CHINESE START DRIVE FOR FAMINE FUNDS

PEKING, Jan. 23.—Correspondence of The Associated Press.—A nationwide drive for famine relief funds has been started by Dr. Yen Hui-ching (W. W. Yen), minister of foreign affairs. In an address at a luncheon given by Dr. Yen for the purpose of getting together the most influential Chinese in Peking, the minister told his guests that between 20,000,000 and 30,000,000 people faced starvation.

The famine calamity was becoming daily more serious, he said, and the time of greatest suffering was rapidly approaching. He referred to the many committees and societies already engaged in relief work, of President Wilson's fund in America and of various funds being raised in England and Japan, and expressed the opinion that these nations which had given generously should be shown that China too is working industriously to relieve the suffering populace.

It is proposed that the drive continue for a week soon after the Chinese New Year and while no financial goal was indicated, Dr. Yen believed that Peking alone could be made to produce from \$200,000 to \$500,000. It was agreed that the drive be directed by the united International Relief societies.

FARMERS SHOULD HAVE THEIR COTTON GRADED

RALEIGH, March 17.—Although the price of cotton has dropped from 30 cents to the low figure of 10 cents, the difference between grades remains exceedingly large compared with the price of middling cotton. For instance, on March 4, with middling cotton quoted at 14 cents in the majority of markets in North Carolina, the following differences were used: good middling 200 points on, or 12 cents a pound; low middling, 50 points off, or 6 1/2 cents a pound; good ordinary 600 points off, or 4 cents a pound. It is not necessary to quote all grades as comparison can be made from grades quoted. These figures are quoted for the purpose of calling the farmer's attention to the importance of having cotton graded, regardless of whether he expects to sell now or later.

The banker also in making loans on cotton would prefer knowing the grade and staple of it. It has always been to the farmer's interest to have his cotton graded, but it is more so now than ever before, due to the low basic price and to the very wide difference between grades. "Farmers cannot afford to take a chance of having their cotton graded a grade lower," says P. H. Hart, of the North Carolina Extension Service, "for on the present differences it means a loss of from \$7.50 to \$20 a bale."

The North Carolina Extension Service, with the Federal Bureau of Markets operating, offers its staff of cotton classers to the producers of North Carolina. Farmers desiring to have cotton graded should communicate with P. H. Hart, Specialist in Cotton Marketing, Raleigh, N. C., stating the number of bales to be graded. Supplies, together with information for this purpose, will be furnished. This service is entirely free.

STANLEY HAPPENINGS

Correspondence of The Daily Gazette.

STANLEY, N. C., March 17.—A marriage of great interest to many here and at Rowland, N. C., was performed by Rev. F. A. Drennan, pastor of the Presbyterian church, at the home of Mr. Wade Rutledge, the father of the bride, Wednesday at 6:30 p. m. The bride was Miss Mary Sue Rutledge and the groom was Mr. Charles Sinclair, of Rowland, N. C. A matter of interest to the family is that just 23 years ago Mr. and Mrs. Rutledge were married. Mr. Jack Ward, of Rowland, N. C., was best man. Mrs. J. E. Layton, of Charlotte, was dame of honor and Miss Willie Lee Rutledge, sister of the bride, was maid of honor.

While the wedding party entered the parlor, Miss Thelma Paysour, of Charlotte, played "I Love You Truly," and while the minister performed the ceremony "Lohengrin" was softly played. After congratulations, Misses Mary West and Pauline Leutz met the guests in the front hall where they served to each one an elegant punch.

The color scheme was pink and white and the flowers were peach bloom and lily-of-the-valley.

The bride wore a blue suit with accessories to match. The maid and dame wore a bunch of white and pink combinations.

In the dining room an elegant two-course supper was served the guests and after the function was Mrs. R. L. Leutz, Mrs. C. M. West, Mrs. A. J. West, Mrs. S. E. Seshorn and Mrs. E. S. Paysour.

THE SHINGLE ROOF.

Charlotte Observer. Same time ago a movement was made to clear Charlotte of the menace of the shingle roof — not immediately, of course, but by gradual process running through a period of years until there should be no roof of the kind in the city. But the authorities lacked the backbone, although admitting the necessity for ultimate action in that direction. If they had gone ahead with the proposed plan, they would now be leading the country in that form of fire risk reduction. The commissioners of Providence, R. I., will enforce an ordinance that is almost a copy of that which was proposed for Charlotte, varying only in the circumstance that there is a fixed timetable. That city gives itself 15 years in which to get rid of the shingle roof. The Inspector of Building there found the same condition existing that exists in Charlotte and all other towns in the Nation. The day is coming when shingle roofs will be no more known in the United States than they are in the arid towns of the desert.

HUDSON SUPER-SIX

Have You Noted Its New Price Advantage?

Regardless of your ability to buy any car you choose, consider if you can find the justification of finer quality, in a costlier car than Hudson. To appreciate its value you need not be a Hudson enthusiast in the sense of those thousands who hold it essentially the greatest of all cars. But you must recognize its long-held position among the leaders in performance, reliability and distinction.

And consider what an endorsement is represented in its more than five years leadership of fine car sales.

Now that its price advantage is even more intensified, will not its sixth year of sales leadership show even a greater margin of popular preference?
