NO. 25

OFFICIAL ORGAN OF THE UNIVERSITY OF NORTH CAROLINA ATHLETIC ASSOCIATION

FOLAND AND ITALIAN BOYS CAPTAIN "RED" HUSTLING PROFESSOR LATTA TO LEAVE JUNIOR PROM EASTER WEEK

STAR COURSE MONDAY NIGHT "A NIGHT IN VENICE"

Led by Elbert Foland, the versatile American entertainer, the Italian Boys are again touring the South, and will appear here on Monday, January 31, in a concert that promises a musical and literary treat.

Mr. Foland's strong dramatic work and his skill as a character delineator have made him very popular on the lyceum and chautauqua circuits and the combination of his ability in this direction with the musical genius of the Italian Boys has resulted in one of the premier attractions of the season.

The program will include several special features in addition to the usual instrumental solos, duets, and concerted numbers. Mr. Foland's part in the performance will be that of impersonator and reader and it will be found that he has lost none of his charm and magnetism. The evening will close with the production of a musical and literary fantasy "A Night in Venice."

SEVEN OF LAST YEAR'S SLUGGERS BACK

Since now we are free from the trammels of exams, it behooves us to look about us and see what material we have for the building of a baseball team. Work, good, hard work, and a lot of it should be the dominant idea of the candidates from now until Carolina lines up a team in 1910 that will bow the knee to none. With this idea in mind Captain Stuart has a small band of chosen few in practice now before the call for candidates is issued, Coach Lawson has been constantly keeping the pitchers in training by regular gym exercise. Things are moving off nicely. In a few days the baseball diamond will alive bewith determined work and enthusiastic energy.

Seven of our last year's varsity will again be candidates for their former positions; Capt. Stewart, pitcher; Hamilton, first base; Duncan, second base; Armstrong, third base; Hackney, center field; Hedgepeth, pitcher. So we have back with us the cream of our last year's team. A good foundation upon which to build a better, stronger team.

Of the scrubs, who battle valiantly that the varsity may shine, nine are back, and will again enter the field; John Tillet, third; John Battle, short; E. C. McLean, first; E. C. McLean, first; Tom Rose, center; Stevens, right; Nixon, second; Witherington, catch; Duls and Nause, pitchers. A good crowd of scrubs means good building material for varsity. This bunch, with others who will join them, will do much toward making ours a winning team.

The brilliant reputation of some of the new men lead us to believe that they will give the old timers a hot fight in the struggle for varsity. Among them are: the far famed "Bud" Hearn; Bivens who was Trinity's mainstay in the outfield during a former season; Poole and Swink, one of whom will probably be varsity catcher unless Witherington of last years scrubs shows his superiority; Buie, who caught for Davidson last year; and "Fleet" Williams of football fame.

At present nothing definite can be given out as to the schedule. Manager Drane has not completed it, nor approved what he has secured. He promised to put out his schedule next week. It will probably appear in Tuesday's issue.

All students, who know Dr. Lawson's reputation as a ball player or know him personally as a gentleman are delighted that he is to coach their baseball team. They mean to stand behind him and the team, and work for the best results for 1910.

All the Bible study groups will hold their first meeting tomorrow at 12:30. All the old members are requested to be present. New members are cordially welcome. Two courses will be offered this spring; the Life of Christ and Life of Paul. Those wishing to be assigned to groups see the President, Chairman of the Bible Study department, or the General Secretary of the Y. M. C. A.

PARKER H. DAGGETT TO BE HIS SUCCESSOR

Professor James Edward Latta, who before Christmas tendered his resignation as Professor of Electrical Engineering, will leave in a few days for New York where he will engage in Commercial Engineering.

It is with great regret that the University loses Prof. Latta. Having graduated in the class of '99, he has with a recess of two years, held a most important position in the department of Physics. He took his A. M. at Harvard, and later did some advanced work in Electrical Engineering at Harvard. Being for some years Instructor in Physics here, he afterwards became Professor of Electrical Engineering. Besides rendering valuable instruction to his students, Prof. Latta has done much towards building up the Electrical Engineering department from its beginning. He also was Chief Electrician in the installation recent improvements here in our college plant. While there will be great regret among the students as well as the faculty that the University will lose one of her best men in the Department of Applied Sciences, yet we feel sure that the Commercial Engineering world holds much in store for Prof. Latta, and the TAR HEEL wishes him every success in his new field of work.

Upon the resignation of Prof. Latta, Prof. Daggett, of Nepouset, Mass., was chosen as his successor. Prof. Daggett is a Harvard '07 man, who during the years '07-'09 after his graduation was Assistant in the Engineering Department at Harvard. For the last six months he has been with the American Telephone and Telegraph Co. in New York City. Prof. Daggett was most highly recommended by Prof. Adams, who, for many years has been in the Engineering Department at Harvard, and who was instructor of our own Dr. Patterson here. Prof. and Mrs. Daggett for the present have rooms at Mrs. Klutz.

Glee Club Has Coach

With Professor W. H. Overton of the Durham Conservatory of Music as director and the prospect of two good trips, the Musical Association is looking for a successful season this spring. Messrs. R. S. McNeil, President and J. G. Beard, Business Manager, report that the new men are coming out better than ever. The old men, McNeil, Wildman, Stroup, and Larkin of the Glee Club and Wyatt, Ray, Thomas, and Ellis of the Orchestra furnish the nucleus for a strong association. Professor Overton will be here three days each week. Under his direction, the Orchestra will rehearse in the afternoon and the Glee Club at night. The real practice will begin next week. The hard work that the men will put in between now and Easter week will no doubt result in a good concert as a part of the Junior Prom festivities.

Directly after Easter the association will make an Easter trip which is to include Wilson, Goldsboro, and two or three other towns in the same section. Later in April they will give concerts in Greensboro, Winston-Salem, and possibly Charlotte.

COMMITTEE HAS EXCELLENT PROGRAM

Although the program for the festivities has not been definitely arranged, it is certain that the Junior Prom will come the week after Easter. The week will include mere opportunities for enjoyment this spring than ever before. The committee on arrangements, of which D. B. Teague is chairman, is trying to get two days holiday for the Thursday and Friday following Easter, instead of the usual Easter Monday. This matter will have to be decided by the Executive Committee of the faculty at its meeting next week. The program as it stands now is: Senior reception, a performance by Dramatic Club, two Lafayette baseball games, Glee Club concert, Senior stunt, Track meet, fraternity hop, and Junior Prom. With the return of the President from Baltimore, the plans will be definitely finished.
