#### SONG OF THE TIMES.

Ged imposes not a burden Heavier than man can bear; Mobly borne, it proves a guerdon Mortal man might hardly spare; Tear the burden from his heart, Man and all he loves would part,

Fear thou not, encounter boldly That which meets thee on thy way; He who went before hath told thee Thou shalt overcome one day. Nerve thy heart with strong assurance, Brace thy limbs to long endurance.

Soldiers, face the hottest battle Till the day is bravely won, Disregard the cannon's rattle And the carnage and the gun; Victory achieved today Helps tomorrow on its way.

Busy hands with toil unceasing. Throw the shuttle to and fro, While the damask web increasing Gleams among the threads below. Weary labor never ceaseth While the lengthy web increaseth.

Shrink thou not nor be faint hearted In untoward circumstance-Fires are quenched and waters parted For the saints deliverance;

Fear thou not what may befall thee, Boldly go where duty calls thee. -Selected

The Grouch. The fellow who persists in creating a "blue" atmosphere, in the church, in business and at home, with his pessimistic views, reminds us of the professor who was lecturing to his pupils on the rhiseros and who said, "I must beg you to give me your undivided attention. It

is absolutely impossible that you can

form a true idea of this hideous animal

unless you keep your eyes fixed on me.' School Week.

Whatever may be true of a departure enerally from the true standard of edueation in present day schools, we of Gastonia, with a sense of observation, can not fail to be impressed by the progress of the public school system in Gaston sounty. As we drive through our rural districts and suburban mill communities and note on every hand the handsome and commodious school buildings completed, or in course of construction, we something of the progress that m made, but this is not all. A large percentage of the men and women se communities were privileged to at the best, the simplest and most rudimentary knowledge of education, and warking knowledge of the three R'sthers being a little more fortunate in attending, for 'restricted periods, six weeks or at the most, three months temrs of school. When we remember this, then it is that the full significance of "school week" dawns upon us and we realize that Gaston county school children are reaping the educational benefits denied their parents. Notable instances of this can be seen at Ranlo, District No. 12 and South Gastonia. Not only handsome and splendidly equipped buildings but with educational systems that provide capable and competent teachers, all of the advanced methods of teaching, the full eight-grade grammar course in each school, and employment of teachers twelve months in the year. School week in Gastonia and Gaston county should cause us who boast of "city advantages" to "sit up" and compare the crowded condition of city hehools with improved conditions in the county.

## Encouraging.

With all the curtailing of production, downward trend of markets, reduction of wages and all the gloomy talk concerning declension, depression and dire prescatiment, our people are attending church in larger and increasing numbers and taking more active interest in things pertaining to the kingdom. Galloway, that every pastor in Gastonia make an appeal to his 1 0'clock. congregation tomorrow in an effort to add Gastonia's share to a substantial re-Hef fund. All persons interested are requested to make generous offerings through their respective churches.

## YORK AND YORKVILLE

The Enquirer.

"Old Man Gad" Dover, noted moonshiner convicted at the recent term of the court of general sessions of blockading and sentenced to serve six months on the chaingang, is to be a trusty and will not wear shackles, Supervisor Boyd said yesterday. The supervisor said that he was confident that Dover would not attempt to escape and that the chaingang needed a good trusty. There are now about thirty-two congiets on the chaingang, the supervisor said,

Mr. W. W. Blair, of Buulock's Creek No. 1, who was among the visitors in Yorville yesterday, told of the killing of a strange water fowl by a colored man on Broad river one day last week. The colored man thought that he was shooting a wild duck. The fowl was brought ! Mr. Blair who, consulted an illustrated bird book on on the subject with a view to ascertainining the stranger's identity. He came to the conclusion that it was an albatross. It was larger than an average wild duck and although the meat wes dark, it was good eating.

Those patrons of the Yorkville graded school who may not have ept up with developments for the past three months will, if they will take the trouble to investigate, find that there have been marked changes for the better as compared with conditions of the past several years. There has been much improvement in the observance of order and discipline, in the character of the teaching, in the attitude of the pupils to their work, and in other particulars, and along with it all an atmosphere of loyalty and co-operation that carries promise and hope of higher achievement.

