

YORK AND YORKVILLE

The Register. Dr. J. R. Johnson, president of the York County Board of Health, was unable to attend the meeting of the World's Health Conference in London, England, on account of the absence of a delegate from the York County Association.

John Farris, of Yorkville, holds the record for catching a large fish. Farris was out fishing one day when he had a big catch. The big fish weighed 150 pounds.

Grady McPherson, of Yorkville, Dorsett will be a member of the Yorkville High School. The Yorkville Association in Rock Hill, S. C., will have a party at the Ruth Saylor home on the 15th.

When his automobile was struck on Saluda road near Rock Hill, S. C., by a truck, J. P. Wingo, of Yorkville, was killed and his leg broken. Mrs. Wingo, his wife, was also injured.

All the rats in Rock Hill were not killed during the recent rat extermination campaign held in the city. A great black rat, "what's his name," was killed on the stairs leading to the office of Magistrate J. F. Wingo.

John T. Rodley, well known Rock Hill citizen, has a farm he never saw. It is located in Kernshaw county. When a friend asked him the other day if he ever went fishing, Mr. Rodley said: "No I never fish because I haven't the patience to wait on 'em to bite."

When a friend asked him the other day if he ever went fishing, Mr. Rodley said: "No I never fish because I haven't the patience to wait on 'em to bite. I've got a farm over in Kernshaw county, however that I can't tell includes some of the best fishing waters in that section."

"I bought the place, a part of the old Currier tract several years ago, paying \$2 an acre for it. Never having seen it I asked John G. Richards of Liberty Hill what place is nearby, what kind of a farm it was."

RUSSIAN CHILDREN HAVE BEEN DEMORALIZED, SAYS WIFE OF BARON WRANGLER. (By The Associated Press.) CONSTANTINOPLE, March 25.—The Baroness Wrangler, wife of the general who commanded the anti-Bolshevik army in Southern Russia and its defeat and collapse, declares that the "demoralization of our boys and girls, the next generation of Russians, is one of the blackest tragedies of the Bolshevik regime. They have stolen the souls of our children."

Abundant evidence from trustworthy sources among the vast Russian refugee colony here is available to substantiate "Our girls are demoralized." It is a phrase in a letter about a month ago received here from Moscow, signed out by way of Boris Gorkin, a prominent her nephew in Moscow, and who had kept alive only by his own wits and again, never again, because of his children. If they survive, and if they do, the Bolsheviks will be the cause of them."

