Entered at the post office in New Bern N. C. second-class mail matter
TUESDAY, JUNE 15, 1915

Who said that Summer was lingering in the lap of Spring?

"Wave of Prosperity After the War" pipes a headline in the Norfolk Virginia-Pilot. We don't care if it is a tidal wave either.

Secretary Bryan is scheduled to make another "statement" today or tomorrow. About the best message he could send out to the people of this country, would be to the effect that he expects to crawl in a hole and pull the hole in after him.

Over in Kingston they placed the Mayor under arrest for exceeding his authority by personally turning two men out of jail and he will be given a hearing today. Its rather an unusual occurrence to place the chief executive of a city under arrest but if he actually violated the law he should be treated just like any other citizen.

Captain A. L. Bryan of the local police force, added another feather to his cap yesterday when he ran to earth a burglar who had left no clue in his wake except a screwdriver. New Bern has a pretty good police force but the pick of them, when it comes down to a question of crime detecting, is undoubtedly in favor of Captain Bryan.

Its funny how people will get a fool notion in their head and for some trivial real or imagined cause, commit suicide, isn't it? Over in Richmond Sunday a young bride picked up such an idea and as a result she is now no more and there are hundreds of similar cases every month. Death may be preferable to life in some cases, but knowing what is awaiting on the other end, it looks like the folks who shuffle themselves off this mortal coil, would think long before taking the fatal step.

Between Bryan and Dernburg, we hardly know which to pick as being the greatest explainer.

When you reach the point that every time you begin talking to a newspaper man you can say that "this is for publication," you will have reached the stage of prominence.

Deciding that he could not say enough in one statement Ex-Secretary of State William Jennings Bryan, has announced that he will issue a three part missive, giving out one section a day. After the final one has been laded out to the public we expect that the great advocate of harmony will condescend to have a few more words to say.

Senator Simmons, in Washington, is making an inquiry into the question of dyestuffs which are needed in this country. The greater portion of this has in the past come from Europe and, although attempts have been made here to produce the same article, these have not proven to be a success. However, the time has come when something must be done and the dyes might as well be labelled "Made in America" as other articles.

The extension of the gas mains to Riverside is about completed. The big four inch main that was put down on Pasture beginning at Queen and extending to Riverside, was connected yesterday with the main on Queen street. The residents of the suburb have been using gas for several weeks, but the supply was from a small pipe and only a few consumers could be accommodated. Now that this large main is in commission, the gas company, which is under the supervision of J. E. Palmer, is in a position to furnish all the gas that the people residing in Riverside need.

The citizens of Beaufort county are staunch advocates of the good roads movement and are doing everything within their power to improve the conditions of the thoroughfares in that section. One of the highways that is giving them so much concern is that leading from Aurora to New Bern. This is, at points, in pretty bad shape and a committee has been appointed to come to Craven county and confer with the Board of Commissioners in regard to co-operating and putting the road in excellent shape. If this is done it will be of benefit to New Bern as well as Aurora and if the citizens of that county will do their share of the work, there is every reason to believe that the local com-

THE DEVIL HAS NO TAIL SAYS ADKINS

Neither Is He Equipped
With Horns or
Hoofs

Nowhere in the Bible does it say the devil has horns, hoofs and a forked tail, tormenting people in the burning fire, but on the contrary, it says he was created perfect in beauty, and full of wisdom, until sin was found in him. The foregoing is one of the main thoughts of Evangelist W. L. Adkins, which he gave in his address, "The Origin, History, and Destiny of Satan," last night to a very large and interested audience, at the tent, corner of Broad and Burn streets.

He further stated that before the devil sinned, his name was Lucifer, meaning day star. "He was chief of the angels and next in position to Christ."

"A description of Satan, or Lucifer is given in Ezekiel 28th, chapter from the clearest verse and onward, under the symbol the king of Tyros. Here it is expressly stated that he became exalted because of his beauty, and the desire entered his heart to become equal with God. He said he would exalt his throne above God. (Isa. 14-12-14) Getting a large number of angels to sympathize with him, he led them to war against Christ and the angels that did not join him, but they prevailed not, neither was their place found any more in Heaven. (Rev. 12-7-9) Jesus said, 'He beheld Satan as lightning fall from heaven.'"

"From planet to planet the deceiver went, seeking a foothold. He was refused allegiance until he came to this planet and succeeded in hypnotized Eve. The first thought that he tried to instill in her mind was the same one he had in heaven—that of being God. (Gen. 3:5.)"

