 Sitting in his office at Belmont Abbey college last Tuesday night, the wireless operator at the college listened to the strains of a musical number, "Way Down Old Virginia," played on a phonograph in Avalon, on St. Catalina Island, off the coast of California. The words and music were heard as plainly as if in the same room.

RALEIGH HAS NO DICTATORIAL HABITS.

Raleigh Times.  
 The Charlotte Observer sets forth some more "facts" connected with the appointment of Alston D. Watts as Commissioner of Revenue.  
 It is represented in the Raleigh correspondence of The Greensboro News that the Capital City is "not pleased" with the Watts appointment. That is no new condition down that way. It is a fact known all over the State that Raleigh is never "pleased" with any gubernatorial act that is not dictated by Raleigh, and one of the most encouraging signs of the people at large is that Governor Morrison has launched his administration under policies that indicate he would rather please the State than please Raleigh, individually, collectively and officially. It would be a sorry sort of an administration if he were lining out affairs for the particular pleasure of Raleigh.  
 A fact known all over the State that Raleigh is never "pleased" with any gubernatorial act that is not dictated by Raleigh. We would suggest that the Observer look up the meaning of the word in the dictionary. "Down" this way the populace is accustomed to Governors, even Charlotte Governors; but does not recognize as facts the impressions of newspaper, folk home-grown or outsiders.  
 It may be that that part of the State which unfortunately for itself was not included in the recent extension of the city limits of Raleigh assumes that this community attempts to dictate to officialdom. But the general impression here is that such is not the case. Local business and professional men drop in on the State Government when sent for; otherwise this community accepts the coming of a new Governor or administrator calmly and philosophically. If the "facts" could be established, we'd let the Observer a new straw hat that already four to five times as many Charlotte as Raleigh people have called on Governor Morrison to ask him to do this and so. If the proportion isn't this, it will be before the Governor is through.  
 Raleigh is, as we have suggested, accustomed to the presence of greatness in its midst. If greatness be a good fellow, he can have a good time running around the town with the rest of folks. If he isn't, he will be left alone. But while every child from six years up will express its opinion of action contemplated or accomplished by a State official, that opinion is not offered as a State policy.  
 Everybody comes here and everybody talks—mostly of politics, mirabili dictu, when he would do vastly better to talk fishing or call on the beautiful gal-children. Of course, Raleigh knows nothing about the rest of the State—it is these out-of-the-way places such as Ducktown-on-the-Catawba that know what the whole people are thinking.

ROCKY MOUNT WOMAN'S CLUB WILL OPEN A CAFETERIA

Rocky Mount, April 7.—After having given the plan consideration for some time, the Woman's Club at its meeting yesterday afternoon definitely decided to open a cafeteria in the city, perfecting all the details for the project and even going so far as to name the manager, whose name has not been divulged, however, as she has not yet accepted the position.  
 The only details which is now keeping the club from putting its plans into effect is the securing of a suitable location in the business section for the cafeteria. Mesdames S. W. Staley and W. Gray Williams were named as a committee to adjust this difficulty and are now making a thorough investigation with a view to locating available quarters for the club undertaking. Just as soon as they are successful, it is understood that the cafeteria will be opened.

MINISTERS DIRECT ATTENTION TO CHINA FAMINE AREA.

Gastonia Ministers Association Urges That People of City Give Help to Urgent Appeals That Come From China and Near East.  
 The Ministers' Association of the city desire that the attention of all the people be called to the urgent appeals that continue to come from the famine sufferers of North China and the Near East. The situation in both of these regions is unchanged, and although the people of America have been liberal in their response, the actual needs have by no means yet been met.  
 The most recent information coming directly from eye-witnesses who can thoroughly be depended upon is to the effect that a great deal of assistance must be rendered or millions of people will perish. The appealing needs and conditions, they tell us, cannot be exaggerated. There is absolutely no uncertainty about this. The only hope is in the liberality of the people of this country. What is needed is money. Food can be secured and carried to the sufferers. A very small amount will save a life.  
 Mr. S. A. Robinson will be very glad to receive and forward any contributions from the city or county. Those desiring to help should designate whether their donation is to go to North China or the Near East Relief. When the funds are not thus designated they will be equally divided between the two places. This tremendous appeal should touch the heart of every man, woman and child in Gaston County.

 The farmers of this community are not going to plant as much cotton as they did last year, although the most of them have been planting enough corn, wheat, and other supplies on their farms for their own use. There doesn't seem to be much enthusiasm among the farmers. They are working, but don't seem to be very much interested in their work. Surely better times are ahead.
