TAX IS VERY LOW

An Interesting Announcement Comes From Washington

Washington, April 27-An interest. ng sidelight is thrown on North Carolina by a special bulletin on assessed valuation of property and amounts and rates of levy, issued by Director Sam L. Rogers, of the Bureau of the Consus. Department of Commerce, and compiled under he direction of Mr. Strake M. Grogan, chief statistician in charge of the inquiry. The bulletin shows a total property tax levy of nearly \$1,350,000,000 throughout the United States in 1912, amounting to \$13.97 increases of 86 per cent and 51 per and Sunday. cent, respectively, over the total and per capita levies in 1902.

"The lowest per capita figure hown by any state in 1912 was that of North Carolina, 4.33," said the bulletin. "Other states in which the levies were small are Virginia, West Virginia, South Carolina, Georgia, Kentucky, Tennesce, Alabama, Mississippi, Arkansas and Texas, in all of which the per capita tax for 1912 was less than \$8."

The census statement follows: "The levy of taxes on real estate, personal property, and other prop-\$1.349.841.000, or \$13.91 per capita. rived by municipalities from liquor much success in her work here. icenses and other licenses and fees.

Pretate Plate Commission

If you can allow me space in your paper, I would like to say that I sell to good reason for the complaints against the appointment of Mr. H. L. Gibbs as Pish Commissioner. He was recognized as the best oyster commissioner the State ever had, and being a native of the coast section, I see no reason why this appointment should be objected to. Mr. Gibbs is a man of thorough acquaintance in the eastern section, and of splendid qualifications generally. I have been in the 8sh and oyster business for many years and have much interest

in these great industries.
I think most of the criticism originates with those who are unacquainted in the business and the duties of this position.

A. L. WILLIS. **Defends Governor Craid** Mr. Editor:

I notice that there are withcisms of the Governor for his selection of Mr. H. L. Gibbs as Fish Commissioner. As one much concerned in the fish business, I would like to resent these criticisms as unjust and unfounded, because I believe the Governor has acted in good faith and from good judgment, with a desire to further the interests of the great fish industry of this State. I know Mr. Gibbs has made good as oyster commissioner and I see no reason why his present appointment should not be satisfactory. TOLSON & SMITH.