"Had God demonstrated his superior power over Lucifer, now called Satan, innocent beings, having no demonstrated understanding of the results of transgression, would have feared their maker, and from henceforth would have served him from fear, rather than love, or else some of them would have started the rebellion again, thinking that Satan was right in his attitude. Thus, divine wisdom would have destroyed his purpose in creation; hence the long suffering of God in permitting Satan and sin to run their course, that all of his creatures might understand, that the way of transgression is unhappiness, misery, and death. Love, gentleness, kindness, and long suffering toward the erring, would draw his creatures back to God."

"However," said the speaker, "the time will come when Satan will, with all his followers, be destroyed. To put it in the words of Ezekiel 28th chapter, 17th, 18th and 19th verses, 'Thine heart was lifted up because of thy beauty—therefore will I bring a fire from the midst of thee, it shall devour thee, and I will bring thee to ashes upon the earth, in the sight of all them that behold thee. All they that know thee among the people shall be astonished at thee: thou shalt be a terror, and never shalt thou be any more.'"

Evangelist Adkins will speak to-night on "God's Definition of Love."

BRYAN TO ISSUE THIRD STATEMENT

Says He Will Be Heard
From Today or Tomorrow

Washington, June 14—W. J. Bryan, at Old Point Comfort, today said he will issue another statement Tuesday or Wednesday on "the causeless war."

An unidentified tug is believed to have burned and sunk with all aboard off the Virginia capes Friday. The cutter Onondago rushed to the scene but found nothing. It is thought she arrived too late.

The Census Bureau today reported cotton consumption exclusive of linters to have been 493,687 running bales in May, against 466,744 bales in May, 1914. Active cotton spindles exports may exceed the same of May in last year.

The work of building a concrete floor to the building occupied by the New Bern Fire Engine Company, has been started and will be rushed to completion as rapidly as possible. The Fire Department Committee of the Board of Aldermen, was instructed at the last meeting of the Board to have this work done.

The amount of freight being handled locally, by the Norfolk Southern Railway Company is very gratifying to J. P. C. Davis, local agent for this company. Mr. Davis stated yesterday that while the amount of truck that is being handled is not as large as is usually handled at this time of the year, business in other class of freight is very satisfactory. Mr. Davis attributes the small amount of truck to the low prices, and is of the opinion that it will be moved in a larger bulk when the price increases.

IN LOVING REMEMBRANCE —of— MR. A. E. WILLIAMS

Our entire community was deeply
grieved to learn of the death of Mr.
A. E. Williams, who died at his home
at Croatan Thursday night June 10th.

He suffered several weeks with the
terrible disease, asthma. Day by day
his condition became weaker. Finally
the thought of death did not frighten
him. His sufferings were great, but
he bore them well. He was a true
and consistent member of the presby-
terian church at Croatan, and was a
faithful and efficient superintendent
of the Sunday school.

Oh, how much we do miss him from
his work that was good!

He has gone to his home in Heaven
where he has already received his
welcome and is resting on the bosom
of his Savior.

He was 65 years and one day old.
He leaves a loving wife, two daughters,
five sons, one brother and a host of
relatives and friends to mourn their
sad loss.

Weep not dear loved ones, for we
know that our loss is Heaven's gain.
May God in His tender mercies
comfort the bereaved ones and help
us all to prepare to meet Him in
Heaven.

Through this earth life is sweet
for all 'tis best
By temptations and griefs 'till ye
rest.

He is living in love; for him no regret.
God called and he answered, 'Tis best.

Oh, how sweet it will be in that
beautiful land!

So free from all sorrow and pain,
With songs on our lips and with harps
in our hands,
To meet one another again.

A Friend,
G. L. W.
Riverdale, N. C.

THE FORD IN MOTION PICTURES

The Moving Picture Department of
the Ford Motor Company has recently
added some remarkable films to the
Nation-wide service of the Ford An-
imated Weekly. One of the most in-
teresting of these is a scene showing
the military ceremonies conducted
by the United States Engineering
Department on the occasion of the
filling the last gap in the million-
and-a-half-dollar sea-wall in Galves-
ton Bay. A significant feature of
this, showing the national promi-
nence of the Ford Animated Weekly
is the fact that the United States
government wired to the Ford Motor
Company announcing that to take
these pictures a government tug
would be placed at the disposal of
the Ford operators.

Food photos were also taken of the
two sea-raiders, Kron Prinz Wilhelm
and Prinz Eitel, now interned at New-
port News for the balance of the war.
The two daring commanders, Cap-
tains Thierfelder and Thierchen, and
the crews of the German warships are
shown and also the work of transfer-
ring the British prisoners to the steam-
er Cassandra which took them back
home.

Other new films are President Wil-
son opening the baseball season in
Washington; Regnar Onvedt, mak-
ing a new world ski-jumping record
of 120 feet at Denver, and operating
of the new Bennett-Mercier rapid-
fire gun, firing 450 shots a minute.

