OUR WASHINGTON LETTER.

Latest News Notes From the National Capital.

[SPECIAL CORRESPONDENCE OF THE GAZETTE.] WASHINGTON, D. C.,

Oct. 3, 1887. Perhaps I could not better begin this letter than by giving a brief description of the clegantly appointed and equipped train that is bearing the Presidential party on their great Western and Southern tour, about which so much has been said and written. The train consists of three Pullman cars, connected in such a way that posed to the weather or other discom--among the articles being a beautiful bed-room, centre-table, inlaid writingdesk, sofas, rocking-chairs, barberchairs, and several large mirrors-to say nothing of a bathroom and smoking department, and to clap the climax, the cars are heated by steam from the locomotive and furnished

with electric lights from the same source. Washington has certainly never before seen such a splendidly outfitted train. Geo. M. Pullman gave his personal attention to the details, and the outlay is said to represent a capital of \$200,000, and it is further stated that the President will be at an expense of \$10,000 for the trip. The party consisted of the President and Mrs. Cleveland, Private Secretary Lamont, two or three personal friends of Mr. Cleveland, and three representatives of the press. A great crowd assembled at the Baltitimore and Potomac Depot to see the distinguished travelers depart-Secretaries Bayard, Endicott and Whitney being of the number. The floral favors to Mrs. Cleveland were lavish

and rarely beautiful. An important act of the President before leaving was the appointment of lect in the morning sky, rising on the | Secretary Bayard and Messrs. Wm. L. first of the month about an hour and a Putnam, of Maine, and James B. Anquarter before the sun, and at its close gell, of Michigan, to act as Commissioners in the adjustment of the ques-Jim. THE CUP SAFE.

THE VOLUNTEER WINS THE SEC-OND RACE EASILY.

Splendid Contest, Showing the Superiority of the Yankee Stoop-The Scotchmen Acknowledge Defeat-

Other News by Wire. NEW YORK, Sept. 30 .- Of all the races for the America's cup none was ever sailed before under the conditions which prevailed at to-day's races; and none was ever more fairly won than this, in which the Volunteer defeated the Scotch cutter Thistle over the outone can walk from end to the other side course of forty miles. The only without opening a door or being ex- regret the people have who saw the race is that the Thistle was not able to fort, and the coaches are richly and show more seaworthy qualities, and fashionably furnished and upholstered thus made the contest a closer one. Half an hour after the start it was plain that the Thistle was a beaten boat unless a fluke or shift of wind should save her from what promised to be an overwhelmingly defeat.

In the twenty-mile thrash to windward the centre-board type told so heavily against the keel that the cutter was beaten ten minutes and forty-nine seconds. The Thistle redeemed herself a little coming home before the wind by gaining two minutes and twentysix seconds on the Volunteer.

THE NEWS ACROSS THE WATER. GLASGOW, Sept. 30 .- Scotchmen are greatly disappointed over the result of the race, but they admitted that the Thistle was fairly beaten. It is believed that if the race for the cup is again to be sailed in American waters the Scotch yacht to be successful must have a centre-board.

THE ENGLISH PRESS ON THE DEFEAT LONDON, Oct. 1 .- The Post says: The American victory is complete, although the result does not discredit the Scotch challengers. The Americans have fairly shown that for the mere purpose of racing their centreboard stoop is faster than the English deep-keeled cutter. It must be remembered that the Thistle is only the first attempt to borrow some of the good qualities of American boats, and it is probable that the designer will prove capable of further developing his model. The mere fact that for three successive years the centre-board has emphatically had the best of the Euglish keel confirms the opinion that if we mean to win we must send over a centre-board boat; but at the risk of leaving the cup in America, we hope The Post confesses that the Thistle

lesson from America in this branch of shipbuilding, and had better set about

The Chronicle says: "The result of the races is decisive. We must accept our defeat with good grace."

