

Just Tottering, So Weak

"I was in a bad state of health and was going through a critical time of my life," says Mrs. Ella Scarborough, R. F. D. 5, Dothan, Ala. "Several different things were recommended to me, but I did not get any real relief until I began to take Cardui.

"I was just as weak as could be. My legs were shaky, and often I would just totter around the house. I finally got so bad that I was in bed several weeks.

"It was then that I began to take Cardui. I kept it up for quite a while, and at last I regained my health. Cardui was certainly a friend to me in time of need.

"My health is splendid now, and I seldom have to use medicine, but I gladly say a word about Cardui whenever I find a friend going through the same suffering which I endured."

LIVER GOOD FOR PALE PEOPLE

Raleigh, N. C., Nov. 9.—Those who like liver well cooked will be gratified to know that they enjoy a food that is packed with minerals and vitamins. Those who do not care for liver, should lose no time in cultivating a taste.

"Liver is a good source of supply for many food elements," says Miss Mary Thomas, nutrition specialist of the home demonstration division at State College. "The food contains proteins of unusual value and also an abundance of minerals and vitamins. We know of the splendid results obtained when cod liver oil is used for babies and grown people. Just lately much more interest has been aroused by certain investigations which show that liver is rich in iron and has other substances favoring the utilization of this iron by the body for blood building."

In other words, liver will help cure anemia. Medical authorities are recommending liver, especially beef liver, with an abundance of fresh fruits and vegetables as a cure for this disease. Even in pernicious anemia, this diet has been found very beneficial in bringing about an increase in the red cells and hemoglobin. Not only is liver valuable for the blood, states Miss Thomas, but it also contains many food elements which give tone to the entire body.

Miss Thomas states that there are many ways in which this liver may be prepared for the table. She also states that there are other and more attractive dishes than the regular fried or boiled dish so often served. To prepare the liver for cooking, it should be cut into slices about one-half inch thick, covered with boiling water and allowed to stand for five minutes. Then drain off this water and remove the outside skin and the veins.

Braised liver, baked tomatoes stuffed with liver and Russian baked liver are three new dishes advocated by Miss Thomas. She states that these make excellent dishes and those who wish to have recipes may get them by writing to her.

RED CROSS ROLL CALL BEGINS ARMISTICE DAY

The Mother of Mercy Purposes To Increase The Membership To Five Million.

Last year the Red Cross aided in 75 disasters apart from the Mississippi Flood and the Miami Hurricane. There were 28 tornadoes, 21 floods, 11 fires, hurricanes, mine explosions, hail storms and other unwelcome episodes of a disastrous character. It can not be too clearly understood that the Red Cross considers itself under a compelling obligation to expend, and does expend, every dollar of disaster contributions wholly and exclusively for disaster relief—and that only through its annual roll call does it seek to raise money to carry on its normal program and to maintain its organization ready for great emergencies.

These general funds are required for three purposes: To start work immediately without waiting for collections to come in; to supplement contributions when funds are inadequate to meet the responsibilities assumed by the Red Cross in the first hours of disaster; and to finance minor disasters which may occur during or just after solicitation of funds for a great disaster. During the Mississippi Flood work the Red Cross had also to work on 14 other disasters of a serious nature.

There are still over 25,000 veterans of the World War in the government hospitals that are still receiving the aid and cooperation of the Red Cross. Likewise the boys in the service of the Army, Navy, and Marine Corps are receiving the same services as during the war, the only difference being—that there are not so many of them.

The organization purposes to increase its membership to five million this year and extra efforts are required from all sections of the country. The annual roll call

for members will start officially Armistice Day, according to R. A. Manning, field representative of the American Red Cross. There will be local representatives in each of the townships of Caswell who will be authorized to solicit memberships and dues. It is hoped that the Caswell people will respond as liberally as possible.
