

BUDGET OF LIVE NEWS ITEMS FROM BELMONT

(By Mrs. Adelaide S. Beard.) Bank of Belmont Buys Valuable Property In Heart of Business District.

What was probably the largest real estate deal that has taken place in the business district of Belmont was transacted Saturday, when Mr. R. L. Stover, president, and Mr. W. R. Puett, cashier of the Bank of Belmont, purchased the W. C. Culp home place.

The supposition is that the property will be used by the Bank of Belmont for the erection of a modern banking establishment. The Bank of Belmont has grown so rapidly that it has completely outgrown its present quarters.

The bank had been on the outlook for some time for a suitable site on which to erect a very elegant and modern banking home. Further interesting announcements as to this will probably be given out shortly.

Belmont Colored Woman's Community Club Stages Most Creditable Fair.

The Belmont Colored Woman's Community Club was sponsor to a most creditable community fair which they held at the new colored school building Saturday. The exhibits were very good in every department, and were arranged with taste and forethought.

County Supervisor of Colored Public Schools Mildred Wellman, of Gastonia, was present and was of much help to the local colored women in making the fair a success.

This is the first time that the colored school building has been opened to the public. It is a splendid brick building and the colored people are showing their desire to make the most out of it as they are to use the proceeds of the fair to help equip it with some things that are now needed.

Personal. The Belmont Boy Scouts went on a camping trip Friday evening, hiking to South Point, about seven miles, where they made camp for the night.

Mr. T. C. Moore, of Stanley, spent Friday here with Mr. and Mrs. C. L. Hager, the latter his daughter. "Don't" to Mr. and Mrs. Arthur Hanes, of the National Mill, a daughter, on Thursday, October 19.

WALLACE AND VILLA TO MEET OCT. 30TH

PHILADELPHIA, Oct. 21. — An eight round match on October 30, between Patsy Wallace, local flyweight, and Pancho Villa, flyweight champion, last made arranged by Jack Hanlon, matchmaker for the Olympia Athletic Association, it was learned here today.

In Greece. "Rain," predicted the weather man. "Alas, the reign is over," sighed Constantine.

BACKACHE IS DISCOURAGING But Not So Bad If You Know How to Reach the Cause.

Nothing more discouraging than a constant backache. Lame when you awaken, pains pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Gastonia people recommend Doan's Kidney Pills. Ask your neighbor!

Mrs. M. C. Rankin, 311 S. Oakland St., Gastonia: "I don't know how I would have made out without Doan's Kidney Pills. I was in a bad condition with kidney trouble and suffering continually with my back. The least move sent sharp pains through me. I had awful dizzy spells and my kidneys acted irregularly. Doan's Kidney Pills were highly recommended and I used them. Every ache and pain left and my kidneys were regulated so I felt like a different person."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Rankin had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

CHERRYVILLE CHAT.

(Correspondence of The Daily Gazette.)

CHERRYVILLE, Oct. 20. — Announcement cards reading as follows have been issued: Mr. and Mrs. E. F. Dellinger announce the marriage of their daughter Cora Edna

to Mr. Gettys Dixon Hoyle on Saturday, October the fourteenth nineteen hundred and twenty-two at Fallston, North Carolina After October twenty-first at Home Charlotte, North Carolina

Mrs. Hoyle is well known in Cherryville and the surrounding country, having taught in the high school here for several years. She is a young woman of charming personality and her many friends wish her and Mr. Hoyle many happy years together.

The club met at the home of Prof. and Mrs. Claud Moser last Tuesday evening. As the guests arrived punch was served.

The evening was spent in the study of the James Whitcomb Riley's greatest poems. Prof. Moser gave a short but interesting sketch of Mr. Riley and the following poems were read and discussed: "Doe Sifers," by J. B. Thomas, Jr.; "Faith," by Clara Adie Self; "Best of All," by Edna Robinson; "When De Folks Is Goue," by Angelita Harrelson; "Watermelon Time," by Sarah Stivers; "Bia, A Fishin'," by Luchus Hill; "The Preacher's Boy," by Claud Moser; "In Swimming Time," by Mildred Bailey; "Jack-in-the-Box," by Nell Booker.

The members of the club are enthusiastic over the work they've undertaken and with the able leadership of Prof. Moser the club will undoubtedly be a success.

The Twentieth Century Mothers' Club met with Mrs. J. E. Holt Thursday afternoon, with Mrs. Julia Hall presiding. The business session proved unusually interesting. Plans for the floral fair were discussed at length. Although the dry weather had damaged the flowers, there will be enough for a very creditable showing and there will be various other attractions, such as candy, cakes, sandwiches, oysters and coffee. The fair will be held on Saturday afternoon and evening, October 28.