There were numerous bridesmaids and groomsmen and other attendants and the whole ceremony was pulled off with as much solemnity as though it had been the real thing. A spelling bee participated in by a number of those present and including some good spellers was won by Mrs. S. J. Clinton, she being the last to remain on the floor. During the evening hot chocolate, coffee, tea and crackers were served by a number of young ladies. #### BERLIN GOVERNMENT HAS MISUSED FRENCH MONEY

PARIS, Dec. 10 .- Large sums of money turned over to Germany by France for the purpose of ameliorating the material situation of miners in the Ruhr region have been misappropriated by the Berlin government, it was found at a meeting of the committee of foreign affairs of the French parliament yester day, says the Matin.

Premier Leygues is said to have declared Germany was not fulfilling ber en gagements toward France, remarking that the French budget of 1921 provides for advances on the account of Germany amounting to sixteen billion francs.

The French premier has explained the situation to Premier Lloyd George, who has admitted the justice of his conclusions, it is said.

Premier Leygues informed the commission that another Franco-British conference would be held in two or three

Reports received late in November stated that most of the 200,000,000 francs in gold paid each month to Germany by France under the Spa coal agreement since last July had been diverted to the purposes of propaganda and for payments of British creditors of Ger-

### BEGINNING THE DAY

66 FAMAN begins the day in a good L humor," observed the professor, everything will prosper with him." You talk as though beginning the

day in a good humor was as easy as falling off a log," said the low-browed

man. "I suppose you have been reading one of those fool sunshine books, and you think a man can be in a good humor just by saying he is going to be. Buten man can't control his humors any more than he can control dreams.

"Some days I feel like the original Sunny Sam-

uel, and I just naturally go around shedding light into the dark places, and making everybody glad. At such times the world seems an unqualified success, and the fact that I was born into it does not cause me any remorse. If some prominent citizen backed me up against a fence and asked me what made me feel so gay, I couldn't give him any helpful information. I don't know, myself, what causes the chipper feeling. I suppose it must be because my works are in good condition. doing their digestive stunts at the old

"After a few days the glad feeling passes away, and instead of being a Sunny Samuel I become a Mournful Moses. I have all kinds of presentiments of evil. I have a firm conviction that the bottom is about to drop out of everything, and that I'll be mixed up with the wreckage. I take a pessimistic view of everything, and go grouching around until even the cows are sick of seeing me, and they give me a lift with their hind feet as a gentle hint that I should come out of my trance.

"If a leading business man asked me to explain my melancholy I couldn't do it. The world seems to be moving along as though nothing had happened, the same old sun is shining on the day shift, and the scented zephyrs are blowing through my whiskers as of

"Often a man begins the day wrong, through some accident or unpleasant experience. Then he knows why he has a grouch, but that doesn't help him to get rid of it. This morning I was lying in bed dreaming that I was the only original white hope, and that I was making a heroic effort to bring the laurels back to the Caucasian race. I was just administering an uppercut that seemed destined to bring home the bacon, when I fell out of bed and practically ruined my head against the floor.

"I came downstairs in a beastly humor, and after breakfast I went over and picked a quarrel with old Doolittle, so that he had to shin up a tree to escape violence, and all because I was feeling ornery. It wouldn't have been safe for any man to tell me that in order to begin the day right all a man has to do is to begin it right,

"I have gone out from the house to milk the cows in the morning, many a time, feeling as blithesome and glad as a dickeybird, and quite satisfied that the day was going to be one round of pleasure. Then a cow would | ? give me a poke in the ribs with one of her celluloid horns, or push her big splay foot into a brimming bucket of milk, and the joyous stuff was all off. and I'd be so sore all day that Aunt Julia would hand me my meals with a pitchfork.

The other morning I got up feeling so mean that I was ashamed to look in the mirror. I went downtown after breakfast, in the mood to rob a blind organ grinder of his few plugged nickels. Then I went to the post office and got a registered letter. A man who had owed me \$2 for five years had an ingrowing conscience at last, and sent the money to me. When I left the post office everybody commented on my winning smile and said I was the little sunbeam of the town."

Twins Strangely Linked.

Albert Grierson and Walter Grier son, St. Louis twins, were members of the same company, and each wore a small diamond ring and a watch and chain in France. Albert lost the stone of his ring and a few days later Walter lost the stone of his. Then Albert lost his watch and chain and soon afterward Walter's disappeared. Then Albert was wounded and Walter followed suit. And now they intend to marry twin sisters, Geraldine and Blendine Smalley of Sheldon, Ill.—In d'anapolis News.

"Can you support my daughter in the style she's been accustomed to? asked the father of the young mar "Well," replied the young man thoughtfully, "is she strong for a \$500 baby grand plane or a \$5 talking ma chine?"
