

WHALE RAISES A TUG THREE FEET

THEN, CAPTAIN SAYS, IT CHASED THE DEFIANCE OVER A HALF MILE.

Baltimore, Aug. 6.—To have their vessel lifted three feet out of water and to be later chased over half a mile by an eighty-foot whale was the exciting experience of Capt. L. M. Smith and the crew of the P. Dougherty Company's seagoing tug defiance. Capt. Smith says the incident occurred while the tug was cruising between Cape Henry and False Cap.

"I was lying in my berth at the time and Mate Jack Reese was at the wheel," said Capt. Smith, "when all of a sudden the bow of the tug rose in the air and dropped with a plunge and a terrific roll.

"Mate Reese was trying to steady the vessel, which was still rolling, and when he recovered his voice said that he had run over a whale. While he was talking the huge mammal arose alongside the defiance and sent forth a large stream of water which deluged the vessel. The whale then started off making circles, as if in distress, and dived twice. Each time it came to the surface it spouted water and tossed its tail into the air.

"The whale turned around and followed the tug for at least half a mile. It then headed toward the beach as if fatally hurt, but when it got within about thirty yards of the breakers it again swerved around, and when last seen made off in an east-southeasterly direction."

FORM LEAGUE TO FIGHT SUFFRAGE

GERMAN CATHOLIC WOMEN DON'T WANT THEIR SEX TO HAVE THE BALLOT.

Buffalo, Aug. 5.—The organization of a Catholic Women's League that proposes to counteract the tendencies of the women's movement, including the demand for the use of the ballot, marked yesterday's session of the German Catholic Central Verein, which is holding its convention here.

"The movement," said Mrs. Frey, "is being promoted by women whose views are decidedly pagan. If their demands were to be realized, the Christian family would cease to exist."

WINS WIFE AS A RESULT OF BET

OUTCOME OF A BALL GAME DECIDED WHETHER PICARD WOULD WED OR NOT.

Chicago, Aug. 5.—Paul Picard, jr., bounced in on his parents at the Virginia Hotel Sunday night and introduced his wife. His parents were astonished. For several years his escapades, wine suppers and attendance at stage doors furnished amusement to his friends.

Two months ago Picard sr. decided that his son had had his full fling and sent him to New York to forget Chicago and its frivolities.

"This is Picard's story: 'A week ago I met a crowd of good fellows at the Knickerbocker in New York. We went to see the Giants play the Pirates. I was introduced to the prettiest girl I ever saw. She was rooting for the Pittsburghers, and in fun I said: 'If the Giants win will you marry me?' She said 'Yes' and the game went on. Marquard was pitching and New York won, 2 to 0. Then we all went to the College Inn for dinner.

"I ordered wine for a toast and then I asked them all to drink to my bride-to-be. The funny part of it was I had to ask her name, but I was determined that I was going to marry her. 'Stella—I was calling her 'Peggy'—said it was all a joke, but I insisted. She had made a bet and had lost, and she was too good a fellow to welch. So next morning we went to the Little Church Around the Corner and then Mr. and Mrs. Picard, jr. went back to the Knickerbocker.

"Papa is all right. He's a brick. Mother is still a little surprised, but she'll like her new daughter-in-law, all right. 'I have sent word to the bunch that I'm through, and I'm going to work.' Young Picard recently inherited a fortune from his grandparents' estate in France, but it is said to have shrunk as a result of trips about the country with various musical comedy companies

NO FEVER FROM TYPHOID VACCINE

AT LEAST THAT IS THE OPINION OF WELL KNOWN PHYSICIAN OF NORFOLK.

Norfolk, Aug. 5.—Dr. Powhatan Schenck, health commissioner of Norfolk, does not agree with those who are inclined to believe that vaccine used as a preventive of typhoid fever is responsible for the spread of the disease.

"I have personally used typhoid vaccine in at least one hundred cases," said Dr. Schenck yesterday, "and have never known any ill-effects other than that some patients have been affected with slight attacks of lassitude as is often the case with persons who are highly susceptible. Furthermore, vaccination for typhoid has been successfully used in at least one hundred thousand cases in the army and navy, and I have never heard of any serious results therefrom."

