University of Pennsylvania 1909

DEPARTMENT OF MEDICINE

Undergraduate Department. The One Hundred and Forty-fourth Session will begin September 24, 1909. The course, which covers a period of four years, of eight and one-half months each, is eminently practical, and properly graded, beginning with laboratory instruction in the fundamental subjects, and concluding with a comprehensive system of bedside instruction, terminating in the Fourth Year with the assignment of students as clinical clerks in the University Hospital. 90 per cent. of the graduating classes secure positions as Resident Physicians in Hospitals. The applications for graduates from this school are so great that every student could be placed.

Requirements for Admission. For the sessions beginning 1909 and 1910 respectively, the requirements for admission will be briefly as follows: For 1909 the successful completion of work equivalent to that prescribed for the Freshman class in a recognized literary college, which must include work in physics, chemistry and biology as specified in our catalogue, and at least two foreign languages, one of which must be either French or German. In 1910 the successful completion of work equivalent to that prescribed for the Freshman and Sophomore classes in a recognized literary college, which must include work in physics, chemistry and biology, as specified in our catalogue, and at least two foreign languages, one of which must be either French or German.

Graduate Department. The laboratories and clinics of this Department are open throughout the year for the benefit of those who wish to engage in post-graduate work. For further information, send for catalogue.

Dean of the Medical Department, University of Pennsylvania, Philadelphia.

**HOW A WOMAN IN N. C. STARTED IN
BUSINESS WITH ONLY ONE DOLLAR**

She is now independent and cares not how bad times are. Can be done by others

A woman in North Carolina started in business with only one dollar and now has an income of more than 200 dollars a week.

One day she saw an advertisement in a monthly story paper of "WICKE'S SWISS HERB TEA" stating that it was the BEST REMEDY ON THE MARKET for all Kidney, Liver, and Stomach Troubles and while she had been troubled with all these complaints for more than 7 years, she wrote to the Manufacturer for a 25 cent package, which she used carefully according to the directions. After one week's use she found that all her complaints had left her and she told the people, who had known her as a very sick lady, what she had used. All who saw the wonderful change in her condition, asked her to get them a package, and she sent one dollar to the manufacturer of the tea and asked him to send her as many packages as he could afford for the one dollar.

She got 8 packages which she sold at 25 cents each, which gave her a profit of one dollar on her investment, and 25 sample packages, which she distributed to other people and asked them to try this wonderful Herb Tea.

A week later she went to all these people again and asked them if they had tried the Tea and what they thought of it, and to her surprise she got an order for a package from every one of these, they all said "the Tea is wonderful." She at once sent for 100 packages and kept on distributing samples and sold them all in a weeks time. Then she sent for 500 packages and now she had 59 other ladies and men working for her, selling "Wicke's Swiss Herb Tea" from house to house, and North Carolina has never been in so healthy condition as she is now; the call for a Doctor is only in rare cases or accident. A Druggist offered her the other day \$10,000 dollars for her Agency, but she declined his offer.

Any one, who has a little push and energy can do as well as she and while there are a few Agencies still open, we advise all who want to build up an independent business, to write to H. FELDSTEIN, 1375 Myrtle avenue, Brooklyn, N. Y., and send him a Money Order for one or more dollars to secure the Agency of their town. Write today and build up a business and be independent.

The Holladay Studio

SUCCESSORS TO "COLE AND HOLLADAY"

Gallery will be open every Wednesday of each week, beginning Wednesday, October 28th. HIGHGRADE WORK ONLY. Prices reasonable. A fine set of views of the campus and buildings on sale at all times

**No Land So Rich That Fertilizer
Cannot Make It Better**

You use fertilizers for the profit you get out of them—and the better the land the more profitably a good fertilizer can be used on it. Do not imagine because land will produce a fair crop without

**Virginia-Carolina
Fertilizers**

that these fertilizers cannot be profitably used on it, or that they were made only for land too poor to produce without them. If poor land will show a normal increase when fertilizer is used, good land will show at least double the increase. Use Virginia-Carolina Fertilizers to increase the *quality*, as well as the *quantity* of the crop—and you will increase the profits from your land.

"I have been using your fertilizers for a number of years" says Mr. William Fraiser, of Glasburg, La., "and find that it not only pays to fertilize, but to do plenty of it, and use the best fertilizers to be had, such as your brands. I have used a number of them and found them to be as recommended and to give better results than any other fertilizers that I have ever used."

Every planter and farmer should have a copy of the new 1909 Virginia-Carolina Farmers' Year-Book. Get a free copy from your fertilizer dealer, or write our nearest sales office.