NEED HAVE NO FEAR OF REPLY

Berlin, June 16—America need
have no apprehension about the Ger-
man reply, high officials of the Ger-
man foreign office today told the Uni-
ted Press. They said they were much
impressed by the friendly tone of the
second note. They said the note will
not be answered before the arrival
of Dr. Meyer Gerhard, personal em-
bassy of Ambassador Von Bernstorff,
and also indicated that the Balkan
situation is occupying a lot of atten-
tion at the foreign office.

CHICAGO IN GRIP OF TRAFFIC TIE-UP

Chicago, June 14—Chicago is in
the grip of the worst traffic tie-up in
its history. No surface cars are run-
ning. Fourteen thousand and five
hundred motormen, conductors, shop-
men and ticket sellers are affected by
the strike. No violence is reported.
The men are striking for more pay
and better working conditions. Big
downtown department stores are de-
serted, and the shop girls are unable
to reach their places of work.

CHAMP CLARK'S SON TO WED MISSOURIAN

Columbia, Mo., June 14—At a
luncheon at the home of the bride-
elect today the engagement of Miss
Helen Marion Robinson, of Columbia,
and Bennett Clark, son of Speaker
Champ Clark, of the National House
of Representatives, was announced.
The Speaker's son is parliamentar-
ian of the House.

NORTH CAROLINA MILITIA MAY YET HAVE AEROPLANES

Two Young Men Have Of-
fered to Do the
Flying

MACHINES COSTLY

Best Plan to Purchase One
Would Be By Public
Subscription

(BY W. T. BOST)

Raleigh, June 14.—Adjutant Gen-
eral Laurence W. Young has offers
from Henry K. Crowell and Harry
K. Noland, of Asheville, to do flying
for the North Carolina National
Guard in its effort to put aeroplanes
into the military work. Mr. Crowell
writes of a plan to raise the money
for such machines and says: "It is
my idea that if the State cannot
afford to bear the expense of the same
(referring to the machines,) the mon-
ey might be raised by statewide public
subscriptions in the same manner
as the French and German aeroplanes
fleets were built."

General Young and all the guard
understand that the money must
be raised by popular subscription.
There is no appropriation for such
equipment now. North Carolina
is undertaking nothing new in this
plan, several states having tried it
with success. The state is merely
trying to keep pace. Both young
men offering to aid in the raising of
money by giving exhibitions or by
any other plan, have had training
with the Curtiss Company and un-
derstand the flying business.

Governor Craig today named Miss
Annie Fry, of Greensboro, sponsor
for the State of North Carolina at
the Guilford Battle Ground celebra-
tion July 3. The Government was
not able to send the troops to the
ground as it had done two years in
succession but soldiers will have
their part in the big day.

Governor Craig's office today made
requisition upon the Governor of
New York for James Hill, wanted in
New Hanover county for the com-
pletion of a term of sixteen months.
Hill escaped from the chain gang
and of course went to New York.

Want Farm Life School
E. M. Rollins and W. P. Harris,
of Henderson county, were here to-
day asking the department of edu-
cation for information and aid in
a proposed farm life school.

Recently two localities in the coun-
ty voted school bonds. Each wants
the farm life institution but there is
only one school. By agreement the
community which is voted the farm
life school will concede the graded
school to its rival bidder.

MARSDEN J. PERRY PRAISE STATE N. C.

New York Railroad Mag-
nate Gives Journal
Glowing Reports

Marsden J. Perry, of New York,
chairman of the Board of Directors
of the Norfolk Southern Railway
Company, was very optimistic in
his praise of the section of North
Carolina traversed by his road in an
interview given the Journal yesterday
afternoon.

Mr. Perry stated that all over this
territory he sees great improvement
along agricultural lines. Acres have
increased greatly and the farmers
are cultivating their land in more
scientific methods. He attributes
the growth of this section of the State
greatly to the excellent railroad ac-
commodations that his company has
been furnishing. He said that his
company had been giving the best
services that it was possible for them
to give and the response of the
people has been very gratifying.

While the growth and improve-
ments in this section of the State
has been wonderful since the Norfolk
Southern leased the Atlantic and
North Carolina road, Mr. Perry
looks for greater things during the
next score of years. He said that
the people have awakened to a real-
ization of what there is in the soil
of Eastern North Carolina and are
going after it in a more business like
manner. The Eastern Carolina farmer
is raising lots of stuff and their
product is of the best quality. Now
that the old time ideas of farming
and other business enterprises has
been replaced by modern ideas, Mr.
Perry looks for the next generation
to be one of great prosperity.