Dr. Schenck also said he did not see how it could be possible for a person to whom typhoid vaccine had been administered to contract the disease from the vaccine. In preparing the vaccine, Dr. Schenck explained, the heat generated during the sterilization process is so great as to kill the bacteria. The bacilli cannot possibly live through this intense heat, he stated. Persons vaccinated for typhoid, Dr. Schenck said, rarely suffer any more inconvenience than those vaccinated for smallpox and other contagious diseases, in a majority of cases not so much, and the after effects are about the same.

Dr. Schenck's defense of vaccination for typhoid, which is of comparatively recent origin, was caused by the publication in several Virginia papers yesterday of an article from Bristol, in which the statement was made that several physicians were of the opinion that vaccine used to prevent typhoid was responsible for the development of a number of cases in that city.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

What has become of the old fashioned woman who used to do up her hair with a doorknob twist?

Coolly Treatment.
"I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Withlow, Ark. "I went to a St. Louis Hospital, also to a hospital in New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by all dealers. (Adv.)

Many a man doesn't realize how small the world is until he begins trying to dodge his creditors.

Good Reason for His Enthusiasm.
When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is but natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by all dealers. (Adv.)

It is much safer for a man to rock his own baby than it is for him to stone his neighbor's chickens.

How the Trouble Starts.
Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowels regular and you will avoid these diseases. For sale by all dealers. (Adv.)

Slot machines are no part of the amusements at any resort.

Remarkable Cure of Dysentery.
"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers. (Adv.)

Castro seems to have stolen second base.

What is Best for Indigestion?
Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Tablets as "the best medicine I ever used." "I was troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. For sale by all dealers. NOT SCARED OF LOWER TARIFF

LARGE CARPET FIRM IN AMSTERDAM, N. Y., WILL DOUBLE CAPACITY.

Amsterdam, N. Y., Aug. 6.—"M'Chary Wallin & Crouse, carpet and rug manufacturers, in which Congressman Samuel Wallin of the Thirtieth District is a heavy stockholder, will shortly double their present capitalization of \$2,000,000 by issuing new bonds. The money derived will be utilized for the improvement of the plant, it is said, including the erection of new buildings and the installation of additional machinery, which will increase the production nearly 50 per cent.

This announcement, coming upon the heels of Mr. Wallin's attack upon the Democratic Tariff bill, particularly the wool schedule has occasioned much surprise here. It is argued that, in spite of his prediction of dire results in event of reduction of the duty on wool, the firm cannot be anticipating any such calamity.

The company is the second largest employer of labor in this city carrying about 2,000 hands on its payroll. Another carpet mill here gives employment to nearly 3,000 and the pre-election predictions of what might be expected to follow the election of a Democratic Congress has had an adverse effect on the city's business for several months.

RECEIVER NAMED FOR LUMBER COMPANY.

Fayetteville, N. C., Aug. 5.—At a meeting last night of the creditors of the Newton McArthur Lumber Co., with a large plant at Elizabethtown and the main office here, ex-Judge J. C. Biggs, of Raleigh, was, by consent of all parties, agreed on as receiver. An order was so made by Judge Lyon at Elizabethtown. The bonded indebtedness of the company is something like one hundred and fifty thousand dollars, and assets two hundred thousand.

The company owns a plant valued at seventy-five thousand dollars, four thousand acres of land and nearly thirty million feet of standing timber. Banks in another State are the principal creditors. J. Sprunt Newton, of Fayetteville, is the principal owner.

BODY BROUGHT HERE FOR INTERMENT

The remains of the infant of Mr. and Mrs. Herbert B. Lawrence who died Sunday at Bragaw were brought to this city yesterday afternoon and interred in Cedar Grove Cemetery. Mr. and Mrs. Lawrence are former residents of New Bern.

Between three and four thousand people attended a picnic held Tuesday at Catherine Lake. This picnic is held annually and is always largely attended. Several New Bern citizens were among those who participated in the event.

EVEN UP WITH EXPRESS PEOPLE

AND REVENGE IS SWEET, SAYS STATE SENATOR SUNDBERG OF MINNESOTA.

