

**HOME SWEET HOME
THE PLACE FOR HIM**

Memphis, Sept. 8.—Whether it was "I Hear You Calling Me" or "Dear Old Dad" that prompted C. D. Boyd, a youth of 19, whose home is in Senatobia, Miss., to quit the South Wales Borders and board a liner homeward bound will not be known until some time this week, when he changes cars in Memphis, for "all points in Mississippi."

A few weeks ago Boyd engaged in a sort of mild controversy with his father. A few minutes later he boarded a freight train for New Orleans. The next day he shipped along with a load of mules destined to Liverpool.

On his arrival in England he promptly attached himself to a company of South Wales Borders.

In the meantime the senior Boyd began efforts to find out the whereabouts of his wandering boy. A cablegram to Ambassador Page in London did the work. Boyd's release was obtained and he, with three other American boys who ran away from home, shipped on board the liner New York, which left England September 1, working their way over.

It cost the American Embassy \$75 and much correspondence. He was about to be sent to Flanders when the release was granted.

Boyd made no objections to getting his release.

**EASTERN STAR
OFFICERS ELECTED**

(By C. A. WHITEHEAD)

The evening session of the Supreme Council Order Eastern Star, convened in St. Peter's, A. M. E. Zion church at 8:30 o'clock, at which time a very excellent program was rendered, welcoming the Council to the grand old historic city of New Bern.

The welcome addresses in behalf of church, city, citizens, public schools, lawyers, doctors, societies, etc., made by the various speakers of the evening made the Supreme Council feel that it was truly welcome to the hospitality of the city of New Bern, and that the meeting would long be remembered in the hearts of her people.

The response to the welcome addresses so eloquently spoken, were accepted by the Council not merely as words of formality, but were really meant from the heart as in the words of the Supreme Royal Matron, Annie L. Dillard, Goldsboro, N. C., the hearty welcome of the people of New Bern was seen, in the smiling faces, felt in the hearty handshake, and also heard.

Those who furnished music for the occasion must truly be commended. The music was indeed a rare rare. As a whole the program was indeed an excellent one and worthy of mention.

The following officers were elected:

- S. P. R. Patron Archdeacon, W. Geo. Avant, New Bern, N. C.;
- S. P. R. Matron, Hon. Lady E. C. Pogues, Raleigh, N. C. S. P. R. Patron, A. J. Wilson, Asheville, N. C.;
- S. P. R. Matron, Hon. Lady M. E. Sills, Ahsokie, N. C. S. P. R. Sec., G. C. Hood, Fayetteville, N. C.;
- S. P. R. Treas., Hon. Lady Fannie Badhain, Edenton, N. C.;
- S. P. R. Conduetress, Hon. Lady L. B. Cartwright, Elizabeth City, N. C.

A Card Of Thanks

Sept. 8th, '15.

I wish to express my many thanks and my appreciation to so many good people of New Bern for standing by our good people of the country and farmers in their great effort in trying to prevent the passing of a law which would cause our country and town the greatest downfall it ever had.

I feel proud to know that we have so many good people in New Bern that wishes to live in loving union with the farmers. In any effort our good people of New Bern wishes to make for the interest of the town I will stand by them to carry their points, the influence I have in helping them to carry their points, and stand by them to the last. I am now a citizen of New Bern, although I would be happy if I were able to go back to my little farm. Let us all stand together as that is our strength.

Respectfully yours,
F. J. FRENCH.

HARRIMAN'S SON ASKS FOR MARRIAGE LICENSE

Lynch, Mass., Sept. 8.—William Averill Harriman, son of the late E. H. Harriman, made application to Town Clerk Broadrick today for a marriage license for himself and Miss Kitty Lanier Lawrence, granddaughter of Charles Lanier, the New York banker. Miss Lawrence came with young Harriman to the town clerk's office. He is 23 and she is 20. The exact date of the wedding has not been announced.

COL. GOETHALS WILLING TO BE 'CITY MANAGER'

Portland, Oreg., Sept. 8.—Major General George W. Goethals announced here that he would consider an offer to manage the municipality of Franklin if the city charter was changed from a commission to a municipal form.

"I shall be very glad to consider such an offer if made to me," the general replied to the question.

**Built like
—"The Deacon's One-Hoss Shay"**

THE best Pneumatic Tire is only as strong as its **weakest** part.

Strengthening its **strongest** parts is as useless as putting a fifth wheel on a wagon.

Yet this is often done to provide "selling-feature" and "Talking Point."

The weakest part of every Pneumatic Tire is its Walls or Sides, not its Tread—its Cotton Fabric or "Stocking," not its Rubber "Sole."

No price would be too high to pay for a material that, replacing Cotton in the Walls of Pneumatic Tires, would last as long as the Goodrich Rubber Tread could be made to wear.

Neither Silk, nor Linen, nor any other known fabric yet discovered is so good, for this purpose, as Cotton,—and choice long-fibered Cotton is the best material that money can buy for Tire Fabric.

