LATEST METHODS OF BOLL WEEVIL CONTROL EVOLVED BY DR. SMITH

Clear Fields Of Pest In June And Give Crop Time To Make Before Aug. 15.

REMOVE EARLY SQUARES.

Declares New Method Will Assure 90 Per Cent Crop Cotton.

GAINESVILLE, Fla., Nov. 13.—(By the Associated Press.)—Bulletins were being sent out today by the state plant board of Florida detailing at length the "improved" method of controlling the boll weevil...

The substance of Dr. Smith's plan is to clear the fields of weevil infestation early in June and then give the staple free growth until August when the final maturation of the weevil sets in.

Dr. Smith recognized in the beginning of his experiments that the boll weevil could be effectively poisoned before it reached the "squares" or flower bracts of the plant.

His plan evolved meets this obstacle by removing the early squares, and then thoroughly disinfecting the boll itself with poison.

In this state, the bulletin continues, by removing the squares early in June and cleaning the boll, the plant then has almost as long a period in which to set fruit as it enjoyed in a normal season prior to the coming of the weevil.

"At first thought," the bulletin continues, "it may appear that a considerable amount of cotton would be destroyed or lost by removal of the first few squares, say, an average of about two large squares to the plant throughout the field."

AGRICULTURE DEPARTMENT INTERESTED IN DISCOVERY

WASHINGTON, Nov. 13.—Officials of the department of agriculture, which has been actively fighting the boll weevil for more than 20 years, are greatly interested in the announcement of the method evolved by Dr. George D. Smith, assistant entomologist of the Florida state plant board, for controlling the boll weevil, which has caused a loss averaging, it is estimated, \$300,000,000 annually during the last four years.

Dr. Smith formerly was in the employ of the federal bureau of entomology and spent some time in the study of the boll weevil while in the federal service. Effective work, department officials declare, is being done especially at the federal experiment station in Louisiana. The use of calcium arsenate in dry dust form in controlling the boll weevil, the department adds, has been gradually developed during the last seven years, and has proved fairly successful.

SOMERSET GRAND JURY TO HEAR EVIDENCE MONDAY

NEW BRUNSWICK, N. J., Nov. 14.—The Somerset county grand jury is to be convened Monday to hear witnesses in the Hall-Mills murder case. Arrangements to call the inquirers were perfected at a conference yesterday between Deputy Attorney General Wilbur A. Mott and Prosecutor Beckman of Somerset county. It was first decided to summon the jurors Thursday but Prosecutor Beckman suggested the postponement until Monday because a new sheriff took office today and he desired to acquaint the new official with the case.

British Electorate To Pick Parliament At Polls Tomorrow

Last Words In Great Britain's Election To Be Spoken Tonight.

RESULT IS UNCERTAIN.

Nobody In England Has Any Idea How The Election Will Go.

LONDON, Nov. 14.—(By the Associated Press.)—The last words in Great Britain's election campaign will be spoken tonight. The electorate will go to the polls tomorrow and pick a parliament from the 1,386 candidates seeking seats in the house of commons.

In 375 constituencies the fight will be a duel between candidates of two parties. In 232 other constituencies the battle is complicated by the presence of three or more contestants.

The wisest political seers are uncertain as to what the general result will be. Some newspapers publish estimates of how they believe the various parties will rank when the voters have had their say but none of the forecasters express great confidence in their own claims.

During the campaign, events have led to a revision of some of the more sanguine estimates. This was notably the case in Glasgow and western Scotland, where the united front presented by the unionists and Lloyd George liberals originally induced considerable complacency.

Although some doubts have been expressed regarding Bonar Law's safety in his campaign for election from the central Glasgow district, the correspondent says nobody seriously believes the premier will be rejected.

At first thought, the bulletin continues, "it may appear that a considerable amount of cotton would be destroyed or lost by removal of the first few squares, say, an average of about two large squares to the plant throughout the field."

WASHINGTON, Nov. 14.—One hundred and twenty nine new members will sit in the next House and the Senate membership will include 18 serving their first terms, according to an unofficial list of members of the 68th Congress compiled by William Tyler Page, clerk of the House, and corrected to November 11.

WATER WORKS HEADS OF STATE GATHER HERE FOR ANNUAL CONVENTION

Superintendents Are Here From Over State For Meeting.

