—Rev. A. T. Lindsey will fill the pulpit of the First A. R. P. church Sabbath morning at 11 o'clock. The usual Sabbath school services will be held at 9:45. There will be no evening services.

RAISED \$14,000 IN GREENVILLE FOR ARMY

A local citizen speaking of the Salvation Army work yesterday referred to the fact that this organization was established in Greenville, S. C., in 1898, and in the year 1920 Thomas F. Parker, a cotton mill operator, as chairman, W. E. Beattie, another mill operator, T. O. Lawton, president of the Southeastern Life Insurance Company, and W. Smith and John T. Whitesides—in 1920 raised \$14,000 in Greenville for this work.

It was his opinion that this was good proof of the efficiency of the work the Army carries on, and predicted that Gastonia people would also respond to the call now being made for the local work, when more careful attention was given the good that the local workers are doing for the good of the community at large.

NORTH CAROLINA RANKS FIFTH IN FARM VALUES

Crop Values In This State Are Of High Rank — North Carolina Is Tryout State Of The Union.

RALEIGH, Dec. 1.—North Carolina has made such great progress in agricultural development this year that it is "assured of fifth rank, or better, in crop values," and its "contribution in taxes to the national treasury is remarkably high," Frank A. Parker, agricultural statistician of the state and federal departments of agriculture, declared today in predicting greater progress will be made here in 1923.

"This state has been called the 'try-out state' of the Union. It meant that anything that would succeed here would do so anywhere," he said. "This being the testing area, others must make up for the Tar Heel state realizes its backwardness, and not asking help of any one, is striking out for itself."

"Who would have dreamed of this unpretentious state with its backward farming and business methods, attaining the enviable rank it now holds in value of crops, manufactures and revenue among the states of the nation?"

"Even though tobacco and cotton are largely responsible, there is something back of it all which should not be overlooked. This state has the largest percentage of native American and Anglo-Saxon blood of all. She has had the least conflict between capital and labor, or perhaps in railroad strikes and manufacturing curtailment. Whatever the main reason, the situation today indicates that North Carolina, in a economic sense, is fairly sound as compared with other states. Trade early became active here. Failures have been much fewer than for the preceding two years."

"Even though agricultural products declined some faster and further than others and even though they have been slower to start in the recovery cycle, yet the farmers still are on the job. There has been no strike. Their dollar of wages had to compete with the urban two or three dollar scale. This meant the farm families, including women and children, had to produce the food which some industrial strikers lived on while getting back to normal, as the unorganized but far more loyal farmers had to do and did the right way."

"The few farmers who have kept their heads above the expense flood, are slowly recovering from the shock, but many will never get well. The surprising part of it all is that the urban business men have rarely yet realized that the farmers' welfare is always a barometer to their prosperity."

"If they would only invest more generally in practical means of bettering the farming interests, they would better their own bread, thus helping both sides."

"The start is made; the movement is on. Let us all join in to hasten the exchange of more products and money," he stated.

FIRE BUSINESS DISTRICT AND ROB THE POSTOFFICE

FORT WORTH, Tex., Dec. 1.—First setting fire to the business district, bandits robbed the postoffice at Brownfield, Terry county, of currency, silver and stamps, yesterday noon, according to information received here today. While the fire spread, the bandits battered their way into the postoffice, smashed the cash drawer and then fled as citizens assembled to fight the flames. Later a posse overtook the bandits and captured two of them. Much of the money was recovered. This is the second time recently in which the business district of the town has set on fire by bandits. The fire loss will be small.

ALVIN OWSLEY SOUNDS KEYNOTE OF THE LEGION

Defines Attitude Of Legion Toward Care Of Disabled, Immigration, Child Labor, National Defense—Sent By Radio.

WASHINGTON, D. C., Nov. 30.—Alvin Owsley, national commander of the American Legion, delivering his keynote speech tonight through the government radio was heard west to the Rocky Mountains and other wireless broadcasting stations, picking up his message outlining legion policies, sent it throughout the nation.