The Datly Telegraph says: "The Thistle was beaten handsomely on her own merits. The Volunteer is the better and swifter boat all around. The triumph stamps American builders as at present our superiors and teachers in the art of designing fast

The Raleigh News and Observer says: The cup for which the Volunteer and Thistle have been racing was first offered in 1851 by the Royal Yacht Squadron of Great Britain. It was procured by subscription and cost one hundred guineas. It was free to be won by any yacht enrolled in a club of any nation. The America crossed the ocean, entered for the trophy under the flag of the New York Yacht Club and, in the name of John C. Stephens, defeated the flower of the English fleet. The cup remained in possession of the surviving owners of the America until 1857, when it was presented to the New York Yacht Club as a perpetual challenge cup for all nations. Since then it has been unsuccessfully coutested for by the British yachts Cameria, Livonia, Genesta and Galatea and by the Canadian yachts Countess ing place respectively in '70, '71, '85, 286, '76 and '81. Now the Thistle fails to win back the trophy, and it appears American skill in yacht-building and in seamanship must remain on this side the ocean indefinitely."

Cotton at the Ports. NEW YORK, Sept. 30 .- The following are the total net receipts since September 1, 1887: Galveston, 118,134 bales: New Orleans, 133,877 bales; Mobile, 20,114 bales; Savanuah, 166,-425 bales; Charleston, 91,978 bales; Wilmington, 36,723 bales; Norfolk, 41,253 bales; Baltimore, 111 bales; New York, 112 bales; Boston, 669 bales; Newport News, 968 bales; Philadelphia, 131 bales; West Point, 31,-345 bales; Brunswick, 6,524 bales; Port Royal, 1,248 bales; Pensacola, 3,844

bales; total, 654,036. Lung Trouble and Wasting Diseases can be cured if properly treated in time. As shown by the following statement from F. L. Johnson. M. D., Greenwood, La.: "I had a severe case of Pheumonia, both Lungs involved; no appetite, sick stomach, general weakness and completely exhausted. I gave her Scott's Emulsion of Cod Liver Oil with Hypohosphites of lime and soda, according to direction, and she has improved ever since."

Officials.

Chicago, Sept. 30 .- This was executation day in the City Hall, there being 103 decapitations in the various departments under control of Public-Works-Commissioner Swift, When the ukase went forth ordering this wholesale discharge of city employees, aldermen and politicians crowded into Commissioner Swift's office and that tied official was overwhelmed with questions and protests. Such a clearingout is unprecedented in Chicago. Swift denied that politics had anything to do with it. He claimed that it was purely a measure of economy, as it had been discovered that for a time during the winter a certain number of men could be spared. The places would be filled up again whenever necessary. It was impossible to tell whether the discharged men were all Democrats, or whether their places would be all filled by Republicans.

Seven Years at Hard Labor.

Jessie Merwin was tried at Glen's Falls, New York, last week and sentenced to seven years in the penitentiary. This news has been received by the counsel who appeared for Merwin in this city. He is the man who was apprehended and arrested in Henderson some weeks ago for stealing \$6,000 from the National Express Company in New York, and who appeared before Judge Merrimon at chambers in this city on a writ of habeas corpus and was turned over to the New York authorities on a requisition from the Governor of that State.

The debt statement for the month of September shows that the public debt has been decreased \$12,247,969.80.

Last week Samuel Johnson, Treasurer of the Hamilton Powder Company, of Montreal, defaulted for \$7,000, and then suicided. It is thought that family troubles caused both the defalcation and suicide.

President Cleveland, who is now on an extended tour through the western and southwestern states, pays the expenses of the journey. It is said that this is the first time, since the days of Washington, in which a President of the United States has done this.

Everybody should remember that all articles intended for exhibition at the State Fair will be transported free both ways by the railroad companies. Full freight rates will be charged and must was fairly and squarely beaten. It be paid on every thing brought to the of Cancer, and forming a triangle with At the last cabinet meeting the fi- suggests that a race from New York Fair, but on presentation to the railthe Fair officials that an article has The News regrets that the race was been exhibited, the amount of freight paid will be refunded and the article and Observer.

Circular-letter No. 2 was received to day from Adjutant-General Johnstone Jones. It calls on the troop of the State Guard to prepare to attend the Lee-monument celebration, the trip to cover not more than three or four days. The Adjutant-General desires every company to attend and ever man. He will furnish itemized statements of the necessary expenses, and state that the companies will be added as much as possible in raising funds and co nsummating arrangements. The interest felt in the celebration by both soldiers and the general public is very great.
