Improvements in the Gymnasium.

To satisfy the growing needs of the gymnasium, a number of new features will be added in a few days.

This has been contemplated for some time, and now that the apparatus has been ordered, and on the way; the gymnasium will shortly offer new attractions and opportunities for recreation and sport.

Perhaps the most attractive feature of the work this fall will be, basket ball, an immensely popular and highly beneficial form of sport.

Basket-ball has come to stay; it grows more popular year by year, and for some time has been the foremost indoor game.

In the North and West large crowds witness games between colleges, Y. M. C. A's, and teams from different athletic organizations, State and National Guards etc.

Already it has its league, a large and well organized body.

It's introduction in the "gym." will, judging from it's reception elsewhere in the state prove a great success.

As a game it offers many good features to the player, combining rapid judgement with swiftness of motion, demanding almost constant movement, it requires and develops "wind." It also offers attractions for those who do not enjoy foot ball, or other like forms of sport, there is no "talking" of the player in Basket-ball or using the body to hinder a play, though the hands and arms are used freely.

To the spectator it is exciting, when the game is understood; and makes a very interesting spectacle.

It is easily seen then, that an interesting series of games could be arranged between the classes and departments of the University; and possibly with other institutions.

It is hardly necessary to mention "punch bags," two of which will be placed just beneath the balcony of the gallery.

They are "Spaldings Special Gymnasium Bag," very fine in quality, and lively.

There are few men who do not enjoy this kind of "punch" whether teetotalers or not.

In addition to these, some hygiene apparatus will be added, new chest-weight machines with attachments for leg and neck exercises.

We will then with these additions have a fairly equipped gymnasium.

The intelligent use of which will put almost any one in splendid trim for track work in the spring, and improve health.

All that remains is, endeavor and enthusiasm, and it will be easy to equal at least, and if not surpass the work of former years.

Virginia and Columbia will play another game of foot ball, as the last one broke up in a quarrel. College Topics says: "We are glad to announce that another game with Georgetown has been arranged to be played on their grounds. This gives us an opportunity to demonstrate that Virginia has what she claims, the representative foot ball team of the south."

Captain Collier in a letter to Topics gives his side of the dispute in the first game.

The All-America baseball team selected by B. A. Smalley of the *College Athlete*, for the season of 1898, is as follows:

Pitcher	Greenway	(Yale)
Catcher	Kafer	(Princeton)
1st Base	Keley	(Princeton)
2nd "	Houghton	(Harvard)
3rd "	Lauder	(Brown)
Short stop	Camp	(Yale)
R Field	Wallace	(Yale)
C "	Wear	(Yale)
L "	Rand	(Harvard)

College Topics.

The University of Chicago has conferred the degree of Doctor of Laws on President McKinley.

"We are glad to learn that Mr. George Stephens has consented to train our foot ball team. Mr. Stephens is an experienced foot ballist and Davidson is fortunate in securing his services."—*Davidson College Magazine.* "George" had better look out for his team next Saturday!

A Wonderful Invention.

Zoology teaches that the hairs of the head are hollow, and contain an oil that gives them life. In clipping the hair with scissors, this hollow is left open, and the hair loses its life-giving properties.

I have a Machine named the *Singeing Machine*, which removes the hair and at the same time closes up the hollow, causing the hair to retain its life-giving properties, and therefore stopping the hair from falling out or dying, and giving it a soft growth.

Call and examine this machine and have your hair singed.

Special attention given to dressing Ladies' hair. Cutting done with exquisite and artistic skill by the old University Barber of twenty years' experience.

The singeing machine is highly recommended by scientists throughout the country.

Very Respectfully,
T. D. DUNSTAN
