

LOCAL NOTES

Mr. J. H. Boushall, Jr. and Mr. Alex. Field spent Saturday and Sunday at their homes in Raleigh.

Professor H. H. Williams will deliver his address, which was postponed on account of illness, before the Y. M. C. A. next Tuesday evening on "Principles which should guide one in his choice of a life work."

Le Cercle Dramatique Francais met in Chapel at 7:45 o'clock on Monday and Wednesday night.

The "Wearers of the N. C." held their regular Wednesday night meeting in the Y. M. C. A. House at 7:15 P. M.

The Biological Journal Club will meet with Dr. W. C. Coker at 8:00 o'clock Saturday night.

"Mike" Hudson, ex'10, who is now at the Naval Academy, was on the Hill Tuesday.

Mr. Grady Rankin will lead the discussion at the Y. M. C. A. prayer meeting tonight at 7:15 o'clock.

New officers of the Y. M. C. A. have been elected as follows and will take their offices at once and serve through the ensuing year: President, Mr. Hoke Ramsaur; Vice-president, J. H. Boushall, Jr.; Recording Secretary, L. N. Taylor; and Treasurer, J. H. Johnston.

The "I Tappa Keg" has failed to float its stock and has gone bankrupt.

Frank McLean has continued to improve since his operation for appendicitis. It is hoped that he will soon be able to return to college.

Dr. J. F. Royster addressed the Y. M. C. A. Tuesday night. His subject will not be placed in quotation marks, but it was something to the effect that a sheep-thief should not deliver lectures on morals.

Hereafter the "Wearers of the N. C." will meet on Monday night instead of Wednesday night. All members will please remember.

The Season-tickets do not seem to be selling fast. This ought not to be the case. If we want to see games here we ought to support the management in arranging them on the local diamond. The management needs the money, you need the tickets. It's cheaper to buy eighteen games for \$5.50 than to pay fifty cents per game. You are going to attend most of the games, why not save 40 per-cent. It looks like a good investment from our point of view.

Hal Merton, magician, entertained Tuesday night. His performance was clever and enjoyed by all. A really good sleigh-of-hand performer seldom wearies, and Mr. Merton is a good one all right. In addition to his feats of magic he gave a few of ventriloquism, but the large and better part of the evening he gave over to his magic.

Mr. Lee F. Hanmer, Secretary of the National Playground Association, who is making a tour of the South, gave an instructive stereoptican lecture in Gerrard Hall Wednesday night. Mr. Hanmer interestingly showed the urgent need of play-grounds in all the large cities and outlined the great work that is being accomplished through the Association.

DEPARTMENT OF MEDICINE

Undergraduate Department. The One Hundred and Forty-fourth Session will begin September 24, 1909. The course, which covers a period of four years, of eight and one-half months each, is eminently practical, and properly graded, beginning with laboratory instruction in the fundamental subjects, and concluding with a comprehensive system of bedside instruction, terminating in the Fourth Year with the assignment of students as clinical clerks in the University Hospital. 90 per cent. of the graduating classes secure positions as Resident Physicians in Hospitals. The applications for graduates from this school are so great that every student could be placed.

Requirements for Admission. For the sessions beginning 1909 and 1910 respectively, the requirements for admission will be briefly as follows: For 1909 the successful completion of work equivalent to that prescribed for the Freshman class in a recognized literary college, which must include work in physics, chemistry and biology as specified in our catalogue, and at least two foreign languages, one of which must be either French or German. In 1910 the successful completion of work equivalent to that prescribed for the Freshman and Sophomore classes in a recognized literary college, which must include work in physics, chemistry and biology, as specified in our catalogue, and at least two foreign languages, one of which must be either French or German.

Graduate Department The laboratories and clinics of this Department are open throughout the year for the benefit of those who wish to engage in post-graduate work. For further information, send for catalogue.

Dean of the Medical Department, University of Pennsylvania, Philadelphia.

HOW A WOMAN IN N. C. STARTED IN BUSINESS WITH ONLY ONE DOLLAR

She is now independent and cares not how bad times are. Can be done by others

A woman in North Carolina started in business with only one dollar and now has an income of more than 200 dollars a week.

One day she saw an advertisement in a monthly story paper of "WICKE'S SWISS HERB TEA" stating that it was the BEST REMEDY ON THE MARKET for all Kidney, Liver, and Stomach Troubles and while she had been troubled with all these complaints for more than 7 years, she wrote to the Manufacturer for a 25 cent package, which she used carefully according to the directions. After one weeks use she found that all her complaints had left her and she told the people, who had known her as a very sick lady, what she had used. All who saw the wonderful change in her condition, asked her to get them a package, and she sent one dollar to the manufacturer of the tea and asked him to send her as many packages as he could afford for the one dollar.

She got 8 packages which she sold at 25 cents each, which gave her a profit of one dollar on her investment, and 25 sample packages, which she distributed to other people and asked them to try this wonderful Herb Tea.

A week later she went to all these people again and asked them if they had tried the Tea and what they thought of it, and to her surprise she got an order for a package from every one of these, they all said "the Tea is wonderful." She at once sent for 100 packages and kept on distributing samples and sold them all in a weeks time. Then she sent for 500 packages and now she had 59 other ladies and men working for her, selling "Wicke's Swiss Herb Tea" from house to house, and North Carolina has never been in so healthy condition as she is now; the call for a Doctor is only in rare cases or accident. A Druggist offered her the other day \$10,000 dollars for her Agency, but she declined his offer.

Any one, who has a little push and energy can do as well as she and while there are a few Agencies still open, we advise all who want to build up an independent business, to write to H. FELDSTEIN, 1375 Myrtle avenue, Brooklyn, N. Y., and send him a Money Order for one or more dollars to secure the Agency of their town. Write today and build up a business and be independent.

Your Cotton Crop Can Be Increased

It costs no more to cultivate an acre that produces two bales of cotton than an acre which produces only one-quarter of a bale. Why not see what you can do with

Virginia-Carolina Fertilizers

Other men have been able to double and more than double their yield per acre with a liberal application of Virginia-Carolina Fertilizers.

Messrs. Lucas & Jackson of Kelsey County, Tenn., used Virginia-Carolina Fertilizer on about 55 acres planted with cotton, and say: "We have the finest crop of cotton we ever saw, and all the people around here think the same. We actually counted 447 bolls on one stalk. Another stalk had by actual count 409 bolls, forms, squares and blossoms. On about 8 acres we expect to make about 2 bales to the acre, and an estimate of adjoining farms not so fertilized and under other cultural methods, will yield only 1 bale to five acres."

An interesting picture of the cotton plants referred to will be found in the new 1909 Virginia-Carolina Farmers' Year Book, copy of which may be had from your fertilizer dealer, or will be sent free, if you write our nearest sales office.