BANQUET TONIGHT.

Mayor Cherry To Welcome Delegates; Machinery And Supply Men On Hand.

Gastonia is host today, Wednesday and Thursday to the North Carolina Section of the American Water Works Association. City Manager W. J. Alexander and Mr. Coit E. Rhyme, superintendent of the local water works system, have made all preparations to take care of the convention, which opens with a banquet at the Baptist Annex at 7 o'clock this evening.

Mayor R. Gregg Cherry will welcome the delegates to Gastonia at the banquet this evening and Mr. J. L. Ludlow, of Winston-Salem, president of the association, will respond. Mr. Ludlow will also deliver his annual address. The only business to be transacted at this evening's session will be the selection of a place for the next annual meeting.

Wednesday morning the delegates will first inspect the exhibits of the various manufacturers and this will be followed by a business session, at which officers for the ensuing year will be elected. Water rates will be the subject of an address by J. O. Craig, of Salisbury, and the subject will be thrown open for discussion.

Other subjects for the Wednesday morning session will be: "Design and Use of Centrifugal Pumps," by T. C. Hayward; "Experience With Wood Pipe in Greensboro," by N. M. Boyles; "Charges for Private Fire Protection," by W. E. Vest, of Charlotte; with a discussion led by W. J. Alexander, of Gastonia; "The Gastonia Water Purification Plant," by C. E. Rhyme, followed by a discussion with F. W. Simonds as leader and an inspection of the plant.

Sessions will be held Wednesday afternoon and night and Thursday morning and afternoon. At all of these sessions the subjects for discussion will be largely of a technical nature. However, anyone who desires to hear these discussions is invited to be present at any of the meetings.

Those registered up to noon were: C. R. McGehee, of Knoxville; R. L. M. Taylor, of Pittsburgh; J. Wistar, of Philadelphia; C. L. Korner, of Charlotte; G. A. Wright, of Birmingham; Fred Puckhaber, of Knoxville; H. F. Davis, of Knoxville; Ralph L. Silver, of Birmingham; McKean Maffitt, of Wilmington; W. A. McAdams, of Farmville; A. G. Alfano, of Morehead City; J. T. Woodson, of Lynchburg; L. P. Madden, of Pittsburgh; E. P. Gusey, of Charlotte; W. J. Whipple, Jr., of Pittsburgh; John J. McKagus, of Philadelphia; and G. F. Catlett, of the State Board of Health, Raleigh.

TOTAL DEATH LIST WILL RUN FROM 1,500 TO 2,000; BANDITRY BREAKS OUT IN THE DEVASTATED REGIONS

Property Losses In Chile Will Run To Millions Of Dollars

SANTIAGO, CHILE, Nov. 14.—(By The Associated Press.)—Property losses amounting to millions of dollars which resulted from the earthquake and tidal waves of Saturday morning, will be a severe economic blow to the country, it is feared. The town of Valparaiso seems to have suffered the most. Only three houses remain standing there and 700 of the inhabitants are dead. The list of dead throughout the country will probably reach somewhere between 1,500 and 2,000. The dead counted at Copiapo so far number sixty and the injured 110. There are no lights in the town and the inhabitants are camping out. Even the telegraph is operating in the open air.

The telegraph offices at Santiago present a pitiful scene. Crowds gather about all day seeking information about the fate of friends and relatives in the devastated regions. Such messages of inquiry are transmitted free by the national lines. Considerable uneasiness has been caused by prediction of an Argentine meteorologist that the earthquake would be repeated between December 3 and December 7. The 600 bodies already recovered from the ruins of the city of Valparaiso were carried to the public square and after they had been identified, were buried.

DR. THACKER ARRIVES IN GASTONIA WEDNESDAY

Dr. J. Ernest Thacker, of Norfolk, Va., General Assembly evangelist, and his singer, Mr. Thomas B. Roddy, will arrive in Gastonia tomorrow for the opening service of a fortnight evangelistic campaign at the First Presbyterian church Wednesday night at 7:30 p. m. The congregations of all churches in city and county are cordially invited to attend and participate in any and all services, one beginning at 10:30 a. m. and evening at 7:30 p. m. The choir members and all who will sing are especially invited to lend their presence and voices in the large chorus choir under the direction of Mr. Roddy and Miss Mary Baussey.