The national commander defined the legion's attitude toward such problems as the care of the disabled, immigration, child labor, the national defense policy, international peace, profiteering, adjustment of compensation and the preservation of the constitution and the functioning of the supreme court.

"We of the legion share together the memories of heroic trials, and struggle that left a mark upon our hearts," Mr. Owsley said. "For four years we have guarded and forwarded the interests of the broken veterans of the great war, and we shall maintain this vigilance for 40 years if need be."

"The legion asks for no charity for the disabled. The legion calls for justice. We call upon the nation to be mindful of its duty to its own. Out of the millions that we send continually overseas for the saving of tribes that we know little of, if this flood of gold for one day only were diverted to the aid of the men disabled in America's defense, it would provide a Thanksgiving and a Christmas for every one of them that would lighten a gray existence with a gleam of joy."

"Let us be thankful that there is no need of that, even for one day. The men and women of the Legion and the women of its auxiliary can care for America's disabled on every Thanksgiving, and care for them on every day. America's charity must continue overseas. Let us be charitable, if need be, when the agents of the Soviets of Russia come before American audiences to plead for our charities and to denounce our country alike in utter confidence."

Speaking of illiteracy and our schools, Mr. Owsley said: "Already the legion has effected legislation for compulsory school attendance, we shall continue until child labor has been supplanted by child growth, development and study throughout the land. We shall carry on until illiteracy is wiped out and reason, based upon understanding, prevails. Ability to read and write is not the sole qualification for good citizenship. We are devoted to their training and development."

Then, telling of how the legion is preparing future citizens for America, he said: "Now let us fancy these boys and girls saying: 'What have you done to prepare America for us?'"

In answering that, the national commander declared: "One-third of our population is foreign born or of foreign parentage. Hundreds of thousands entering America bring with them no ideals nor understanding of the spirit of America. I am afraid they come for gain and offer in exchange ingratitude. The legion favors and will take action for the exclusion of immigration for a fixed period of years."

Regarding our military defense, Mr. Owsley pointed to the Defense Act of 1920 as the line below which it would be unsafe to cut our military forces. "The minimum established by that act for the personnel of the army has been lowered since," he said, "and the legion asks that it be restored."

Speaking of the great war "won by the service men at an economic sacrifice" while there were "other Americans who avoided active service and remained in the ranks of peace, and yet our great economic power due directly to the war," he declared "it is the will of the people that this injustice be righted by an adjustment of wartime compensation, and they have expressed their will in no uncertain terms on very opportunity afforded them."

Declaring that there "is no shadow of a doubt" of the coming of this national adjustment of compensation, Mr. Owsley tells of the benefits it will bring. Its insurance for the safeguarding of families, loans for the building of homes and the setting up of farms.

The commander concluded his address by calling attention to the allied veterans of the world war, of which the American Legion is the United States member society. "The organized veterans of eight great nations are working with all their powers for a better understanding between nations such as will clear the path for permanent and lasting peace."

DREAM OF TAR HEEL COMES TRUE AT CHARLOTTESVILLE

(Continued from page 1.)

in the Virginia line and was especially active on defense. Blount was, too, for that matter. Dietrick at end played brilliantly. Walp ran better than any other Virginia line with Arnold a close second. There was less variety in the Tar Heels. The Fetzers had bewildering double passes, with shifts for the backs and for the line; a beautiful offense to watch.

The game was played against a marvelous background. The day itself was perfect, the crowd was enormous and on the whole well behaved. There were the drunks, of course, and if Secretary Denby had been here he would have had a fit. But they looked like visitors and alumni, not students. Flowers and colors were everywhere and girls by the thousands. All the Carolina heroes of other days were here, men like Pete Murphy, George Stephens, Perrin Busby, Clem Wright, Judge Billy Devin and scores and scores of others from all over the state, men who have never missed a Carolina-Virginia game and don't intend to. They are rejoicing tonight and handling out loud praise. Bill and Bob Fetzer for the making of this smooth working, efficient, always dangerous and never defeated Tar Heel team. Captain Pritchard's men will take rank among the legendary heroes. They have a wonderful record this year, and earned it every bit.

