AMERICAN LEGION'S FIRST DUTY IS TO DISABLED SERVICE MEN, M'NIDER SAYS IN ANNUAL REPORT TO MEMBERS

New Orleans is Gay Under The Festive Tread Of Legionnaires

Thousands Of Former Service Men From Every State In The Union Gather For Big Meeting—California Wants 1923 Convention—Old Memories Are Revived.

NEW ORLEANS, Oct. 16.—(By The Associated Press.)—The American Legion opened its fourth national convention here today. Meeting in a converted warehouse on the Mississippi river front, decorated with flags of the allied nations and red, white and blue bunting, the Legion heard the reports of its national commander and adjutant.

The Legion has in no way diminished in enthusiasm, judging from the cheers and activity which last night pervaded New Orleans.

Clad in uniforms, civilian clothes and the costumes adopted by state delegations, the veterans of the world war made merry, held impromptu street dances and generally enjoyed themselves.

Practically every state in the union was represented when the national convention met this morning, as well as a number of territorial possessions, and representatives of posts of the Legion in foreign countries.

California, outstanding contestant for the 1923 national convention, arrived here clad in broad brimmed black hats, red shirts and knee boots, the costume of the "48ers."

"See the west," was the slogan of the Pacific coast delegates, and they were making themselves seen and heard, distributing yellow poppies to delegates and to their women folk.

A dozen medics, reminiscent of the war, floated through the hotel lobbies of New Orleans last night. From "The Star Spangled Banner" to "Hail, Hail, The Girls We Love,"

They were youth incarnate, ready to enjoy a holiday and ready at the same time to work for what they conceive their right and proper dues from the country for which they went to war in 1917.

It's A Strange Story Here From South Bend

WIFE OF CALIFORNIA PROFESSOR SAYS POOR WORKING GIRL HAS MORE MONEY FOR SPENDING THAN AVERAGE COLLEGE MAN'S WIFE.

BERKLEY, CALIF., Oct. 16.—The "Poor Working Girl" has it "all over" a college professor in the matter of allowances made by employers for subsistence, according to Mrs. Dorothy Hart Bruce, wife of H. L. Bruce, of the faculty of the University of California.

In a letter published in the University Chronicle, a faculty publication, Mrs. Bruce takes issue with the budget for household expenses for faculty members recently announced by the board of regents.

Mrs. Bruce said that the professor's wife must "choose between childlessness or the anguish and humiliation of many years of debt drudgery," if she expects to live on the salary of her instructor husband. She said eight other wives of faculty members agreed with her.

Mrs. Bruce said a budget issued recently by a San Francisco teacher of home economics stated a working girl needed \$290 a year for clothes to appear well dressed.

"That allowance," she declared, "would look big to a professor's wife whose allowance for clothes is fixed at the pitiful figure of \$50."

In the opinion of Mrs. Bruce at least \$350 a month is needed to provide the bare necessities for a faculty member's family if he has a wife and three children.

NEW YORK, Oct. 16.—"Tears to me, now I've seen the first game of my life, that football is pretty rough stuff," said Mrs. D. N. Richardson, 88 years old, great grandmother, who brought 25 relatives from Davenport, Iowa, to see her Iowa boys win their big game against Yale Saturday.

Mrs. Richardson and her party plan a round of theatres and dinners during their brief stay in New York.

"I'm curious to see your town again," she said, explaining that her last visit was in 1892.

"Styles and feminism?" she repeated. "Well you can take a good look at me and guess how much I care for these new fangled ideas. I'm a few months or so past the stage now where I'd take up a lot of fancy stunts."

JOCKEY SHARPS HAD WEIGHED OUT CORRECTLY, but Dauphin's girl snappet, and was replaced. The substitute girl was found to weigh 129 grams less than the original. Dauphin, which was quoted at odds of 11 to 1 in the mutuels, led from start to finish; winning in a canter.

WORKING GIRL HAS IT OVER PROFESSOR'S WIFE

Every eligible man and woman must be made to realize that if their best effort is not in the legion they are just as much sneakers as those who hid when the country's life was at stake. To avoid that duty is to betray our rights to citizenship.

"Never before in the history of America has such a great force in our national life appeared—never has such power and prestige been granted. I quote to you the words of one of the greatest soldiers of modern times, 'The American Legion is the cradle of the whole future of America.'"

"In relating here some of the endeavors and acts of the national organization, there is no thought of personal pride in accomplishment."

"What has been accomplished, you have accomplished."

"This year started auspiciously. The receptions for our distinguished guests at Kansas City and all over the United States constituted a tremendous undertaking splendidly performed. The Foch tour as a public service not only to our country but to our allies gripped and held the public mind."

"Starting a year of membership during one of the greatest industrial depressions America has ever experienced, the American Legion has grown in membership. Its past active and functioning in 49 departments in this country and 23 others scattered over the globe number eleven thousand two hundred odd."

"I am well aware that the very definite stand which has been taken in carrying out your commands has not aided in recruiting or holding those who place financial goals as their goal, or who are not willing, as good Americans, to forget their personal prejudices to help serve the whole. These men have lost the best thing that service ever gave—the conception of their duty to serve those who served with them—to stick with the lad who had not had their advantage, who labors under an unfair handicap. He was the finest man under adversity and hardship that God ever created—just the average young American soldier man. He gave all he had and always will—the man on whom this country must always depend—the fellow who carried the pack."

"While in the early years of legion activities men joined, some only out of curiosity or because others joined, because in the great wave of enthusiasm it was the thing to do—the membership now, in this fourth year, is the solid, substantial actual fighting gang, who intend to stay with it, to carry on through all the coming years; that this legion of ours shall be the greatest outstanding symbol of service to all America."

"Thousands of posts have built themselves so well and so deep into their communities that their examples alone guarantee to the United States an asset for good."

"Forty per cent of the legion's membership is in towns of under 2,500—the highest type of American citizenship."

"Our efforts in a national way will be covered in the report of the National Americanism commission, national education week, our activities in the boy scout movement, and the national essay contest."

"The reports of the chairmen of the various national committees, will cover their respective achievements. They have been far reaching—concrete evidence of real accomplishments, in cooperation with the government."
