**Kerosene.**  
Kerosene is not so explosive as in flammable, but it should never be brought in contact with fire.

**Jamaica's Fireflies.**  
So strong is the light emitted by Jamaica fireflies that the presence of six will enable a person to read.

**Australia's Fruit.**  
Within the boundaries of the Commonwealth of Australia almost every known fruit can be cultivated.

**India.**  
America has the honor of having made the first cut nails, toward the close of the eighteenth century. Before that nails were made by hand, and their manufacture was a household industry. Cut nails are made by machinery from plates rolled to the proper width and thickness. They may be made of steel or of malleable iron. Wire nails, though originally a French invention, were brought to perfection in the United States.

**RAYO The Reliable Household Lantern**

There is always need for a good lantern around the home—in the yard, in the cellar, in the attic—wherever a lamp is inconvenient or unsafe.

The RAYO is ideal for home use. It gives a clear, bright light—like sunlight on tap. It is strong, durable, compact, handy. Doesn't leak. Doesn't smoke. Easy to light and rewick. Will last for years. Ask for the RAYO.

#### A MOTHER'S LOVE.

be instinct of a Mother Greater and Stronger Than Any thing in the Known World.

We read a great deal about a Mother's Love and it is all right—but we read more about a Mother's Instinct to preserve her young. When it is possible to buy for fifty cents or a dollar a bottle of Gowan's Preparation—a certain and infallible remedy for Pneumonia, Croup and Cold, the marvel is that so many mothers do not make the purchase. This wonderful remedy is applied externally and will positively cure croup, and that dread disease, pneumonia. It is a remedy that has been on the market several years, contains no dose, no harmful ingredients, but acts as a powerful medicine ever acted on the afflicted parts. All druggists sell this marvelous remedy—Gowan's Preparation, and every home should contain a bottle.

#### The Ruling Passion.

A young contractor in a Missouri town found himself after the war in dire financial straits. He owned a few pieces of property, all of which were mortgaged, the mortgage in each instance being held by an old man who lived with his son, Brocky, in a tumble-down but that could not be rented to any one else. In the course of time the miser foreclosed, taking over all the contractor's property, which was valued in excess of the amounts loaned. The contractor began to pay rent on the house in which he lived. Three months after the foreclosure the miser lay dying. An urgent message reached the contractor, and he, supposing that the other, knowing his end to be near, wanted to make what restitution he could for the good of his soul, hurried down to the cabin. He found the old man in a rickety bed, covered with a tattered quilt and an old overcoat. The contractor bent his ear hopefully to the other's lips. The miser drew a long breath, clutched the quilt in a shaky hand and whispered:

"Pay your next month's rent to Brocky."—Kansas City Star.

**Her Explanation.**  
"You asked what the trump was at least a dozen times last night!" "Yes, Charlie, dear. But I didn't really have to. I did that to show I was taking an interest in the game."—Washington Star.

**Plenty of Room Inside.**  
Grandmother—Why, Bessie, what a big dinner you are eating for such a very little boy! Bessie—Yes, grandma I know I ain't very big, but I've got an awful thin shell!—Woman's Home Companion.

**Both Interested.**  
Two young girls were on an east bound Euclid car. "Tell me the truth. Are you engaged to Harry?" said one. "Uh-huh! Why? Are you?"—Cleveland Plain Dealer.

#### SAID SHE WOULD FAINT

Mrs. Della Long Unable to Stand On Her Feet More Than a Few Minutes at a Time.

Pendergrass, Ga.—Mrs. Della Long, of this place, in a recent letter, says: "For five or six years, I suffered agonies with womanly troubles. Often, I couldn't sit up more than a few minutes at a time, and if I stood on my feet long, I would faint. I took Cardui, and it helped me immediately. Now, I can do my work all the time, and don't suffer like I did." Take Cardui when you feel ill in any way—weak, tired, miserable, or under the weather. Cardui is a strength-building tonic medicine for women. It has been found to relieve pain and distress caused by womanly troubles, and is an excellent medicine to have on hand at all times.

Cardui acts on the womanly constitution, building up womanly strength, toning up the nerves, and regulating the womanly organs. Success is due to merit. It has done good to thousands. Will you try it? It may be just what you need. Ask your druggist about Cardui. He will recommend it.

#### MUCH BUILDING IS BEING DONE

Sound of the Hammer and Saw Is Heard On Every Side In New Bern.

VISITORS GREATLY IMPRESSED  
Present Activities Have Prevailed For More Than Two Years.

Visitors to New Bern cannot fail to be impressed with the marked building activity which prevails at the present time and which has been in progress for many months. The first structure that attracts the attention of a stranger just arriving in the city is that being erected at the corner of Griffith and Queen streets by Dr. G. A. Caton. This is a three story brick building and is rapidly nearing completion.

Coming on down in the business section of the city he would see the handsome brick store being erected on Broad St. by L. H. Cutler, Sr. The contractors are rushing this work to completion as rapidly as possible and hope to have it in readiness by the latter part of this month. On the corner of Middle and Broad streets George C. Eubank is erecting a commodious brick structure which, when completed will be occupied by a mercantile firm.

Continuing further down Broad street he will find a commodious frame dwelling now being erected at the corner of Pollock and Broad streets, just completed tearing down the frame building formerly occupied by the Journal and within a few days the contractors will begin the erection of a large brick structure to be used by the owner, Eugene Williams, as a garage.

Retracing his steps and visiting the Northern end of East Front Street he will find that a commodious frame dwelling is being erected at that point and on going out National avenue he will find several homes now in course of construction. Among these, one is owned by William Dunn, Sr., and another by John Taylor. Contracts for the erection of several other buildings in this locality have been awarded and work on them will be started just as soon as the material can be secured.

Crossing the city to the recently opened suburb of Ghent the visitor will find that a mammoth casino, owned by the New Bern Ghent Street Railway Company, is now in course of construction and the work being pushed ahead just as rapidly as possible. Within a month or two this company will begin to erect a number of attractive homes in the new suburb and the contracts for some of these have already been awarded.

The contract for the erection of a fireproof building to cover the city's water and light plant is in the hands of the contractors and operations will be started just as soon as the material can be secured. In that section of the city there are several small frame structures now in course of construction, and others, it is learned, will be erected at an early date.

In addition to the buildings in course of erection which are mentioned above there are several others located in different points of the city, but those mentioned are ones most noticeable and most likely to attract attention of the casual observer. This condition of marked building activity has prevailed for the past two years and from present indications will continue for several years longer.

There ought to be a grand waffle rally before the season is over.
