BEWARE "BOOZE POWDER" P. O. DEPARTMENT WARNS

WASHINGTON, Aug. 11. - (By The Associated Press.) — Home brewers and anti-Volsteadeans, beware the "Booze Powder," is the warning sent broadcast by the Post Office Department, in a recent circular. For stemming a tide of "dehydrated" alcoholic beverages of reminiscent names is a steady job of the fraud section of the depart-

Using the reputation of German chemists certain German concerns have distributed hundreds of thousands of circulars in the United States, offering for "one dollar only, Rhine Wine, moselle, Sherry, port, bordeaux, burgundy, tokay, munich beer, pilsener, porter, ale, etc."
In a dried form, says the Post office. From the powder a gallon or two of the beverage indicated on the package can be made, the spurious circulars claim.

Despite the issuance of fraud warnings and fraud orders, many people, are still sending money to these German concerns only to have the money returned to them by the Post Office Department. If these powders contained alcohol their importation would be prohibited and since they do not have the latent possibilities advertised they violate the fail fraud statutes.

A significant requirement, the Department warnings, is that every advertising circular insists on payment being made in American Currency.