There is a great shortage of preachers in Fayette. Our great preacher shortage is in their pockets.

MANY PRAISE OFFER OF NEW DICTIONARY

Language Guide Should Keep Pace With Flow Of Added Words.

Distributing a new dictionary has brought this paper many complimentary remarks. One subscriber who presented coupons yesterday for a half dozen dictionaries for different employes and members of his family said he deemed it necessary that a dictionary should progress with the language just as a newspaper does. The world moves rapidly these days, and only The New Universities is aware with today's growth of the language.

While readers are eager for the book on account of its being authoritative and complete, its absolute newness appeals to thousands. It has been many a long year since an actually new dictionary was given to the public. The New Universities Dictionary is new in all the world implications, new in contents, new in type, new in arrangements of help to word study. Particularly is it new in making the study of today's English easy for young people who are so situated that they cannot attend school and obtain individual instruction. Unaided, a young man or woman employed may learn the correct use of the English of modern business and society if they but follow the directions of the great university teachers whose articles on "Standard English," "Practical Syntax" (which means: How to make good sentences.) "Punctuation" and "Etymology" appear, plainly written in simple English, in this book.

CHASE BOOTLEGGERS AND CAPTURE CAR WITH GOODS

CHESTER, S. C., Nov. 30.—An exciting chase after bootleggers out of Great Falls Tuesday afternoon ended tamely and ignominiously for the bootleggers when the quarry's car, a Dodge coupe, went about two miles out of the village, and the pursuers, Chief Steele and party, came up and arrested the fugitives and seized 36 quarts of liquor in the car. The fugitives, two Columbia men, Robinson and Driggers, by name, were then brought to Chester, and allowed bond by Magistrate Haynes, Robinson for \$250 and Driggers for \$500.

The liquor was taken back to Great Falls and stored in Magistrate Haynes' office; and shortly after the shades of night had descended before the officers got back to Great Falls, some miscreant or miscreants, whose names are unknown to the jury, broke into the building and stole the booze.

BOYS' CONFERENCE IN SESSION AT CONCORD

CONCORD, N. C., Dec. 1.—The opening session of the annual Older Boys' conference of the Fourth District of the state was held here this afternoon, with about 175 boys in attendance. William Keetran, captain of the Charlotte high school football team, was on the program as the principal speaker at the first meeting. Officers are to be elected tonight.

At the banquet this evening, W. H. Morris, Metropolitan general secretary of the Y. M. C. C., will speak on the "World's Need of the Torch." He will speak again Saturday morning and will be followed by Mrs. T. W. Bickett, of Raleigh, and C. C. Poindexter, left guard on Carroll's football team. Saturday afternoon will be devoted to a basketball tournament among the schools represented.

Saturday night, G. W. Fisher, industrial secretary of the Y. M. C. C., at Winston-Salem; Alton C. Roberts, of the Asheville Farm School, and W. W. Brockman, association worker in Soelow, China, will make addresses.

The conference will close Sunday night with an address by Rev. J. C. Rowan, of this city, on "Passing the Torch Ahead."

The fourth district includes the cities of Winston-Salem, Greensboro, Salisbury, Charlotte, Albemarle and others in this section of the state.

BATON ROUGE, La., Nov. 30.—Tulane university and Louisiana State will meet here this afternoon in their annual football game.

AMERICAN TROOPS ON RHINE WILL SOON BE COMING HOME

COBLENZ, Nov. 3.—Notwithstanding the fact that no official information to the effect has been received here, a rumor that the American troops on the Rhine are soon going home was again circulated today.

While anxiously awaiting definite news, the soldiers did not allow their anxiety to interfere with their celebration of Thanksgiving. Races, two football games and a boxing match, together with the usual holiday dinners, figured in the day's program.

Major General Henry T. Allen, in a Thanksgiving message, urged the troops to work for "peace and harmony."