After the business session, the program for the afternoon was taken up, the subject being "Mother." Mrs. M. A. Stroup read a most helpful paper on "A Modern Good Mother," which was one of the best the club has ever listened to. Mesdames H. H. Allen and J. E. Holt gave a splendid piano duet. Mrs. D. P. Dellinger gave a reading, "Somebody's Mother," and Miss Annie Howell sang the pretty lullaby song "Honeycomb Babe." Miss Howell, who was a guest of the club, has a sweet, clear voice and her singing was greatly enjoyed by those present.

GIRL DEEP SEA DIVER SEEKS SPANISH TREASURE

LONDON, Oct. 2. — The profession of deep sea diving, which anyone would classify as a calling particularly fitted for men, has been successfully invaded by a woman, Margaret Naylor, an English girl, is acclaimed as one of the most efficient and daring wearers of the helmet in British waters.

She has gained a wide reputation during the last two years, and more recently for her efforts in the recovery of treasure from the sunken Spanish galleon lying in ten fathoms of water near the shore of Mull, an island off Scotland. There, in the coral harbor of Tobermory, lies one of the great treasure ships of the Spanish Armada. The boat was one of the many vessels launched by the ambitious Phillip, in 1588, for his attempted conquest of England.

So certain was this monarch that he would add the British Isles to his already large domains (that he actually sent on his jeweled regalia in advance. It is believed today that the richly bejeweled crown is lying somewhere in the sixty feet of water among the wreckage of the Admiral de Florencia, which Miss Naylor has succeeded in negotiating.

Although the task presents many problems which would cause anxiety to divers of the stronger sex, Miss Naylor shows no fear. She has had one or two narrow escapes from death in the course of her experience, without being in any way deterred from tackling the risky business again.

Miss Naylor recently made a trip to the southern coast of England and obtained some excellent specimens of undersea plant life. She nearly lost her life when her feet became entangled in a ladder which she was using, and only her presence of mind enabled her to free herself and be hauled safely to the top.

WOFFORD ALUMNI ELECT FULL TIME SECRETARY.

(Special to The Gazette.) SPARTANBURG, S. C., Oct. 21. — Clarence D. Gause, of Spartanburg, an alumnus of Wofford College of the class of '14, has been elected full-time alumni secretary and has already begun his important work of organizing more alumni clubs over this state and the neighboring states. Friday he organized a chapter at Gastonia, N. C., where loyal support to the Alma Mater was much in evidence. He leaves this week for Charlotte, N. C., and Rock Hill, S. C., to organize similar clubs there. He plans to make a trip to the lower part of the state next week for the same purpose.

Besides creating such organizations by means of which the Wofford alumni will be brought together in a compact unit for the purpose of helping all forms of campus activity, he will keep alive those clubs that have already been inaugurated. Not only will athletics be greatly improved by the efforts of Mr. Gause with the cooperation of the many alumni clubs, but every sphere of college life will undoubtedly be raised to a higher level.

Colds Stop Quick. Breaks up a cold in six hours; nothing gives quicker relief in coughs and colds than Hyromel. Goes right to the spot and kills the germs. Money back if it fails. J. H. Kennedy Drug Co.

CRAMERTON

(Correspondence of The Daily Gazette.)

CRAMERTON, Oct. 21. — The young men's Bible class of the Presbyterian church, of which Mr. L. E. Parker is teacher, entertained most delightfully in honor of the public school teachers on last Friday night. The special feature of the evening was the series of riddle games entered into by all the guests, in which no one was hurt. Refreshments consisted of all the available fruits of the season and so far as we have been able to learn still no one was hurt.

Mrs. A. S. Anderson and children, William and Harper, spent the day at Lowell Wednesday, October 18, visiting Mrs. James Reid.

The Junior Order of American Mechanics delightfully entertained the members of the graded school faculty and other residents of Bennett Hall with a banquet at the Cramerton Inn last Saturday evening at eight thirty o'clock. After a sumptuous six course dinner the guests were treated by Mr. S. H. Pennington, to which Miss Russ, the community nurse, very graciously responded in behalf of the residents of Bennett Hall. Rev. M. C. McKinney and Messrs. Kincaid made very amusing talks. Mr. John G. Carpenter, of Gastonia, made a very impressive speech on "The Role of the Junior Order of American Mechanics and the School," after which the guests retired to the parlor where a number of musical selections were enjoyed.

The following guests were invited: Mrs. J. L. Caraway, Misses Mary Ruth Lillie, Annie O'Neil McKeown, Lucile Irvin, Clara Wideman, Mary R. House, Rachel Cain, Elsie Russ, Annie Mae Robinson, Perry Hoffstetter, Estelle McDonald and Rev. A. S. Anderson and Mr. A. K. Pierce.

