Don't forget to write it 1915.

Its safe to say that at least ninety-nine per cent of the population of South Carolina will be glad to see the dawn of the day on which will not only be down and out of office but will also be down and out in every other way.

lutions be to pay up all of the bills you owe. If you can't pay all of must agree with that of the patient kirch and Mulhausen. lar has been paid.

We are this morning on the threshold of a new year, a year which all of us and right at the very start his line or two and then comes night." The span of life is so short that we must do whatever we intend to do without delay. Opportunity is with Conditions today are such that we ean make giant strides of progress in every way if we take the proper steps. Let us decide this morning had anything like the same response creasing intensity is in progress along to write on our page of life in 1915 to such an appeal, it develops. At the entire French center and right. the greatest deeds of any done so Bellevue, the Presbyterian, the Poly- The infantry is pressing forward far and make this a banner year indeed

#### DETECTIVE IS TO SAY WHETHER WOMAN IS WHITE

It Appears That Many Are Germans Put Up A Stiff England's Ally Holds Up Creator of "Craig Kennedy" Says That He Can Easily Do This

Show Whether She Is Negress

New York, Dec. 31 .- Arthur B. Constant serious interference with Reeve, writer of the newest movie American commerce on the Pacific serial, "The Exploits of Elaine," was charged today again-t Japan, and creator of "Craig Kennedy," member of the Pacific dicegation of the House is authority for the baffling mysteries through advancestatement that Japan has been hold- ced scientific agencies, declares his ing up the United States vessels on belief that it is perfectly feasible to the high seas in a manner similar determine whether one is Caucasian, Mongolian or African through a single drop of blood

A letter is on its way to Mr. Reeve from Mrs. Alma Little, of the immigration bill by a vote of Detroit, who has been sued for divorce on the ground that she is of negro blood, appealing to him to ate passed the Reed substitute amend- assist her in proving that she is of white. Mrs. Little's appeal is based ator Williams of Mississippi had on "The Toxin of Death," a story which Mr. Reeve wrote some time ago, in which he incidentally touched upon the theory that radicial tendencies are revealed through the blood. Mrs. Little, therefore, is asking Mr. Reeve to turn fiction into fact.

Would Make Blood Test.

"It can be done-in this case," said Mr. Reeve. "I have not heard virtually failed today because the from Mrs. Little yet, but if she does European war had upset plans the make her appeal to Craig Kennedy formal exchanges of ratification. This that expert will simply take a drop none of the great maritime powers after the method of Dr. Edward Pennsylvania. His test, I feel certain, will establish quickly to what race she belongs." Mr. Reeve took down the volume

The Dream Doctor," which is a collection of the Craig Kennedy stories recently published by the Hearst International Literature Company. Turning to the story, "The Toxin of Death," he said:

"Here is the quotation to which Mrs. Little probably has reference." Dr. Kennedy was explaining a case to his friend, and he said:

Kennedy Ecplains Method. "There is a blood test so delicate that one might almost say that he could identify a criminal by his very blood crystals-the finger prints, so permit South American vessels to to speak, of his blood. It was by join the fleet at Cristobal. That means of these hemoglobins, if I Liverpool Man Had Excit- Cut of Forty-Five Per Cent would obviate the long journey to may call them so, that I was able to Hampton Roads where the American get on the right trail. For the fact of any other living creature. Blood of different men, of men and women, differs. I believe that in time we shall be able to refine this test to tell

the exact individual, too. "What is the principle? It is that the hemo-globin, or red coloring matter of the blood, forms crystals. That has long been known, but, working on this fact. Dr. Reichert and Professor Brown, of the University of Pennsylvania, have made

some wonderful discoveries. "We could distinguish human from animal blood before, it is true. But colored citizens of that particular blood of man from that of animals. and in addition that of white men of the visitor, an old colored man from that of negroes and of other who was known as Frank Cook, races. It is often the only way of decided to make a speech before a differentiating between various kinds

Crystal Structures Vary. "The variations in crystals in the blood are in part of form and in part soon gathered and the old man warm- of molecular structure, the latter being discovered only by means of ing the course of his remarks Cook the polarizing microscope. A blood raised his right hand and in solemn crystal is only one two thousand two GENERAL VILLA tones proclaimed: "I tells you all hundred and fiftieths of an inch in dat de Lord is talking to me." The length and one nine thousandth of words had barely escaped his lips an inch in breadth and yet, minute when he fell to the ground and when as these crystals are, the discovery is picked up a few seconds later he had of immense medico-legal importance His Forces Follow Those of ceased to live. The effect on the Crime may now be traced by blood

All this was fiction, in which Mr. Reeve at the time he wrote his story was anticipating the experiments, which Dr Reichert was then conduct-

"It is a fact now," said Mr. Reeve "and I reccommend that Mrs. Littl turn to Dr. Reichert. I understand he has completed a series of experi-ments which eventually will enable him not only to distinguish between individuals by his blood tests, but also to determine from a drop of blood the parents of any given child."

### GREAT DECREASE IN IMMIGRATION

During the Past Year

New York, Dec. 31.-Immigration through New York this year decreased 45 per cent, as compared nounced today by the commissioner

of immigration. During 1913 arrivals numbered 1,334,914 persons of whom 1,163,-993 were aliens and 170,921 returnwere only 733,504, of those 573,675 were aliens, and 159,829 were citi-

zens. The number of departing aliens was greater by 37,818 than last year. New York; during 1914 departures

were 418,886. Immigration officials and representatives of the Immigrant Aid Societies explain the decrease-aside from the war-as due to the curtailing work in the United States and to an effort by foreign countries to restrict imigration by providing work at home and bettering the conditions of their working classes.

#### LARCENY CASE IS UP AGAIN

Further Investigation Into Stealing of E. W. Simpkins Bicycle
