The Southern railroad office here has been made a first grade office. Tickets can now be bought from here to any place in the United States.

What was the matter with the young ladies appetite's at the Strawberry Festival. It is reported that one young lady ate 17 plates of ice-cream, 15 was the limit but she broke the record.

The Hellenians have arrived but no one can see them until those men that subscribed pay up. So why keep us in suspense? Let's all pay up as soon as possible and see how the Hellenian "drags" us as well as our friends.

**Resolutions of Respect.**

Whereas, God in his infinite wisdom, has seen fit to remove from us our lately honored fellow member, Hon. Melvin E. Carter of Asheville; therefore be it

Resolved first, That the State has lost one of its most eminent and patriotic citizens.

Second, That the Dialectic Society, of which he was a loyal member, deeply feel the loss of one of its most worthy sons.

Third, That a copy of these resolutions be spread upon the Society Minutes and that the Hall be draped in mourning.

Fourth, That a copy be sent to the bereaved family as a token of our sympathy.

Fifth, That a copy be sent to the leading State papers and to the college publication.

Mr. John Motley Morehead (class of '91) is a University boy who is winning honors for himself, and that through the merits of his own work. The following is from the *Leaksville Herald*:

"The *Herald* was pleased to hear that Mr. John Motley Morehead, who went to Leeds, England, in January last to establish a plant for the manufacture of Calcium Carbide (out of which the acetylene gas is produced) has finished the plant, made the gas, and lighted residences.

"As a compliment to his efforts and success, Mr. Fox, who bought the right from the Wilson Aluminum Company to manufacture and use the gas in England, had his private residence illuminated and gave a large dinner, assigning Mr. Morehead the seat of honor; and he entertained the guests with some good American jokes.

"He is now in Berlin putting up a similar plant. We wish for him a similar or some greater success there, and we expect to hear of it, for Mr. Morehead possesses some talent and ability, and the future has greater things still in store for him.

"We feel justly proud of our young men who go out from home and reflect such great credit upon their mother state, and our best wishes attend them, though they be in distant lands."

The manufacture of such a watch is only possible when automatic machine equipment is perfect, and operatives are trained by long experience—it is possible by only one concern in the world, and you can readily guess which it is—The Waterbury Watch Co.

This "TRUMP" has just been put on the market in opposition to the poorly made "Clock Watches," now flooding the country. CALL and SEE them.