Minneapolis, Aug. 6.—When in 1909 an express company charged State Senator E. Sundberg of Kennedy, Kittson County, Minn., \$32 for carrying a casting worth \$2.50 to him from Minneapolis, the company perhaps laid the foundation of an expense to the combined express companies of the country of approximately \$26,000,000 a year.

The casting was ordered by telephone. Sundberg wanted it for his threshing machine in a hurry. When it arrived, the express charges made him mad clear through and he swore, he says, that he would have revenge. Senator Sundberg engaged James Manahan, now Congressman-at-Large from Minnesota to bring action before the Interstate Commerce Commission. The case was begun in Minneapolis and in the following year was carried to New York.

Two days before the case was called the Minnesota state-man and his counsel went to New York and got Commissioner Lane, now a Cabinet officer, subpoenas for the officials of the United States, American, Well-Fargo and Adams Express Companies. They personally served the subpoenas, and when the case came up the attorney argued that the express companies had interlocking directorates and that their rates were unreasonable.

The commissions decision reducing the rates was filed July 16, 1912, but litigation brought on by the companies prevented the order issued today from being filed for more than a year. Senator Sundberg says he is satisfied, and that revenge is sweet.

BUSINESS CHANGES HANDS.

H. W. Simpson Sells Undertaking Establishment.

D. G. Smaw has purchased from Herbert W. Simpson his undertaking and embalming business on Broad street and will in the future conduct the establishment.

J. A. Simpson, father of H. W. Simpson, established this business thirty-eight years ago and his son later took charge of it. Mr. Smaw has been with Mr. Simpson for twelve years and is in addition to being a licensed embalmer thoroughly familiar with every part of the undertaking business.

It is his desire and aim to give the very best service.

C. VIL SEVRIC'S ANNO UNCEMENT.

The Civil Service Commission wishes to announce that applications for the first-grade examination (clerical) for August 16 will be accepted from classified employees now holding the position of deputy collector of internal revenue or deputy (office) United States Marshall provided they have not been examined within less than one year from the date of the examination for which they seek entrance. They will, however, be eligible only to the service in which they are employed at the time they take the examination unless they are recommended. In the latter case their names will be placed on a register for certification for appointment to the position for which the examination is appropriate.

HEAVY FOREIGN TRADE REPORTED

Year Ending June 30 Banner Year In Dealings Between U. S. and Other Countries.

GREATER PART WITH EUROPE

And Of Europe The United Kingdom Maintains Its Position As Our Best Customer.

Washington, D. C., Aug. 6.—The detailed figures given out today by the Department of Commerce show that the fiscal year ended June 30, 1913, was the banner year in the trade of the United States with foreign countries, the total trade exceeding \$4,275,000,000 and surpassing the trade of the fiscal year 1912 by over \$421,000,000. Imports into the United States in the year exceeded \$1,812,000,000 and exports from this country exceeded \$2,465,000,000, making a balance of trade in our favor of over \$652,900,000. The imports surpassed those of the fiscal year 1912 by over \$159,700,000 and the exports were more than \$261,500,000 greater than those of last year.

Exports of manufactured and partly manufactured articles in the fiscal year 1913 exceeded \$1,500,000,000 in value and show an increase of more than \$168,000,000 over the preceding year.

A survey of the statement issued by the Department of Commerce shows that the greatest gain in our exports is in manufactures ready for consumption, in which class there was an increase of more than \$105,000,000 over 1912. There was also a gain of over \$60,000,000 in manufactures for further use in manufacturing, but the increase in foodstuffs partly or wholly manufactured was only a little over \$1,500,000.

Looking at the figures by grand divisions it is seen that the aggregate trade of the United States with Europe in the fiscal year just ended was over \$2,371,000,000, or more than one-half our total foreign trade. This was divided into over \$892,000,000 worth of imports and \$1,479,000,000 worth of exports, a balance of trade in our favor of more than \$587,000,000. The aggregate trade with the other countries of North America exceeded \$979,000,000, of which over \$361,900,000 were imports and over \$617,400,000 were exports. The remainder of our foreign trade, amounting to about \$925,000,000, was divided among Asia, South America, Oceania and Africa, in the order named.