HOW KELLY FOUND THE PROCESS OF PNEUMATIC STEEL MAKING.

DETROIT, Oct. 19. — The late William Kelly, scientist, hailed as the discoverer of pneumatic process of steel making, has been accorded the honors denied him while he lived.

The honor is in the form of a bronze tablet placed in the door of the public library at Wyandotte, a suburb, said to be the birthplace of the American steel industry. Steel men from all parts of the country witnessed the dedicatory ceremonies. The inscription on the tablet asserts the late Mr. Kelly was the discoverer of the process of steel making that has made the building progress of the world possible.

Following the unveiling, William C. Kelly of Charleston, W. Va., a son, told a story that up to that time had been a family secret.

He declared that years ago his father established a steel mill in Kentucky and began manufacture of steel by the old charcoal method. One day the slaves forgot to replenish the charcoal beneath one of the furnaces. Mr. Kelly investigated and saw that cold air was reaching the smelting iron and making it, not colder, as he expected to find, but hotter.

"My father developed the air process of steel making from that discovery," the speaker said. "The son of the discoverer related that two English workmen later obtained from his father the story of the process and that later when the elder Kelly attempted to patent his process discovered that the late Sir Henry Bessemer of England already had obtained the American rights, asserting he had discovered that system independently. The speaker charged that later developments proved Sir Henry had been one of the men who posed as English steel workers, obtaining the story of the process from his father.

"My father established his priority rights but a struggle followed and he did not meet with financial success," the son said. "The elder Mr. Kelly established the first large pneumatic steel making plant in the country in Wyandotte. Despite the fact that the Detroit suburb was the birthplace of the industry Pittsburgh later was selected as the steel city of the country.

BUSINESS IN THE SOUTH AGAIN ON THE UPGRADE

WASHINGTON, October 19. — Business in the South is again on the upgrade," says Fairfax Harrison, president of the Southern Railway Company, in his annual report which has just been made public.

"The output of the mills and factories has been steadily increasing during the past few months," the report continues. "An outstanding feature has been the operation of the cotton mills, a happy contrast with the strike-ridden cotton manufacturing centers of the East."

"In July, 1922, according to figures compiled by the United States Census Bureau, 96.97 per cent. of the spindles in mills in the cotton producing states were active, while in other states the percentage of active spindles was only 78.53. During that month the average active spindle hours in the South was 250 compared with 145 in other states. In the twelve months ended July 31, 1922, the mills in the cotton producing states consumed 2,723,147 bales, which compares with a consumption of 2,178,767 bales by mills in the other states.

"The more favorable conditions for cotton manufacturing industry in the South are reflected not only in operating statistics but also in the record of new mill construction. During the same twelve months, according to the Census Bureau reports, there was a net increase of 245,831 spindles in Southern mills and a net increase of only 79,527 spindles in mills in states outside of the South. A survey of new mills under construction or in prospect indicates a continuation of the trend shown by these figures.

"There has been unusual activity in the provision of new business and residential structures, as well as in the construction of improved highways."

CHRISTIAN BUSINESS MEN HOLDING CONFERENCE

KANSAS CITY, MO., Oct. 21. — The conference of Christian business men opened a two-day session today. All business men interested in "applying to their business affairs the principles taught by Jesus Christ" were invited to attend the conference sessions. Albert Wood, president of the Men's unity club, Detroit, presided at the opening session. David Walter Pyle, New York, is on the program as the presiding officer for this evening's sessions. Addresses are scheduled for this evening by Charles H. Watts, Philadelphia and Ralph E. Boileau, Lincoln, Neb.

TO TAKE CENSUS OF ALL DISABLED

OCTOBER 30 THROUGH NOVEMBER 4 TO BE CRIPPLE CENSUS WEEK IN THIS STATE.

GOVERNOR APPEALS IN BEHALF OF CRIPPLES

Department of Vocational Rehabilitation and Bureau of Child Welfare Wish to Get Names of All Physically Handicapped Persons in N. C. in Order That They May Be Rehabilitated; or, if Children, Receive Treatment.

Raleigh.—Every citizen should have his chance.

This is the basis upon which the Department of Vocational Rehabilitation of the State Department of Public Instruction and the Bureau of Child Welfare of the State Board of Public Welfare are proceeding in instituting Cripple Census Week which will be observed all over North Carolina from October 30 through November 4. The purpose of this state-wide census will be to obtain the names of all disabled persons, children and adults, in North Carolina who may be aided by training or treatment.

Governor Makes Appeal.

Governor Morrison has issued the following appeal to the people of North Carolina to aid these departments in taking this census:

"It is the inalienable right of every one of God's creatures to have the opportunity to live his or her life as usefully and as happily as possible; and since every person has that right, we, as citizens of a great and benevolent Commonwealth, owe it to those who are physically incapacitated to do all within our power to either eliminate or alleviate their disabilities. In the fulfillment of this obligation, we will not only be of real service to the maimed and crippled but will serve our State.