Mr. Perry was also profuse in his
praise of President Young, of this
company. He attributes the present
prosperity of the Norfolk Southern
to the efficiency of Mr. Young.

In the party accompanying Mr.
Perry were J. H. Young, president;
R. H. Swartwout, vice-president; J.
T. Avery, assistant secretary; E. D.
Kyle, traffic manager; F. L. Nichol-
son, chief engineer, of the Norfolk
Southern Railway Company, and
E. C. Granberry of the firm of Paris
Forbes and Company, bankers of
New York City. During a part of
the trip which extends over all parts
of the road, they were accompanied

by C. I. Mallard, president of the
John L. Roper Lumber Company,
Superintendent J. C. Lewis, of the
Central Division, accompanied them
over the line under his supervision.
The party spent Sunday at Beau-
fort and Monday City and arrived
in New Bern yesterday afternoon.
From here they went to Washing-
ton, N. C., and today they will go
over the lines of the Belhaven Drain-
age District, returning to Norfolk
the middle of the week.

MAJOR PORTION OF STOMACH GONE

New Bern Man Undergoes
Remarkable Operation
At Baltimore

Baltimore newspapers yesterday
carried an interesting story telling
of one of the most remarkable medi-
cal operations ever performed and
in which the patient was S. Coplon
of this city.

Mr. Coplon was afflicted with a
tumor of the stomach and three
weeks ago went to the Maryland
city where he entered the Maryland
University Hospital for treatment.
The physicians found that the op-
eration was necessary and this was
performed and all but about two
inches of Mr. Coplon's stomach was
removed.

With only two inches of his diges-
tive apparatus remaining in service,
Mr. Coplon will not be able to eat
very much and, if he follows out the
orders of the physicians he will, when
he prepares to dine, take one spoon-
ful of food every fifteen minutes.
If he takes as many as ten spoon-
fuls it will consume two and one
half hours of time and if he eats
three times each day he will spend
seven and a half hours in dining.

Mr. Coplon is one of six men in
the world who are thus afflicted. The
physicians are of the opinion that he
will be in good shape within a short
time and will live for many years.

HON. C. R. THOMAS TO MAKE A SPEECH NEAR GREENSBORO

To Attend the Unveiling of
Monument to General
Nathaniel Greene

OTHER NOTABLES

Many Prominent Men Will
Participate in the
Program

Hon. Charles R. Thomas of this
city has been extended an invita-
tion to attend the unveiling of the
monument to Nathaniel Greene at
Guilford Battle Ground, near Greens-
boro, on July 3 and will make an ad-
dress there on that occasion.

Mr. Thomas while in Congress was
instrumental in securing the appro-
priation for this monument and the
people of that section greatly ap-
preciated his efforts. In inviting
him the Guilford Battle Ground
Company passed the following res-
olutions:

Whereas, Since its organization in
1886 the Guilford Battle Ground
Company has been very desirous
that there should be erected on the
Guilford Battle Field by the United
States Government a monument in
commemoration of the life and ser-
vices of General Nathaniel Greene,
Commander of the American forces
at this great battle, and,

Whereas, The Guilford Battle Ground
Company and its friends in Greens-
boro, in North Carolina, and in the
United States Congress, have ex-
pended much time and labor in their
efforts to secure an appropriation
for said monument during the past
twenty four years and,

Whereas, Hon. Chas. R. Thomas,
Congressman from the Third Dis-
trict, North Carolina, has given
cordial support in the United States
House of Representatives to the ef-
forts to secure such an appropriation,
and made the speech in the House
introducing the bill which was fin-
ally passed, therefore,

Be it resolved, That the Directors
of the Guilford Battle Ground Com-
pany in special meeting assembled,
do now extend Hon. Chas. R. Thomas
their sincere thanks and apprecia-
tion for the very valuable service
he has given to the Guilford Battle
Ground Company, to North Carolina,
and to the soldiers of the American
Revolution, and,

Be it resolved, That the Directors
of the Guilford Battle Ground Com-
pany do now extend an invitation
to Hon. Chas. R. Thomas to be the
guest of the company on the occa-
sion of the unveiling of the monument
to Gen. Nathaniel Greene, on the
Guilford Battle Field.

Resolved, That a copy of these
resolutions be given to the press,
and that the President of the Guil-
ford Battle Ground Company be
directed to forward a copy to Hon.
Chas. R. Thomas, and that they be
recorded on the minutes of the
Guilford Battle Ground Company.

Plies Cured in 6 to 14 Days
This ointment will relieve every case of itching
and burning of the skin in 6 to 14 days.
The first application gives ease and relief. No
