At Meeting Held Last Saturday.

REQUESTS OTHER LOCALS TO TAKE SIMILAR ACTION

Appoints Good Roads Committee To Agitate Movement.

The Ernul local of the Farmers' Union at a meeting held Saturday adopted resolutions favoring a bond issue for good roads in Craven county and calling on other locals and the business organizations of the county to get behind the movement. The resolutions follow:

Whereas, the Ernul Local Farmers Union realize that the progress of any community depends on its natural resources, and on its capacity for handling them.

We believe that the natural resources of Craven county are unsurpassed if equalled by any county in the Stare, and we further believe that the capacity for handling these resources in a great measure lies with the people of the county, and,

Whereas, the people of Crayer county are unreasonably handicapped by the bad roads of said county to such an extent that it costs the farmers and business men thousands and thousands of dollars every year to transport their produce to and from market over the present roads that would be unnecessary if we had improved public roads, and

Wheras, the progress and development of the county demands, that if we are to keep pace with the times and hold our own among the other counties of the State, and help the States of the Union, we must improve our roads equal if not superior to other

counties, and, Whereas, we believe that the amount annually lost by the farmers of the county would in a short period of time put every road in the county in such excellent condition as to make Craven county the banner "Good Roads" county in the State, therefore be it

Resolved, that, we heartily endorse public roads of Craven county, but we fully realize that picce-meal work will never give satisfaction, and, that, we are entitled to better roads at the child. earliest possible time. Therefore for this reason we favor the issuing of Craven county Good Roads bonds in a sum sufficient to place the leading roads in the county in a highly improved condition, so that travel could be made with the least possible exertion.

Resolved, 2nd, that, we arge every member of this organization to give his support to this cause, and also to support and aid in every way possible any individual, firm or organization that has for its object the improving of the public highways of Craven county.

Resolved, 3rd, that, we especially ask the support and co-ooperation of the New Bern Chamber of Commerce, Retail Merchants Association and any other organization in Craven county, that believes that better roads would benefit the county at large.

Resolved, 4th, that the Ernul Local the Ernul Good Roads Committee, to agitate this movement, and that that other locals be asked to appoint a like committee and that these committees report the sentiment of the Secy'. Ernul Good Roads Committee

Came Out Strongly For It people as best they can at the County Union meeting to be held Saturday, December, 7th, at 2:30 p. m. at the Court House in New Bern.

Resolved, 5th, that a copy of these resolutions be spread upon the minutes of this local and that a copy be sent to the New Bern Sun and Journal with a request to publish.

The tollowing is a list of the Ernul Good Roads Committee, D. P. Whitford, A. R. Whitford, T. M. Arthur and W. Otis Gaskins.

To the Farmers of Craven County: The members of Ernul local met Saturday, Nov. 16 and passed resolutions looking to the bettering of the public roads of Craven county. This is only a start. It will be impossible to make any progress unless be have the united action of the farmers and business men of the county. We are making this appeal to the farmers first because the business men are as a rule in favor of all public improvements, and second because if there are any people in the world that need better roads it is the farmers and country people of Craven county. Therefore, it is only natural that we should appeal to the men that would receive the

nost direct benefit. It is only natural that they should be the ones that should start a movement that means so much to them, that means the building up of the agricultural part of the county as nothing else could, that means the bringing of city comforts and pleasures But more than evertyhing else, it will towns every year. It will mean the treatment. keeping on the farms of hundreds and women that the farms can ill afford to

It is a conceded fact that the natural resources of Craven county are great compared with others, but to get the J. M. Arnold Claims Construction greatest return for these resources, we must reduce the cost of handling to looking toward the bettering of the as will make travel a pleasure instead of the drudge it now is.

And to do this we need the support

It is supposed that she was attempting to cook her break fast in an open fireplace and that her dothing became ignited.

Her scream, brought the people living on the first floor to her assistance. They found her writhing on the bed. An attempt was made to extinguish the flames but without avail. Practivally every inch of clothing was burn ed from her body.

The bed became ignited from the woman's clothing and for a short time is seemed as though the building would be destroyed. An alarm of fire was turned in but before the department arrived the blaze was extinguished with several buckets of water.

The coroner viewed the body and decided that there was no need for an inquest to be held and the remains were turned over to an undertaker. While in the agonies of death the
