UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., THURSDAY, OCTOBER 10, 1907.

No. 4.

OFFICIAL ORGAN OF THE UNIVERSITY OF NORTH CAROLINA ATHLETIC ASSOCIATION.

ANTI-HAZING CONFERENCE

SUBMITS PLEDGE TO CLASSES AND FRATERNITIES.

Juniors and Seniors Adopt it, but Sophomores and Fraternities Refuse.

Acting under instructions from the Senior class, President O. R. Rand called together a conference composed of five Seniors, three Juniors, two Sophomores, one representative from the Y. M. C. A., and one from each of the eleven fraternities to consider ways and means whereby hazing might be entirely abolished.

The conference met Saturday afternoon, and after discussing the matter frankly, it was decided to have Mr. Rand appoint a committee to draw up a pledge or resolution to be submitted to the classes and fraternities. This committee, which was composed of Messrs. M. Robins, J. H. Manning, Stanley Winborne, and W. P. Stacy, reported as follows: "We hereby recommend to the various organizations and classes in college that they promise individually and collectively not to engage in any hazing." Then followed a definition which included the objectionable forms of hazing.

At a second conference held in the Y. M. C. A. building Monday night it was reported that the Senior and Junior classes had adopted the pledge by a practically unanimous vote, and that the Sophomores and all of the fraternities had refused to adopt it. The fraternities' representatives urged in support of their refusal that, although a majority of the fraternity men were willing to sign the pledge individually, they were not willing to place their fraternities on record, as bodies, as promising not to indulge in any hazing. They feared that if one man were to break the pledge, the whole fraternity of which he was a member would receive a black eye.

In other words, the fraternities, as bodies, refused to lend their support to the anti-hazing movement.

At this point the conference practically broke up, though it was decided after some discussion that the fraternities be polled and that the men who refused to sign be reported at a third meeting of the conference to be held Friday night.

The personnel of the conference was: Seniors, M. Robins, P. M. Williams, E. C. Ruffin, W. P. Stacy, H. B. Gunter; Juniors, F. P. Graham, Duncan McRae, O. J. Coffin; Sophomores, H. J. Johnson, J. A. Highsmith; Y. M. C. A., J. A. Fore, Jr.; Sigma Nu Fraternity, T. F. Wood; Beta Theta Phi, N. V. Stockton; Kappa Sigma, R. H. Chatham; Pi Kappa Alpha, Stanley Winborne; Alpha Tau Omega, Don Ray; Zeta Psi, J. H. Manning; Sigma Alpha Epsilon, C. W. Tillett, Jr.; Phi Delta Theta, C. W. Howard; Delta Kappa Epsilon, T. M. Hines; Kappa Alpha, W. P. Jacobs; Phi Chi, J. A. Strickland.

OFFICIAL SCORE WAS 0 TO 0

BUT THE OFFICIALS KNEW NOT THEIR BUSINESS.

Carolina Clearly Had the Best of the Washington and Lee Game.

Carolina has had another setback, but of a different kind. About two thousand spectators saw our foot-ball eleven out-play Washington and Lee's aggregation in Newport News last Saturday. The official score was 0 to 0, and so the newspapers recorded it. But the real score was far different, and the big end came to us. Carolina made one touchdown and would easily have made another if the officials had known their business.

In the first half, Washington and Lee kicked off to Carolina. After a few minutes Carolina carried the ball into Washington and Lee's territory and there it stayed for the rest of the half. Several times Washington and Lee's goal was in danger but Carolina was unable to take it over. One drop-kick was tried but it failed and Washington and Lee punted the ball to the middle of the field. Half ended with no scoring.

In the second half, Thomas kicked off to Washington and Lee on their twenty yard line and Carolina settled down to business. Within five minutes Carolina had the ball on Washington and Lee's thirty-yard line. After a few preliminary rushes, Mann made a beautiful forward pass to Davis, who carried the ball over and planted it between the goal posts for a touchdown. But now the officials took a hand and cancelled the touchdown. They claimed that the quarterback had not gone five yards to the side, and although Mann had

Tennis Prizes.

Two tournaments will be held this fall by the tennis association, in which every man in the association, except varsity candidates, will be eligible to play. A list of prizes to be given to the winners is as follows:

An \$8 tennis racket given by University Athletic Store.

A pair of shoes given by Pritchard and Horton, Durham.

A pair of shoes given by H. H. Patterson.

