WATER MAIN AT SPENCER SUPPLYING THE SHOPS WRECKED BY EXPLOSION

Situation Is Growing More Tense and Troops May Be Placed On Guard.

BOX CARS ARE BURNED

Promiscuous Shooting Near Picket Lines But None Are Identified.

SPENCER, N. C., Aug. 21 .- Quiet prevailed here early today after a Sunday marked by the blasting of the water main supplying the Souhtern Railway's shops, the burning of several box cars in the yards and an early morning outbreak of scattered and apparently harmless firing. No disorder was reported during the night. Workmen were busy throughout yesterday erpairing the 12-inch main broken by the explosion and finally succeeded in restoring he water supply.

Lack of water caused cosiderable de lay in moving trains. Sheriff J. H. Krider and other officials today had not found a clue that would assist in fix-ing responsibility for the blast. Colonel Don E. Scott, of Graham, in

charge of the nine national guard organizations encamped at the fair grounds three miles from the shops, considered the advisability of placing guards about the shop enclosure as a result of the occurrences Sunday, but has not yet ordered soldiers detailed for such duty. Local authorities have not yet made any request for guardsmen for patrolling the shops.

SPENCER, Aug. 20 .- Sunday was featured by establishing camp headquarters for nine companies of state militia three miles from the Spencer shops; by the blowing up of the large water main that supplies the shops and hundreds of locomotives that are used out of Spencer; by the burning of bad order box cars near the yard limits; by a small size skirmish reported on the outskirts of East Spencer; by the arrival of 25 recruits for the working force at the shops, and the passing of another group of workmen headed for Columbia shops.

Surpassing all other matters in general interest was the blowing up of a water main shutting off the entire sup-ply for engines. A colored fireman passing the scene of the explosion, which occurred about midnight, was se verely injured by flying debris and was given medical attention. The main, which was one foot in diameter carrying ordinary city pressure, was apparently blown up by dynamite at a point inside the shop yards, between a row of unused box cars and the fence surrounding the property, and at a point some seventy-five feet from a picket stand, several pickets, it is said, having been endangered by the explosion. which awakened most citizens in Spencer for ten blocks around. A section of the pipe was entirely blown out and a hole the size of a small house left in the ground.

A huge stream of water flooded that section of Spencer for several hours until the supply could be shut off.

There is no known clue as to who blew up the pipe, though Southern officials and Sheriff J. H. Krider have been making strenuous efforts to fasten

Strikers Disclaim Guilt.

While no charge has been made against anyone, strikers made the statement that the blowing up was done "from the inside," that none of their men had anything to do with it. Workmen set to work today to repair the damage and restore water service for trains, which were delayed several hours awiting engines.

The explosion has stirred Spencer as

nothing else since the strike occurred and many are asking what steps will be taken to prevent further trouble. has been charged that a quantity of dynamite caps were stolen from the Southern premises some nights ago near the spot where the explosion occurred. As a result of a rough night around the shops many are expecting a detail

from the soldier camp, now in command of Col. Don Scott, to be placed around the shops at night, though up to this time it had not been believed that troops would ever be required to protect the Southern's property.

Asked whether troops would be called from the camp three miles out of town for duty around the shops tonight, Master Mechanic McBride stated that he could not say early tonight, that the grievance justified such action, but the matter would be determined by subsequent events.

The burning of an old box ear the outskirts of the yards at a time when the water supply was shut off by reason of the explosion caused a small

General Superintendent R. E. Simp son was on hand and took an engine to the fire to save what he could. The origin of the fire could not be deter-

Excited By Firing.

Promiseuous firing near the picket lines on the East Spencer side shortly before daylight startled numbers of citizens as far away as Salisbury and caused nurses at the hospital to take steps to care for injured, which were expected but which failed to arrive.

The last patient at the Slaisbury hospital shot by pickets some nights ago was discharged Saturday night. A squad of 25 men coming to Spencer to take work this afternoon insisted on getting off the train at Yadkin, two miles from town, and making their own way to the shops, while another south-

bound train carried a bunch of work-(Continued on page three.)

Crew Was Starving
To Save Life Of a
Mother and Her Baby

SAN FRANCISCO, Aug. 21.—A tale of the sea, a becalmed ship, a starving crew and a mother with a new born babe, to preserve whose life every one else sacrificed rations, thrilled the water front here today upon the arrival of the motor ship Annie Johnson with news of the San Francisco acherer William H Smith

cisco schoner William H. Smith. The schooner was becalmed in the Pacific for 43 days and was discovered on August 14 when Captain Mur-ray of the Johnson, responded to her signals of distress and provided her

with supplies.

A pitiable condition was found a-board the schooner. The crew of seven men had been eleven days without food except the Copra with which the schooner had loaded.

They were physically unable to hoist the emergency supply of rations over the ship's side.

In the cabin Mrs. Nels P. Jenson wife of the master, was attempting to nurse her baby whose cries rapidly were growing weaker. The mother although favored by Captain and crew in the matter of available food, could not supply sufficient nourishment for

The crew of the becalmed vesse it was said, was beginning to show signs of insanity when the motor ship came to the rescue.

For 116 days no word had been heard from the unfortunate vessel and she had been given up for lost. With favorable winds it is expected she will be in port before the end of the week.

FOOTBALL PLAYERS TO ROTARY PARK WEDNESDAY

Slight Change In Plans For Gridiron Try - Out - High School Boys Who Want To Try For Team May Register Until 1 P. M. Tomorrow With Supt.. Grier.

A slight change has been made in the plans for training the local high school football team, this being neces sary on account of some delay in getting all the equipment in shape at Rotary Park, where the training is to

The boys, in charge of Supt. W. P. building at 4 o'clock Wednesday afternoon and hike to the Rotary camp, six miles west of the city. They will probably remain there for a week. The original plan was that the party would leave for camp tomorrow. The boys who want to try for the team may register with Supt. Grier up to 1 o'clock Tuesday, afternoon.

In tomorrow's Gazette there will appear a detailed list as to what each boy will be expected to ake to camp.

Big Raid In Chicago Unearths Evidences Of Union Propaganda **Among Many Railroad Workers**

William Z. Foster, Said To Be Most Radical Leader In United States, Headed The League-Believed Responsible For Many Disorders In Train Centers-He Was Deported From Colorado.

xamination of papers and corresponlence seized in a raid last night on the offices of the Trades Union Educational League which is headed by William Z. Foster, who led the last steel strike and who recently was deported from Colorado as one of the foremost radical leaders of America, bared a widespread "one big union" propaganda among workers and gave valuable information concerning a systematic series of radical meetings in railroad centers, according to State's Attorney Crowe.

No arrests were made but a long list of names of radical leaders was unearthed, according to Mr. Crowe.

The State's Attorney's investigation began immediately after receipt there of the report of the Michigan Central wreck at Gary, Ind., in which two men were killed and two injured, and the discovery of two sticks of dynamite on the Pennslyvania railroad tracks.

Foster was said to be in Joliet, Ills. there it was reported he spent several days after he was ordered out of Colorado by State authorities.

Railroad officials said that the Michigan Central express train had been deiberately ditched by plotters. Spikes weeks ago.
