COURT-MARTIAL FOR CAPT. WEST

Serious Charges Preferred Against Commanding Officer Of Cutter Pamlico.

HEARING TO BE HELD SEPT. 23

Report Says That He Neglected His Duties And Violated The Regulations.

News has reached this city that Captain H. B. West, the commanding officer of the revenue cutter Pamlico, which is located at this port but which for the past few weeks has been undergoing repairs and being equipped with wireless apparatus at Baltimore, Md., is to be court-martialed on charges of neglect of duty, violations of regulations and conduct unbecoming an officer and gentleman.

The Pamlico left this port about four weeks ago enroute to Baltimore and since that time has been at a ship yard in that city. The court-martial of Captain West was ordered on September 9 by Secretary of the Treasury McAdoo, and will be held at South Baltimore on September 23. The court will be composed of Captain D. P. Foley, president; and Captain H. Emery and Captain J. H. Chalker. Second Lieutenant J. L. Ahren will prosecute. Second Lieutenant William Williams has been detailed as recorder.

News of the affair caused considerable comment among Captain West's friends in New Bern. Since taking command of the Pamlico he has spent much of his time in this city and has made a host of friends who hope that he will be able to clear himself of the charges against him.

MANY NEW OFFICES.
Internal Revenue Service Will Be Reorganized.

Washington, Sept. 17.—The Internal Revenue Service probably will be reorganized as soon as the new Tariff bill is enacted, preparatory to administering the income tax provisions of the law. Resignations of several collectors of internal revenue who have been holding over from the Republican administration are expected to be accepted as one of the first steps.

Secretary McAdoo has been slow in making a sweeping reorganization of this service because, with the collection of the income tax in view, he has considered only men of high ability and constructive experience. With the law on the statute books however it is said he will quickly readjust the organization. He is now considering the appointment of a commission of experts to assist Commissioner of Internal Revenue Osborn in the task of reorganization.

The Secretary is favorable to the bill in Congress for the increase of the salaries of collectors in certain large districts from \$4,500 to \$6,000.

It is estimated that the office and field force of the Commissioner will be increased by 300 employees.

Mrs. Pankhurst will get along better in this country, she's a wa nothing but bouquet.

EXPLOSION KILLS INVENTOR'S WIFE

New York Woman Meets Her Death While Watching Scientific Experiment.

HER DEATH INSTANTANEOUS

Steel Tank Containing Chemicals Exploded With Frightful Force.

New York, Sept. 17.—Mrs. Era Gottschalk, wife of Dr. Louis Gottschalk, a scientist and inventor, was killed this morning by the explosion of a steel tank in a laboratory back of her home at Sewaren, a suburb of Amboy, N. J.

This tank, which was about four feet tall and six inches in diameter, contained a mixture of chemicals which Dr. Gottschalk had been using in trying to make artificial or synthetic rubber. The working together of these materials apparently reached an explosive point just as Mrs. Gottschalk entered the laboratory. She had left breakfast in her eagerness to see how the experiment was progressing. She was alone in the laboratory.

With a report that was heard half a mile the steel tube gave way in the middle. One fragment hit the woman in the head, crushing her skull, and another part struck her in the abdomen producing a wound like that which would have been made by a heavy charge of gunshot fired pointblank.

The laboratory was wrecked, its windows were blown out, gallons of chemicals were strewn about the floor, and other tanks containing the compound were hurled yards away.

The doctor believed he was on the point of achieving the artificial making of high grade rubber, which for years has been a dream of scientists. Artificial rubber has been made before, but it has never been commercially valuable. Dr. Gottschalk and his associates believed their product would be the proper quality and profitable.

The Gottschalks recently moved out from Newark to Sewaren, so that the might finish his tests in secret. He was backed by the Alembic Process Company, which has a factory under construction in Amboy. He is vice-president of the concern and was slated to be manager of the factory.

On Tuesday afternoon he and his wife, who was his companion in the tests, set out four of the big steel tanks containing chemicals. To each was attached a temperature gauge. The experiment was to be successful in case the temperature of the mixing chemicals did not rise above a certain point.

The couple were up early yesterday, and while the wife prepared breakfast the scientist went in the laboratory and examined the gauges. When he sat at the table at 6:30 o'clock with Mrs. Gottschalk and her sister, Miss Relig, he said the temperature of the chemicals was just normal.

The wife was happy. Before she had finished breakfast, she said: "I must go out and look for myself. I want to see how the gauges stand now."

