Bulldog Attacked Horse.
An extraordinary occurrence was witnessed at Castleford, Yorkshire, England, not long since, a bulldog making an attack upon a valuable mare, and having to be killed to rescue the horse. The dog was a valuable one, belonging to the landlord of the North-Eastern hotel. When the animal was passing along Station road, near the hotel, the dog suddenly flew at its throat, but failed to get hold. The animal was driven on towards its stable, but the dog could not be induced to leave it, and followed down a couple of streets until the shop was reached. There the dog got hold beneath the mare's body. It was impossible to free the unfortunate animal, and the dog was finally dispatched with a pole-ax. The dog had never before, it is said, shown any sign of mischief, and had, in fact, been so good-natured that children had been allowed to play with it. Its owner recently refused a good offer for it. The horse is recovering.

The Great White Sale!
Quite a nation was moving about in these snowy regions. And the crowd seemed to be black, like skaters on a Polish lake in December. On the ground floor there was a heavy swell, ruffled by a reflux, in which nothing but the delicate enraptured faces of women could be distinguished. In the case of the iron framework, up the staircases, on the hanging bridges, there was an endless ascent of small figures, which looked as if lost amidst the snowy peaks of mountains. A suffocating boisterous heat surprised one at sight of these frozen heights. The buzz of all the voices made a great noise, like that of a river carrying ice along. Up above, the profusion of gliding, the glass-work and the golden roses seemed like a burst of sunshine, glittering over the Alps of this grand exhibition of white goods.—From Zola's "The Ladies Paradise."

Fuel-Consumption Test.
In the presence of a number of automobilists a gasoline consumption test was made by William H. Stewart, Jr., of New York city, over a measured course to show the difference in fuel consumption of an engine while in the hands of the competent and incompetent operator. There has been considerable discussion of this particular point, and interest was keen to know the percentage of difference in fuel consumption. The results were very surprising. The test showed that 34 per cent. more fuel was used by the incompetent operator. This applied only to the gasoline consumption. The actual depreciation of the car could not, of course, be estimated, but it is safe to assume that the percentage of wear and tear was even greater.

APPLICATION FOR PARDON OF
Burrill Casey and Leona Casey.
Application will be made to the Governor of North Carolina for the pardon of Burrill Casey and Leona Casey convicted at the October term, 1911 of the Superior Court of Craven County of the crime of murder in the second degree and sentenced to the penitentiary for a term of ten years.
The defendants claim the right to pardon for the following reasons:
It they were guilty of the crime charged, that is murder by poisoning they should have been sent to the electric chair, but the solicitor for the State and the Private Prosecutor asked the Judge for verdict for murder in the second degree and not guilty in the first degree.
Upon this the jury found verdict of guilty of murder in second degree and recommended the mercy of the Court.
Upon this verdict the Judge of the Court pronounced a sentence for imprisonment in the Penitentiary for ten years while he might have made it thirty years.
All this shows the prosecuting attorneys, the Judge and the jury did not believe that the defendants were guilty of the crime of which they were charged.
The petitioners claim their pardon each of them each for himself on the ground of absolute innocence.

ASKED TO SHOW GRATITUDE
Time for Son-in-Law to Prove Himself Worthy of Favors He Had Been Receiving.
"Son-in-law," he said, as he called him into the library and locked the door, "you have lived with me now for over two years."
"Yes, sir."
"In all that time I haven't asked you a cent for board."
"No, sir."
"In all your little quarrels with my daughter I have always taken your part and decided in your favor."
"Always, sir."
"I have even paid some of your bills."
"And in every way helped you to get along."
"You have been very kind, sir."
"I have tried to be, my boy, and I think you appreciate it."
"I do, sir."
"Thanks. Kindly tell your mother-in-law that the poker chips which she picked up in my room this morning were dropped out of your pocket, and we'll call it square!"

Economical Anyway.
J. Willis Westlake, the noted Florida pomologist, said in a recent address at Lake Helen: "The orange grower must be an optimist to succeed. He can't expect ten thousand oranges from every tree at the start. He should show the spirit of John Blanc. Blanc's first orange crop, when he settled in Florida, wasn't much to boast of. The man, however, kept up heart. 'How did your oranges do?' a friend asked him at the season's end. 'Oh, we had a few,' he replied. 'Good ones?' 'Fine!' said Blanc. 'My wife uses them in place of lemons. It makes quite a saving.'"

New Kind of Stamps.
Never had there been such a commotion in the little home, and the most wildly excited person was the sister of the young mother who had just presented twins to her husband. Off she rushed to the postoffice for stamps to spread the great tidings abroad.
"Stamps, please," she said, as she lunged down her money.
"How many, miss?" asked the clerk.
"Two" she cried joyfully.
"What kind?"
"A boy and a girl."

MAYSVILLE FORGES AHEAD.
The little town of Maysville in Jones county is making rapid strides toward becoming the leading town in that county. The Maysville Tobacco Warehouse Company has recently been chartered with one thousand dollars paid and work on the warehouse will begin within the next two weeks. Several of the most progressive citizens are now endeavoring to secure a cotton mill for the town, several thousand dollars having been subscribed already.

PAMLICO AT ELIZABETH CITY
Delayed There Unexpectedly By Accident at Shipyard.
The revenue cutter Pamlico left this port more than a week ago for a cruise around Pamlico Sound and also to be placed on the ways at Elizabeth City for repairs and to be repainted. Arriving at that port the vessel was pulled out of the water and placed on the ways at one of the shipyards. Wednesday the work was completed and the men employed at the shipyard made preparations to replace the vessel in the water. While doing this a section of the cradle on which she was resting began to give way and but for rapid action of the workmen in getting temporary supports in place, the vessel would have been thrown to the ground, a distance of about twenty feet, and badly damaged.
A message received here yesterday stated that it would be at least a week before the damage could be repaired and the vessel again put in service. In the meantime the crew are stopping at Elizabeth City.