"In order that as many of such people as possible within the borders of our State may receive assistance that will aid them in rehabilitating themselves, I earnestly request the people of North Carolina to set aside the period of October 30th to November 4th, inclusive, as Cripple Census Week, and urge that during that time, especially, all our citizens who may know of crippled persons notify officials of the Department of Vocational Rehabilitation of the State Department of Public Instruction and Bureau of Child Welfare of the State Department of Public Welfare, who have these matters in charge.

"By thus taking a census of those of our people who are physically disabled or incapacitated because of some bodily impairment and whenever possible, securing treatment or vocational training for them, we will surely help to improve the usefulness and welfare of a portion of our population which merits aid from those of us who are more fortunate.

"Through a census, the Department of Vocational Rehabilitation may enlarge its work in helping the handicapped man or woman help himself or herself, and the Bureau of Child Welfare may widen its service by ascertaining the number of crippled children who need treatment and by aiding them to receive it.

"Your individual co-operation is earnestly sought. I feel that this appeal will meet with sympathetic approval. In seeking out the crippled of your community and giving their names to the superintendents of public welfare, superintendents of schools, health officers, nurses, farm and home demonstration agents, Red Cross and Y secretaries, you will help toward the rehabilitation of this unfortunate portion of our population and will increase the general welfare of North Carolina."

Those Eligible for Aid.

Those eligible for aid from the Vocational Rehabilitation Department are: All physically handicapped residents of North Carolina of any race and of either sex who are capable of being rendered fit to engage in an occupation, and have lived in the state one year or more. The assistance offered to these is vocational training for a suitable occupation, aid in securing necessary artificial appliances and help in finding suitable work. Those who are not eligible are aged or helpless persons requiring permanent custodial care, epileptic or feeble-minded, and others not susceptible of rehabilitation.

All applicants under sixteen years of age will be referred to the Bureau of Child Welfare. Those eligible for treatment, supervised by this Bureau, are all children, white or colored, under sixteen years of age who are lame, have defects in arm or leg, or deformity or disease of arm, leg or spine.

Social Agents Take Census. The census of the disabled in each county will be taken by the social agents there, i. e., superintendents of public welfare, superintendents of schools, health officers and nurses, farm and home demonstration agents, Red Cross and Y secretaries, the Rotary and Kiwanis Clubs of the State have already signified their interest and willingness to support the program. All citizens are requested to refer to some one of these agents the name, address and nature of disability of any physically handicapped person who it is thought will profit by training and, if a child, by treatment. At the end of the Census Week, the agents will forward these names to H. L. Stanton, Supervisor of Vocational Rehabilitation, who will refer all names under 16 to Miss Elveth Tuttle, Bureau of Child Welfare. The cooperation of all citizens is advised that accurate information in regard to the problems of North Carolina's disabled may be gained.

Send The Gazette to that boy or girl off at college. It will be a daily letter from home. You couldn't spend a dollar or two in any other way and secure for them so much pleasure and profit.

MILK DELIVERY BY TRUCK GROWING POPULAR.

WASHINGTON, Oct. 20.—Milk distribution by auto truck is becoming more general and a nation-wide movement in favor of such transportation is now in progress, according to the National Automobile Chamber of Commerce. Reports received from that body show that Cincinnati receives 97 per cent of its daily milk supply on trucks; Atlanta, 90; Kansas City, 40; Los Angeles, 90; and Milwaukee, 85. At one of the principal creameries in Detroit more than 9,000,000 gallons of milk were received by truck last year.

The reports show that truck distribution through suburban areas within a radius of from 20 to 50 miles is more satisfactory and economical than any other means of transportation. With the possible exception of New York, Chicago and Philadelphia, it was said, the opinion was expressed that producing areas are not located so distant from distributing points that trucks cannot be used.

In Milwaukee, the report said, it was shown that sixty-five percent of the 50,000 gallons shipped into the city daily arrives in trucks, at an annual saving of \$17,812. In addition to this, milk dealers were quoted as saying they could handle milk five cents a can cheaper when the milk is brought to them from the farms, than by any other method.

In the retail delivery phase, it was added, the case was cited of a large milk company that motorized its delivery service replacing 54 horse-drawn vehicles with 44 motor trucks and effected a saving of \$24,000.

Oh, Wise Judge.

"Judge, if you had a wife in the back seat giving orders and a traffic cop in front of the car giving orders what would you do?" asked the motorist who had been arrested for holding up the traffic. "Land in jail the way you did. I'm married, too. Case dismissed," grinned the Judge.

Now smoked by a million men who love a superior cigarette