She ran laughing from the house. Less than a minute later came the tremendous crash of the explosion. The doctor and Miss Relig went to the laboratory and found it otn to pieces with Mrs. Gottschalk dead upon the floor. Coroner James J. Flynn, of Amboy, soon came and said the woman had been instantly killed.

Dr. Gottschalk said that there was nothing his wife could have done to cause the explosion. It must have been that the steel tank—probably faulty in material—just chanced to explode at the instant she was examining it. He would not tell what chemicals he had used because he was bound not to reveal the secret.

HELPLESS AS BABY

Down in Mind Unable to Work, and What Helped Her.

Summit Point, W. Va.—Mrs. Anna Belle Emery, of this place, says: "I suffered for 15 years with an awful pain in my right side, caused from womanly trouble, and doctored lots for it, but without success. I suffered so very much, that I became down in mind, and as helpless as a baby. I was in the worst kind of shape. Was unable to do any work."

I began taking Cardul, the woman's tonic, and got relief from the very first dose. By the time I had taken 12 bottles, my health was completely restored. I am now 48 years years old, but feel as good as I did when only 15.

Cardul certainly saved me from losing my mind, and I feel it my duty to speak in its favor. I wish I had some power over poor, suffering women, and could make them know the good it would do them."

If you suffer from any of the ailments peculiar to women, it will certainly be worth your while to give Cardul a trial. It has been helping weak women for more than 50 years, and will help you, too.

Try Cardul. Your druggist sells it.

SCHMIDT ALSO A COUNTERFEITER

CATHOLIC PRIEST HAD COMPLETE OUTFIT FOR MAKING MONEY.

New York, Sept. 17.—The discovery of a counterfeiter's den which Hans Schmidt, priest and confessed slayer of Anna Amuller today admitted was fitted up by him to make spurious money, led the detectives, Coroner Feinberg and other visitors to his cell in the Tombs to express the opinion that Schmidt is sane, and that further investigation will develop that counterfeiting was only one of his "side lines." They declared it their belief that he is feigning insanity pursuant to carefully made plans of a master criminal mind.

To the Rev. Father Evers, chaplain of the Tombs prison, to his attorney and other callers Schmidt admitted his connection with the flat in West 134th street, where detectives found bundles of imitation \$10 gold certificates.

Dr. Ernest Arthur Muret, the dentist arrested last night after the raid of the counterfeiter's flat today was held in \$5,000 bail for hearing on the charge of having in his possession a revolver in violation of the State law. Through his knowledge of the law Muret forestalled the plans of the federal secret service agents waiting to arrest him on a warrant charging counterfeiting. By waiving preliminary examination Muret temporarily escaped the more serious charge.

Bertha Zech, the servant girl employed by Dr. Muret and taken to police headquarters with him last night was released, the detectives telling the court they had no evidence on which she could be held. Dr. Muret, the search of his office disclosed, had been studying law through a Chicago correspondence

school. Many law books and forms of study from the school were found. William Flynn, chief of the secret service, today announced that he had temporarily taken charge of the government's end in the case and would work with the New York Police in tracing the operations of Schmidt as a counterfeiter and also the connection Muret might have had with the fake money plant.

Inspector Faurot, head of the detective bureau, tonight reiterated his belief that Muret and Schmidt are relatives, if not brothers. Doctor Muret told the inspector the resemblance was merely a coincidence.

Alphonse B. Koelble, Schmidt's attorney, today visited the prisoner and later declared he was more than ever convinced of the insanity of his client.

"He declared that he is sane," Koelble said in explanation of his belief. "He says one of his personalities, is Schmidt, the priest; that another is Doctor Moliere, the medical man, and a third the counterfeiter. He freely admitted his intention to make money but says the money was not counterfeit but real money made at the command of God."

FOOTBALL GAMES DURING THE FAIR

LOCAL TEAM WILL PLAY AGAINST A. AND M. AND HORNER BOYS.

Several days ago the football team of the Ghent Athletic Association received two challenges for a game, one from the second team of A. and M. College and the Horner Football Team. Both teams desired to come to New Bern during the week of the Eastern Carolina Fair which is to be held during the last week of October and the local team at once began to arrange for dates for these games.

Yesterday it was announced that these games had been arranged for Fair week and the dates will be announced later. Both the A and M team and the Horner team are strong teams and have a number of victories to their credit. The local organization however is right there when it comes to a question of playing football and those who witness these two games may rest assured that they will get their money's worth.