WE use nothing less in Goodrich Tires, and test every foot of it up to 380 lbs. to the Square Inch, before we percolate it with the most adhesive Rubber Compound ever made for this purpose.

We then shape this rubberized fabric into Tires, with scrupulous care to have the tension on each square inch of fabric precisely the same,—that tension being controlled by a machine as sensitive as the eye, and infinitely more precise than the handwork of the most skilled Operative could make it.

To do this work we have the most highly-trained men in the Rubber Industry,—trained in the Precision that practice and our 45-year EXPERIENCE make perfect.

NO Tire Manufacturer, if he received a price of \$200 per Tire, could put better fabric into the Walls of his Tires, use greater care, more sensitively adjusted Tension devices, or more adhesive Rubber between each layer of fabric.

Because we know the vital importance of THE BEST in this part of the Tire, and use it there unsparingly.

Made as always, —the same reliable Construction, the same dependable Service—without anything whatever taken out of Quality, no matter what reductions in List-Price are ever made.

Only 5% Plus for this Best Non-Skid Tire

Note following comparative prices. "A," "B," "C" and "D" represent four widely-sold Non-Skid Tires:

Size	Goodrich Safety Tread	OTHER MAKES			
		"A"	"B"	"C"	"D"
30 x 3	\$9.45	\$10.55	\$10.95	\$16.35	\$16.10
30 x 3 1/2	12.20	13.35	14.20	21.70	23.60
32 x 3 1/2	14.00	15.40	16.30	22.85	25.30
34 x 4	20.35	22.30	23.80	31.15	33.55
36 x 4 1/2	28.70	32.15	33.60	41.85	41.40
37 x 5	33.90	39.90	41.80	49.85	52.05

GOODRICH FAIR-LISTED TIRES

But,—notwithstanding all this,—the FABRIC is the part of the Tire which goes first.

Because the sides of the Tire do most of the work in running,—bending and stretching a million times an hour, in scores of different directions.

This bending of the sides causes Friction between the layers of Canvas working against each other,—Friction causes Heat—the Heat over-cures and dries out the Rubber Adhesive between layers, which then separate from each other, in spots, the threads weakening or wearing out chafing against each other.

Then you have, in due time, the incipient blow-out, or other form of Tire-Death.

PUT more layers of Fabric than we do in the walls, to strengthen them, and the friction increases, with faster deterioration of the Rubber through the greater heat engendered.

Put fewer layers, and the walls would not be strong enough to carry the load of the Car.

So there you are—Mr. Tire User!

Why put MORE layers of Fabric in the Walls of the Tire than will properly carry the load, when each additional layer is an additional developer of that FRICTION-HEAT which is to Tires what Old Age is to Man?

THAT is the reason we build, in the Goodrich Tire, a carefully BALANCED Tire, emulating the famous example of "The Deacon's One-Hoss Shay" in which "the Sills were just as strong as the Thills and the Thills as strong as the floor."

The Maximum Fabric efficiency and THEN—the rest of the Tire built up to that Result.

—The most RESILIENT Tire that can be made with Fabric Walls,—at the fairest price per Mile of performance.

Why pay more for any Tire?

THE B. F. GOODRICH CO.
Akron, O.

GETS GOOD PRICES FOR HIS TOBACCO

Mr. E. R. French Among The Farmers Pleased With The Local Market.

Sales at the Dill Tobacco Warehouse were very good yesterday. Very high prices were received for several lots of high grade tobacco among the lots being that of Mr. E. R. French of Route 1 who sold part of his tobacco for as much as 36 cents a pound. His total sale for the day was 1156 pounds which netted him a total of \$181.81 or an average of \$15.75 a hundred.

Mr. French's sales were as follows: 122 pounds at 11 cents, total \$13.42; 144 pounds at 11 cents, total \$15.84; 182 pounds at 12 1-2 cents, total \$23.25; 154 pounds at 13 1-4 cents, total \$20.40; 216 pounds at 17 cents, total \$36.72; 224 pounds at 17 1-2 cents, total \$39.20; 58 pounds at 28 cents, total \$16.36; 66 pounds at 30 cents, total \$19.80; total pounds 1156. Total receipts \$181.81.

LUMINOUS STAR ATTRACTS MANY

New Stellar Visitors Viewed by Hundreds of New Bernians.

During the past few nights a very luminous star which, presumably is a new stellar visitor, has been seen in the sky and this has attracted much attention hereabouts.

The star is first seen early in the evening hanging low in the Eastern sky. Traveling rapidly it soon assumes a height of about a hundred feet above the sky line and then pursues its journey on until midnight when it has reached a point hanging low in the South.

Hundreds of local citizens have viewed the nightly travels of this Heavenly visitor and many have been of the opinion that it was the searchlight of an airship so bright were its rays. However, this is impossible as no airship could stay in one locality for any such length of time and at any such an altitude.

DISSATISFACTION AT BERNSTORFF'S NOTE

Is Expressed by Berlin Press in Discussing Message Conveyed to Washington.