The United Kingdom maintains its position as our best customer, having purchased from us over \$597,000,000 and sold us over \$295,000,000 in the year, an aggregate trade of more than \$892,000,000. Our second best customer is Canada, which bought from us over \$415,000,000 and sold us over \$120,000,000, a total trade exceeding \$535,000,000. Third comes Germany which bought from us over \$331,000,000 and sold us only a little less than \$189,000,000, an aggregate trade of more than \$520,000,000. France is fourth with purchases from us in excess of \$146,000,000 and sales to us in excess of \$136,000,000 a total trade of over \$282,000,000.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place. "I was down in bed for three months. I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health.

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

DECLARES JAPAN SEEKS MASTERY

Prominent Californian Says That The Control Of The Pacific Is At Stake.

Explains That State's Stand Hopes United States Will Tell Japs A Few Things When Canal Is Finished.

Baltimore, Aug. 6.—The Japanese question in California is a question of biology, a problem bigger than that of races, and one which involves the future mastery of the Pacific Ocean and all its coasts and islands, according to the statement of Theodore A. Bell, former Congressman from California and temporary chairman of the Democratic National Convention in this city last year. He was speaking at the Tuesday luncheon of the Rotary Club at the Hotel Rennett at noon yesterday.

"Where the Japanese settle, they stay," he said. "They drive out white labor and then they show the owners of the land that it best to lease the land to them. When you once lease the land to them you will soon find it necessary to sell to them. And when they have the land hold on to it."

"Then come their women. And you know that every Japanese born on the soil of the United States is a full-fledged citizen and eligible to become President. But every Japanese, wherever born, is a loyal subject of the Emperor of Japan. To him the Emperor is divine. It is not only honor but Heaven itself to die for his Emperor. You cannot assimilate objects of such a nation.

"But it is a question of Biology. If the Japanese intermarry with white Americans at first they will produce mongrels, but in the end their descendants will be Japanese in all essentials.

"Japan is ambitious. It has felt its power. It demands to be recognized as among the first powers, and to keep its position it must plan for the future. This planning includes the domination of the Pacific Ocean, including all the coasts bordering on that sea and all the islands in it.

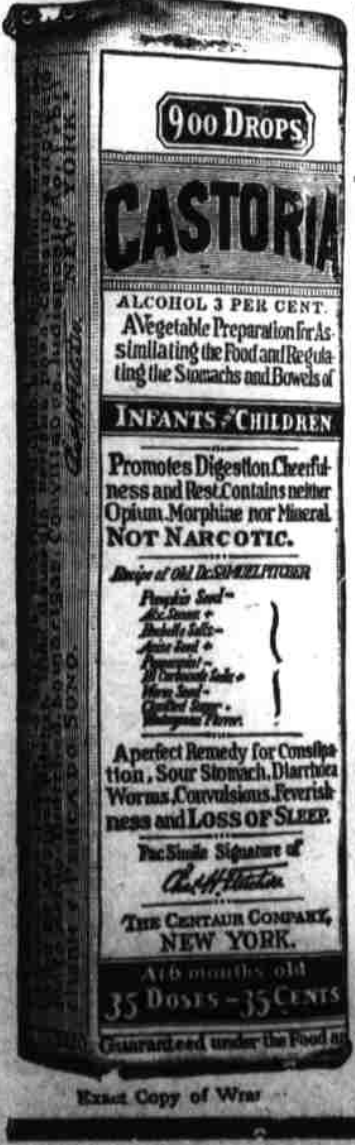

"My hope is that when the Canal is finished the United States will have backbone to tackle the problem squarely and tell Japan exactly how far it can go.

"I was misquoted when I was represented as saying that California will take matters in its own hands if the national Government does not act. We are law abiding in California. The law passed by our Legislature was a mistake, and I protested on both floors of the Legislature against it. But next year a law depriving the Japanese of rights not only of owning land but of leasing it will be presented by initiative to the Legislature.

"It is a national problem, but it must be handled quickly and fully. California must bear the brunt of it, but we Californians have to force the issue. We do not want to leave a legacy of this fateful problem to our children. It is our duty to settle it and we will.
