Announcement has been made of a memorial cup, presented by Mr. E. R. Herston, of Charlotte, in honor of his brother. The cup is to be presented annually to that member of the junior class who excels in journalistic work.

Ben Smith Preston took work in composition work at the University in 1905, after having previously attended Washington and Lee University. He is remembered here not merely for his successful classroom work and for his promise of high achievement in the profession he had chosen, but for a personality singularly attractive and endearing. He died in Atlanta, Georgia, after having rapidly risen to a responsible position on The Georgian.

## The University OF North Carolina.

...1789...

HEAD OF THE STATE SYSTEM OF  
EDUCATION

...1909...

The University stands for thoroughness and all that is best in education and the moulding of character. It is equipped with 16 buildings, new water works, central heating, electric lights. Eleven Scientific Laboratories, equipped for good work. The Faculty numbers 74. Students 730. Library of 45,000 volumes. One librarian and four assistants. Fine Literary Societies. There is an active Y. M. C. A. conducted by the students. Scholarships and loans for the needy and deserving.

For information, address

## DEPARTMENT OF MEDICINE

**Undergraduate Department.** The One Hundred and Forty-fourth Session will begin September 24, 1909. The course, which covers a period of four years, of eight and one-half months each, is eminently practical, and properly graded, beginning with laboratory instruction in the fundamental subjects, and concluding with a comprehensive system of bedside instruction, terminating in the Fourth Year with the assignment of students as clinical clerks in the University Hospital. 90 per cent. of the graduating classes secure positions as Resident Physicians in Hospitals. The applications for graduates from this school are so great that every student could be placed.

**Requirements for Admission.** For the sessions beginning 1909 and 1910 respectively, the requirements for admission will be briefly as follows: For 1909 the successful completion of work equivalent to that prescribed for the Freshman class in a recognized literary college, which must include work in physics, chemistry and biology as specified in our catalogue, and at least two foreign languages, one of which must be either French or German. In 1910 the successful completion of work equivalent to that prescribed for the Freshman and Sophomore classes in a recognized literary college, which must include work in physics, chemistry and biology, as specified in our catalogue, and at least two foreign languages, one of which must be either French or German.

**Graduate Department.** The laboratories and clinics of this Department are open throughout the year for the benefit of those who wish to engage in post-graduate work. For further information, send for catalogue.

Dean of the Medical Department, University of Pennsylvania, Philadelphia.

## HOW A WOMAN IN N. C. STARTED IN BUSINESS WITH ONLY ONE DOLLAR

She is now independent and cares not how bad times are. Can be done by others

A woman in North Carolina started in business with only one dollar and now has an income of more than 200 dollars a week.

One day she saw an advertisement in a monthly story paper of "WIKIE'S SWISS HERB TEA" stating that it was the BEST REMEDY ON THE MARKET for all Kidney, Liver, and Stomach Troubles and while she had been troubled with all these complaints for more than 7 years, she wrote to the Manufacturer for a 25 cent package, which she used carefully according to the directions. After one week's use she found that all her complaints had left her and she told the people, who had known her as a very sick lady, what she had used. All who saw the wonderful change in her condition, asked her to get them a package, and she sent one dollar to the manufacturer of the tea and asked him to send her as many packages as he could afford for the one dollar.

She got 8 packages which she sold at 25 cents each, which gave her a profit of one dollar on her investment, and 25 sample packages, which she distributed to other people and asked them to try this wonderful Herb Tea.

A week later she went to all these people again and asked them if they had tried the Tea and what they thought of it, and to her surprise she got an order for a package from every one of these, they all said "the Tea is wonderful." She at once sent for 100 packages and kept on distributing samples and sold them all in a week's time. Then she sent for 500 packages and now she had 59 other ladies and men working for her, selling "Wicke's Swiss Herb Tea" from house to house, and North Carolina has never been in so healthy condition as she is now; the call for a Doctor is only in rare cases or accident. A Druggist offered her the other day \$10,000 dollars for her Agency, but she declined his offer.

Any one, who has a little push and energy can do as well as she and while there are a few Agencies still open, we advise all who want to build up an independent business, to write to H. FELDSTEIN, 1375 Myrtle Avenue, Brooklyn, N. Y., and send him a Money Order for one or more dollars to secure the Agency of their town. Write today and build up a business and be independent.

GALLERIES AT BOTH DURHAM AND CHAPEL HILL

## \$5,445,869 More a Year for Tobacco Farmers

The total value of the tobacco yield for the eight Tobacco States is over \$59,554,131 annually. With the same acreage the tobacco growers in these States could, by improved methods of cultivation and fertilization, undoubtedly increase the total value of the crop to \$65,000,000.

## Virginia-Carolina Fertilizers

are compounded with the utmost care, containing only such elements of plant foods as can be taken up and properly assimilated by the plant without causing injury to its quality. Years of investigation of the cultivation and fertilization of tobacco enables the Virginia-Carolina Chemical Company to furnish fertilizers of superior quality for the production of this crop.

Mr. J. W. Rogers, R. F. D. No. 4, Durham, N. C., writes: "I have been using your fertilizers this year and the crops are the best looking I have ever seen—especially the tobacco crop. I have never seen any other fertilizer which acted as quickly as yours does. The leaf is large and waxy, cures bright, and I am satisfied will bring a big price. Also, my neighbors in this district use your fertilizer with the best results."

Is there any reason why you couldn't do as well? Be sure and ask your fertilizer dealer for a copy of the 1909 Virginia-Carolina Year Book or Almanac, or write our nearest sales office and a copy will be sent you free.