BERLIN, SEPT. 7.—The Vossische Zeitung, discussing "the agreement with America" implicitly expresses dissatisfaction at the message conveyed by Ambassador Bernstorff to the Washington authorities, and declares:

"Complete unanimity reigns in Germany in the wish to maintain unaltered peace between Berlin and Washington, but Ambassador Bernstorff's explanation must not be taken either as an admission of any guilt in past procedures or an indication of fear and weakness. It must be specifically pointed out that submarine warfare against merchant vessels will be carried on now as formerly—and it is to be waged with unremitting vigor. Our admissions to America have restrictions. Our agreement counts only in case British passenger steamers do not try to harm our submarines. If Great Britain believes in the future lives of American citizens, she will have to bear the consequences, as before. Through our step we have proved to Americans—if it were necessary—in the most loyal way how highly we value the relations existing between them and us. It is surely known in leading circles in the United States that even a declaration of war by America against Germany could no longer do real harm to the German cause."

The Vossische-Zeitung discusses peace rumors at length and declares Great Britain sees its salvation in such a move. The editorial concludes with the declaration that peace is possible with every opponent of Germany, except Great Britain "which forced on us the difficult task of conducting a world war. We, however, wish first a decision, and then a peace which shall accord with this decision."

COTTON FROM HERE BEING USED TO MAKE HIGH EXPLOSIVES

George W. Taylor Shipping Fleecy Staple to City Point, Va.

DUPONT MILL USING LARGE QUANTITY COTTON

A day or two ago a Journal reporter dropped in on George W. Taylor, a well known local cotton broker, as he was sorting out several hundred pounds of "samplers" that had been picked out of bales on the local exchange last season. Being of an inquisitive turn-of-mind the reporter asked Mr. Taylor what disposition he was going to make of the staple over which he was working so ardently.

"That," he replied, "is going to be used in blowing someone to kingdom come" and such will probably be the case if the shipment ever reaches its destination. It developed that Mr. Taylor was planning to ship this cotton to the Dupont powder mill over at City Point, Va., and there it will be used in manufacturing gun cotton. Mr. Taylor stated that this concern is now using several hundred bales of cotton each week in the manufacture of this particular explosive.

COTTON IS ALMOST READY FOR PICKING

Fleecy Staple Growing Nicely in This Section—Smaller Acreage.

Reports from many of the rural sections of Craven and adjoining counties are to the effect that cotton is opening rapidly and the picking will probably begin in earnest about the latter part of next week.

While the present price of the staple is not all that could be desired, the majority of the cotton growers in this section are very optimistic over the prospects for higher prices for this product of their soil and many are of the opinion that it will not be necessary for them to store it.

This has been a fairly good season for the growing of cotton and, while the acreage was considerably cut this year, much cotton will be picked hereabouts.

EXPECT A GOOD OYSTER SEASON

Bivalves on Market Thus Far Have Come From Virginia Waters.

Although the oyster season has, officially, arrived the only variety of the luscious bivalves that has been seen on the local market up to the present time have been shipped in from Virginia and these are of a very poor quality.

Oystermen believe that the local supply this season will be better than was the case last year, both in quality and in quantity and that many of these begin to come in those epicureans who revel in a fry or a stew or a plate of "raws," will have in store for them some real treats.

News Securing Data.—Mr. W. E. Natross of Charlotte is spending several weeks in the city while securing and compiling data to be used in a booklet which the Chamber of Commerce is to issue in a short time. This booklet will be devoted to New Bern and Craven county. It will be gotten out in an effort to boost this section and will contain a wealth of information as to conditions which prevail here and in this county. It will also contain a large number of cuts showing the farming and industrial conditions as they are through this section.

CASTORIA FOR CHILDREN

"I have scaled Mount Everest," says Dr. Cook. As the said mountain is in the neighborhood of thirty thousand feet in height we naively suggest that, in this case, we are from Missouri.

Malaria or Chills & Fever

Prescription No. 688 is prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Colomel and does not gripe or sicken. 25¢

Judge W. M. Bond, of Edenton, who is presiding over Superior Court in session here this week, believes in running his court as he sees fit, and he's going to do that very thing. However, this does not mean that he is at all unreasonable and in fact he is very fair minded and takes pleasure in granting favors to those concerned with the court and for this reason his visits here will always be welcomed.

Judging from the fact that the police at Washington are using undue vigilance in hunting out unlawful shipments of whiskey, there must be a mighty "dry" crowd over in those two towns.

"Has Cash the Cash" inquires a headline over an article setting forth the announcement that a Winston man bearing that name wants to be State treasurer. Well, if he hasn't he had better get out of the race before he starts.

Daniel Brinson Dead.—Word has been received in the city of the death of Mr. Daniel Brinson of Reeboro which occurred Tuesday. Mr. Brinson was one of the oldest men in Pamlico county being in his 88th year at the time of his death. He was well known all over this immediate section and highly esteemed by all who knew him. He leaves a large number of relatives and a wide circle of friends.

The Quinine That Does Not Affect The Head.—LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor tingling in head. Remember the full name and look for the signature of E. W. GROVE 25¢
