In The Year 1930
Your school boy will have formed habits either of thrift or laxity in money matters. He will be a man, and his attitude toward saving will be largely what you have made it. Precept is not enough; it should be supported by example. Listen! A wealthy customer recently said of his savings account: "This is the best moral support I give myself and children. I got my start by saving, and am not going to quit, because I have made money." This strong old bank welcomes savings accounts, large or small. The First National Bank GASTONIA, N. C. "A JEWEL OF CHICAGO" Is Title Applied to Wrigley Building

Wrigley's new office building in Chicago is at the new Boulevard Bridge, Michigan avenue and the river and heads the vista looking north on Michigan avenue, so Mr. Wrigley chose a beautiful design which makes the building a decorative feature of the Chicago lake front and harmonizes with the Chicago Beautiful plan.

Wrigley Building

The main building is 16 stories high, surmounted by a tower 42 feet square and rising 398 feet from the street level. This tower will contain a clock with dials on four sides, each 20 feet in diameter and will be surmounted by a searchlight lantern 9 feet in diameter. The building is covered with enamel finish terra cotta on all four sides. It is regarded as one of the most beautiful buildings in Chicago and people and press are enthusiastic about it. The Chicago Tribune published a picture labeling it a "Jewel of the Link." Wrigley also recently completed new factories at Chicago and New York. All this new construction work in the space of a few years is certainly a tribute to the power of advertising and the accumulative effect of a multitude of 5-cent sales.

This is the Way to Make Every Buy a Bargain

BUY advertised goods. Only GOOD goods, fairly priced, can stand the spotlight of publicity.

A merchant or manufacturer would not dare to advertise merchandise that is poor in quality, poor in make or that will not give reasonable wear. The penalty of such tactics is too heavy. No goods - and no business concern - can thrive under the weight of public condemnation.

A merchant places the whole reputation of his business at stake everytime he advertises. Naturally enough he is careful of what he says and when his statement is placed in the newspapers - where everyone in town may read - so that any untruth in it will be known to all of his employees and most of his friends - then you may be sure he is doubly careful.

When you buy advertised goods you get a bargain because THEY MUST BE AS ADVERTISED.

So it pays you to read advertisements. Advertising protects you.

Read the advertisements in this paper and get the best of the bargain.
