you can. If you can't give that much, give as much as you can.

MAN AND THE SOIL.

Dr. R. V. Pierce of Buffalo, author of the Common Sense Medical Adviser, says "why does not the farmer treat his own body as he treats the land he cultivates. He puts back in phosphate what he takes out in crops, or the land would grow poor. The farmer should put back into his body the vital elements exhausted by labor, or by ill-health induced by some chronic disease." Further, he says, "the great value of my Doctor Pierce's Golden Medical Discovery is in its vitalizing power. It gives strength to the stomach and purity to the blood. It is like the phosphates which supply nature with the substances that build up the crops. The far-reaching action of Doctor Pierce's Golden Medical Discovery is due to its effect on the stomach and organs of digestion and nutrition. Diseases that begin in the stomach are cured through the stomach. A bilious spell is simply the result of an effort made by the liver to catch up when over-worked and exhausted. I have found the 'Discovery' to be unsurpassed for its equalizer and rich blood-maker."

Miss Lorrin K. Kelsey of Perth, Kansas, says: "I will burn add my testimony of the effectiveness of your remedy upon myself. I was troubled with indigestion for two years or more. Doctored with three different doctors besides taking numerous kinds of so-called 'stomach cures' but received no permanent relief. I was run down, could not sleep at night with the noise in my chest, caused by gas on the stomach. Was weak, could not scarcely get anything through. I was hungry nearly all the time. About one year and a half ago I began taking your 'Golden Medical Discovery,' and after having taken several bottles an nearly cured of stomach trouble. Can now eat without distress and have gained fifteen pounds in weight. I thank you for your remedy and wish you all success in your good work."