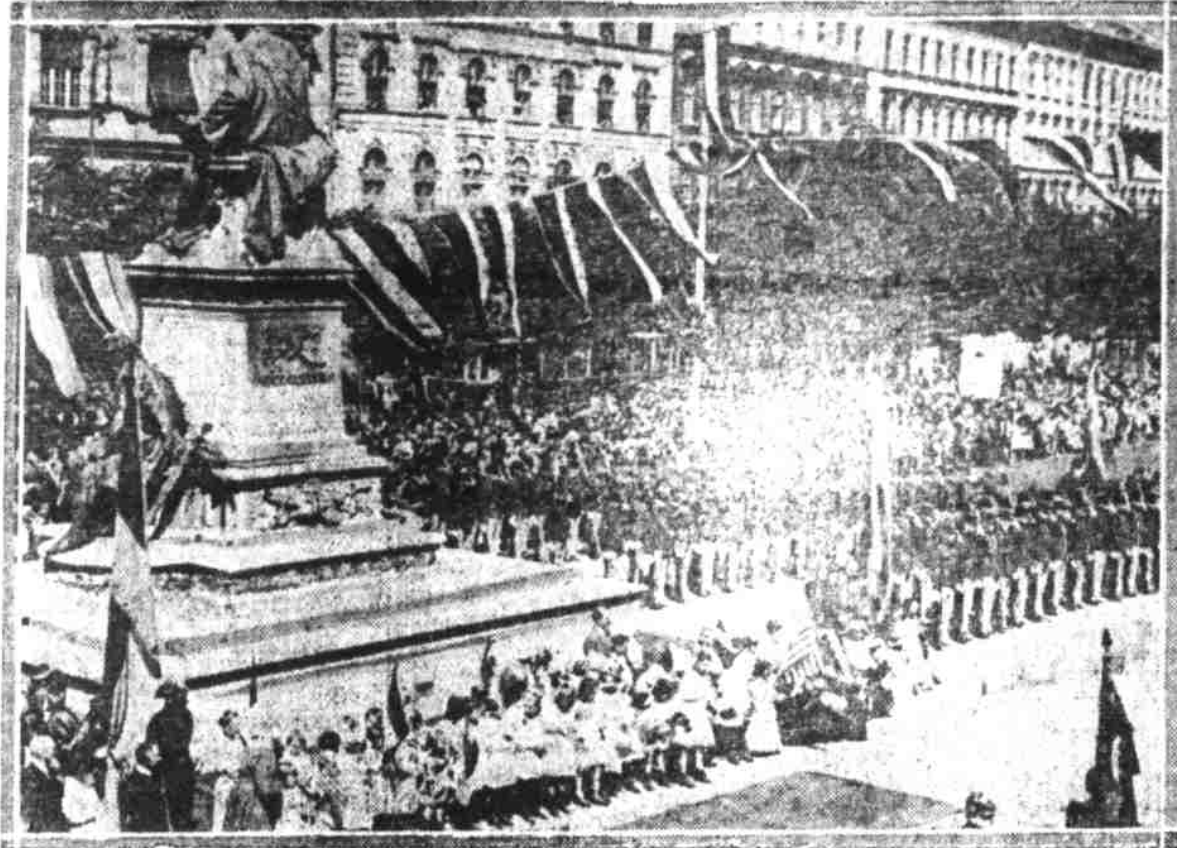

One of the demands of the red flag workmen in Moscow and elsewhere has been that the two-year-old children be given the same special privileges and treatment by a measure which is being considered in the United States. The measure is being considered in the United States. The measure is being considered in the United States.

TAMPA, Fla., Apr. 12.—The scrub palmetto, for years regarded as probably the most valuable product of the soil of the Gulf states, and a source of heavy exportation, has been cleared for planting, is being something after all. Extensive experiments with a view to stabilizing the fibre of the root for the manufacture of hanks, has been successful.

Of the 350 hank factories now operating in the United States, nearly all are utilizing imported fibre, the bulk of which is obtained from Mexico and Brazil. Several hank manufacturers who have investigated the palmetto fibre declare it to be equal if not superior to any imported.

A scene of great merry-making took place at the Hungarian Capital on March 4, when 20,000 people gathered at the National Museum to hear the speech of the Military Bishop for Hungary.

EUROPE IS PREPARING FOR FLOOD OF TOURISTS FROM RICH AMERICA

LONDON, Apr. 13. — First signs of spring in England have spurred the transportation companies and the tourist agencies into a fever of expectancy and all eyes are turned toward America which Europe regards as the haunt of the millionaire.

Visitors from the United States are promised much in the way of accommodations, with conditions approximating those in pre-war days. Hotels and pensions again will have plenty of rooms on comparatively short notice, and passport economies are shortened.

Incumbent passengers are still closely supervised by British port authorities, but the examination is much less exhaustive than last season. Then it was necessary for an American citizen to go to the trouble of getting a passport visa even when embarking for his native land.

Police restrictions in the British Isles also are relaxed, registration being required only if a visitor intends to remain more than 60 days, and railway facilities are greatly improved in schedules and travel accommodations.

At this date, no steps have been taken toward organized welcome for American tourists because it is believed they can be taken care of adequately by the regular institutions for this purpose. No detail will be overlooked, however, it is pointed out, to insure comfort for all who touch British shores this season.

Travelers to Ireland, it is said, will be taken care of as far as it is physically possible under the circumstances. Tourist agencies are quite frank in admitting that only the well-to-do are financially able to bear the expense of travel at present when a first class cabin ticket costs approximately \$250 one way.

They say the tourist traffic last year was practically without the large numbers of school teachers and professional people who came to Europe formerly to spend the summer weeks in travel and study. These folks, they say, can not pay the prices it is necessary to charge to make the tourist business pay, and there are no signs now that travel will be cheaper in the near future.

It is also believed possible that many persons will be deterred from visiting Europe this summer because of the unsettled condition of business and of international economic affairs. However, indications are, it is said, that more tourists will want to see Europe in 1921 than in any year since the war.

Virginia Republicans Already Active to Secure His Appointment to Fourth Circuit. (By The Associated Press.) WASHINGTON, April 13.—Virginia Republicans are already active in behalf of Judge Edmund Waddill, of Richmond, as the successor to the late Judge Jeter Pritchard of the fourth circuit. If North Carolina has a candidate in Judge W. P. Kinnon, or anyone else, her claims should be promptly filed, and it is thought the Pritchard vacancy will be filled promptly.

SHANGHAI, Apr. 12. — Salvatore Romano, representing the internal revenue department of the United States Government, left Shanghai for America in February after a tour of investigation in the Far East devoted to income tax matter. He is the first agent of the department who has visited the Far East officially.

COMICAL BULLFIGHTS MAY LAUGH OUT REAL ARTICLE (By The Associated Press.)