A shirt given by C. B. Griffin, (Brockwell Block.)

A shirt given by Stroud & Co.

A pipe given by Eubanks Drug Co.

A box cigars given by Pickard & Stroud.

A \$2.00 pocket knife given by Herndon Hardware Co.

One dozen collars given by Durham.

One prize given by Vaughan, of Winston-Salem.

One Stetson hat given by Whiting Bros.

STAR COURSE LECTURES

SIX TO BE PRESENTED THIS YEAR

An Excellent Program—Champ Clark to Appear Saturday, October 19.

The Star Course entertainments this year will be as follows:

Champ Clark, Saturday, Oct. 19.

Schubert Quartette, Wednesday, Nov. 6.

Frederick Warde, Monday, Nov. 18.

Whitney Bros. Quartette, Saturday, Jan. 11.

Russell Conwell, Wednesday, Jan. 29.

Arthur K. Peck, March, between 5 and 15.

The first lecture in the series, by Hon. Champ Clark, of Missouri, will be delivered on Saturday, October 19. Champ Clarke has the reputation of being one of the most eloquent speakers and logical debaters in Congress, and he, being from Missouri, will certainly have no objection to "showing us" that the reputation does not belie the man. His coming will be awaited with a deal of pleasurable anticipation.

The Schubert String Quartette needs no introduction to a Chapel Hill audience. The company has appeared here each season for several years, and never has it failed to delight the hearts of our music lovers.

Mr. Frederick Warde, in a lecture recital of some one of Shakespeare's plays, will be the third drawing card, being booked to appear on November 18. Mr. Warde has an enviable reputation as an interpreter of Shakespeare, and will no doubt give us an evening of en-

(Continued on page 4.)

Geological Seminary.

At the Geological Seminary Tuesday evening Mr. Drury Phillips gave an account of the Chapel Hill Iron Mine. Professor Collier Cobb gave an account of his investigations of sand movements on the land surface and in the sea along the Virginia and North Carolina coasts, and the results of experiments instituted a number of years ago to check these movements. Lantern slides were exhibited showing the results of these experiments in various stages, the successful checking of sand dunes by the planting of grass, of pines, and of cottonwoods; and adding to the land by the construction of groins. The results to date were shown by photographs made in August and September of this year.

Mr. C. H. Cothran has the contract and is now grading a class athletic field east of the gymnasium. Mr. Cothran is a hustler and it will not be long before the ground will be ready for use.

THE CARNEGIE LIBRARY

COMPLETE AND UP-TO-DATE IN EVERY RESPECT.

The Arrangement is Well-Nigh Perfect—Great Credit is Due Dr. Wilson.

The new library has at last been opened, and the throngs of students that have crowded around the librarian's desk and filled the reading rooms give eloquent testimony to the fact that a long-felt need has been supplied. "Comparisons are odious," saith the poet, but the contrast between the old and the new is so great that we can but pause for a moment and think, with a deal of self-pity, of the time when we were cooped up in our former two-by-four building. The new one is a handsome structure, the room is plentiful and the arrangement is excellent.

The lobby downstairs is spacious and well lighted, the light coming from the sky-light through a great round opening in the second floor. At the back of the lobby, and straight in front of the main entrance is the delivery desk. On the left of the delivery desk is the case for debate references, on the right is the library catalogue, and at the back is the entrance to the stack room. This room, which extends through the second floor, has accommodating capacity for 110,000 books.

To the left of the main entrance are the gentlemen's hat room; the periodical room, with two paper files, six tables, and a periodical file with seven sections; and a room in which are filed Congressional records and documents, newspapers, and magazines.

To the right of the main entrance are the ladies' cloak room; the reference room, with a large case for reference books, and eight tables. Back of the reference room are the offices of Dr. L. R. Wilson, librarian, and Miss Strudwick, assistant librarian.

On the second floor are two rooms which correspond to the hat and cloak rooms below. To the left are a faculty reading room, two seminar rooms, and a room in which is placed the library of the Elisha Mitchell Scientific Society. To the right are two reading rooms, a room for statuary and pictures, and a room in which is placed the collection of North Caroliniana.

The building is furnished throughout with Library Bureau furniture, made of beautiful stained oak, and the furnishings are entirely in keeping with the interior finish.

On the whole, the arrangement is well-nigh perfect for a college library, and those who planned it are to be congratulated. Credit is also due Dr. Wilson, through whose efforts the building was opened this early in the year.
