If you were a merchant and had a elerk who was capable of handling the trade, who understood his business and who gave complete satisfaction, you would not think about discharging him and replacing him with a new man, would you? Certainly you wouldn't. Such being the case, there is no reason why any member of the present Board of Aldermen should be replaced. WHAT IS A STOCK LAW?

The prevailing idea seems to be to compel the people to shut up their stock. The next question is: What is stock now? If a horse or cow, hog or sheep are stock, why is not a dog stock? If a person should be compelled to keep their horses, cows, hogs and sheep up or pay damages if found on the highways, or marauding someone's premises, then why not compel people to pay for their dogs going at large? Dogs go at random sucking eggs' killing sheep, going mad, biting other stock and people and digging up hogs that have died with cholers, eating old poultices and all kinds of germ laden filth, peddling disease about among stock and people and nobody knows in this good old North State is held responsible Now what's wrong with taxing the dogs and making the owners keep

Washington, March 2-Several American manufacturers brought to the attention of the State Department an embargo on exports of sisal fibre from Progreso, Mexico, which they said, threatened a shortage in the supply of twine for the 1915 American harvest.