MRS. FELTON MAY NOT GET SALARY AS SENATOR

WASHINGTON, Nov. 14.—If Mrs. W. H. Felton, appointed senator from Georgia to succeed the late Senator Watson, takes a seat in the senate next week and serves until Senator-elect George, elected November 7, qualifies, she will not be paid any salary unless special provision is made by the senate, according to senate officials. Reports from Georgia are that Mrs. Felton, the first woman senator, might serve a few days until Senator-elect George qualifies.

Mrs. Felton, senate officials stated today, ceased to be entitled to pay as a senator on election day, November 7, and Senator-elect George is entitled to salary from that date. These officials said that under the 17th amendment, providing for direct election of senators, and under Supreme Court decisions, Mrs. Felton could not be paid for her salary after November 7 from its contingent fund.

Cited as a precedent was the case of former Senator Christy Bennett, of South Carolina, appointed to succeed Senator Senator Tillman, who sought but was unable to secure pay for time after another senator was elected but before the new senator qualified. The senate at that time ruled that pay could not be given three senators from one state.

LARGEST CONSUMPTION OF COTTON SINCE JUNE, 1920

WASHINGTON, Nov. 14.—The largest monthly consumption of cotton since June, 1920, occurred during October, a total of 533,950 bales of lint having been used by manufacturers. The census Bureau announced today that this was an increase of 38,600 bales over September consumption and about the same increase over October last year.

Consumption in cotton-growing states was almost 50,000 bales more than in October a year ago and the number of active spindles in that region showed an increase of almost half a million, while spindles in all other states numbered almost 800,000 fewer than in October last year.

SAN FRANCISCO ASKS FOR MODIFICATION DRY LAW

SAN FRANCISCO, Nov. 14.—The board of supervisors of San Francisco has directed its judiciary committee to prepare a memorial to send congress asking for modification of the Volstead act. The memorial will be drawn in compliance with the result of the recent election in which San Francisco voted to ask for the restoration of wine and beer.

CHILEAN GOVERNMENT WILL SEND TROOPS TO AID IN RELIEF WORK

SANTIAGO, Nov. 14.—(By The Associated Press.)—Reports of banditry and disorder in the earthquake district, together with news of additional earth shocks and indications that the calamity has reached appalling proportions caused the Chilean government to consider the advisability of sending troops to Copiapo and Atacama to reinforce the regular garrisons which are too small to cope with the situation and aid in relief work.

SANTIAGO, Chile, Nov. 14.—(By The Associated Press.)—Chile was again visited by earth shocks late last night, severe tremors were felt at La Serena, capital of the province of Coquimbo, at 11 o'clock, and half an hour earlier the province of Maule, was shaken, according to National Telegraph advices. President Alessandri will leave tomorrow for Valparaiso, where he will embark on the battleship Almirante Latorre for a visit to the ports stricken by the earth shocks. He will be accompanied by the ministers of war and public works and other officials.

THIRD TRUST BUILDING TO BE EIGHT STORIES

Directors Decide To Add Another Story To Bank Building—Most Of Office Room Has Been Rented.

At a meeting of the board of directors of the Third Trust Company held today, it was decided to add another story to the bank building now in course of construction at the corner of Main and South streets. The original plans called for a seven-story structure, but the demand for office room was so great that the directors felt justified in adding an extra story. It was stated by an official of the company today that 90 per cent of the office space had already been rented. Work on the building is going along at a rapid rate.

SAYS MRS. FELTON HAS LOST TITLE TO SEAT

NEW YORK, Nov. 14.—Miss W. H. Felton, Georgia's woman senator, lost her title on the date of the election of her successor, and she will not be entitled to sit with the United States Senate when it convenes next Monday, was the opinion expressed here today by Governor Harwick, of Georgia, by whom she was appointed.

"I don't want to hurt Mrs. Felton's feelings," said the Governor, "and I hesitate to offer her any advice until she asks me for it. But I will say that according to the law of the nation and of the State of Georgia, she has lost the shadow of a title to a seat in the Senate."

Whether her successor, Walter F. George, is declared officially elected, whether he qualifies and is sworn before the Senate convenes Monday is beside the question.

Mrs. Felton ceased to hold the title on the day of the election, according to the law and there is no way getting around it."
