

**PERSONALS**

Dr. Venable returned yesterday from Knoxville, Tenn., where he has been attending the Annual Convention of Southern Schools and Colleges.

J. K. Wilson, '05, who graduated in law here last spring and has been engaged in working on the Hill fellowship in history this fall, has left the University to enter the practice of law at his home, Elizabeth City.

Mr. Franklin Johnson, manager for the Ben Greet Company, was on the Hill yesterday on business in connection with the presentation of "Everyman" in Durham to-morrow week.

John A. Parker, '06, who departed from the Hill some weeks ago, much to the sorrow of football enthusiasts, has recently been elected secretary and treasurer of the Statesville Realty and Investment Company.

**University Council Report.**

Following the injunctions laid upon it by the student body in the mass meeting of October twenty-ninth, the University Council has attempted to investigate the hazing that occurred on the night of Friday, October twenty-sixth. The Council summoned before it all the students rooming in the Carr building and the south entrance of the Old East building and, as far as it could ascertain them, those rooming at Pickard's Hotel, 101 men in all were summoned, and of these 95 appeared before the Council. 88 of these said that they did not know, and had not heard, who were implicated in the hazing. 8 said they knew personally, or had heard on good authority, who the guilty parties were, but they absolutely refused to tell the Council anything about the matter. The investigation established three facts: first, that the hazing was confined to the Carr building and to the south entrance of the Old East building; second, that the body of hazers consisted of about ten men; and third, that these men were masked and shrouded from head to foot, this showing that the hazing was done not offhand in a spirit of mischief, but deliberately and with premeditation.

While the investigation, so far as bringing the guilty parties to justice is concerned, has been an utter failure, it has succeeded in showing three things to the student body. It has shown in what buildings on the campus hazing will be tolerated; it has shown that there are some in our midst who are willing to shield breakers of the law; and it has demonstrated the inadequacy of the University Council to meet existing conditions and the need of the student body for a stronger and better form of self government—a government which will carry out the will of the majority, and whose efficiency will not depend upon the chance of finding honor and patriotism among breakers of the law and their confederates.

**Brain and Eye**

HOW EYE-STRAIN RETARDS STUDY.

Many students possessing superior minds oftentimes fancy themselves dull because they fail in their studies.

The reason is simply this: They are afflicted with so much eye strain that it requires nearly all the nervous force they possess to fix the eye upon their books, thereby exhausting the energy of the brain.

Many students unwisely sacrifice their health in attaining an education, because of the large amount of brain-strain sustained in the close use of their eyes, though their vision seems excellent. This form of brain-strain is easily detected by an expert and most always remedied by glasses properly adjusted.

If you break your glasses don't send them away for repair, taking the chances of delay and mistakes. Just bring the pieces to the office and I will do the rest.