MEXICO CITY, March 28. — A question seriously considered here is whether bullfights are to be laughed out of Mexico through the introduction of the "toros bufos" comical bullfight.

Serious chroniclers of the Mexican amusement are concerned by the fact that a company of Spanish bullfighters has just finished a series of come fights here with record attendance and attracting almost as much interest as the serious combats in which the best matadors in the game have appeared.

They were further agitated when six girls announced themselves as "toros bufos" and, on a Sunday afternoon, succeeded in dispatching six bulls with their clown companions amidst the crowd with antics harkening every bull fighter known to the game.

"What is to become of the noble sport of bullfighting," inquired one writer, "if first of all, clowns are allowed to make it appear ridiculous, and then, as a result, the bullfighters are permitted to enter the arena and attempt a show of skill?"

American visitors to Mexico generally find more enjoyment in the comical fights than in the regular games. In the former no horses are used although the bull is eventually killed. The fighters, who display much skill and athletic ability, perform all sorts of grotesque stunts with the animal before he is dispatched.

HARDING ENDORSES NATIONAL HOSPITAL DAY. (By The Associated Press.) CHICAGO, Ill., Apr. 13.—In a letter to Matthew O. Foley, executive secretary of the National Hospital Day Committee, President Warren G. Harding has endorsed National Hospital Day, May 12, when the same hospitals throughout the country will make an organized effort to tell the public of the true scope of hospital service.

President Harding's letter follows: "The White House, Washington. My dear Mr. Foley, It is especially a pleasure of this time to express my interest in the work of National Hospital Day which seeks to arouse the largest possible public interest in the work of the country's hospitals and similar institutions. You have most properly chosen May 12th, the anniversary of the birth of Florence Nightingale, as the day to be celebrated by National Hospital Day. Just at this time those of us who are concerned in the administration of National affairs are having our attention forced to the very great need of expanded hospital facilities, by reason of the requirements of disabled soldiers. I can most heartily extend my good wishes for the most useful results from your efforts."

HOT BATH HAS BECOME LUXURY IN GERMANY (By The Associated Press.) BERLIN, Apr. 13.—The hot bath has become such a luxury in Germany owing to the shortage of coal and the manner in which the government regulates the distribution of fuel that many persons have ceased bathing. Others have bathed in cold water for an hour or so daily, but this is not popular for the houses are generally cold and exposure to cold rooms after a chilly tub proves the way for colds and pneumonia.

Ordinarily a family can afford hot water once every two weeks. Hotels where nationals of Entente nations reside supply running hot water. Public baths, where once a plunge or a tub was available for a few pfennigs, have been forced to close or raise prices beyond the reach of workmen and salaried workers. Only expensive bathing places remain open, for the patronage of the proferters. In Berlin six or eight bathing establishments have gone out of business.

This situation has produced hygienic conditions which have caused much discussion among health authorities and suggestions have been made that the several cities assume the task of providing proper public bathing facilities. However the cities also are handicapped by lack of funds, shortage of coal, and the government rationing regulations. Nearly all German houses in the cities are equipped with modern plumbing and numerous bathrooms and before the war the Germans were insistent on the daily hot bath.

PRaises NEWSPAPERS OF SOUTHERN STATES (Special to The Daily Gazette.)

NEW YORK CITY, April 14.—The newspapers of the southeast were given high praise as the media for carrying merchandising messages, in the talk made by Ernest K. Dallas, head of the Johnson-Dallas Company, general advertising agents of Atlanta, and president of the Southern Council of the American Association of Advertising Agencies, at the annual banquet of the New York Advertising Agents' association, held at the Commodore hotel last night.

Mr. Dallas responded to the toast: "The South in Advertising," and it was during his response that he said: "We of the south are voracious readers of the newspapers. The National Advertisers throughout the country appreciate the fact that in order to merchandise their goods they must use the daily newspapers. While we have very few large newspapers, yet every city in the south of 15,000 and over is the home of one or two daily newspapers, which carry the merchandising message into the homes of the majority of the consumers below the Mason and Dixon line."

"We of the south have the smallest percentage of foreign born of any section of the United States, which makes the English paper pre-eminent in that section. The trend of the times today is the use of the daily press throughout the country, because this is the quickest method of presenting the varying changes in prices and at the same time the most popular form of reading."

The Southern Newspaper Publishers' Association, representing over 90 per cent of the daily press in the south, is conducting a campaign in the leading papers throughout the country to impress this fact upon advertising agencies, advertising managers, and other executives.

"If you want to sell in the south, you must sell it south THROUGH NEWSPAPERS."
