Those who are interested in track athletics will do well to notice what has been done at the University in the development of our tennis teams. Our tennis representatives are practically all developed here in college and each one has received his most valuable training on his class tennis team. In this instance class athletics have accomplished their purpose. They have developed varsity material.
Some days ago in chapel Prof. E. K. Graham spoke a few words about class track athletics. So far as we have been able to ascertain the senior class alone has taken action in the matter and made preparations for putting a ciass track team to prastice.
Track athletics are hecoming more and more prominent in American colleges. Yet here at the University they are far behind all other teams in the matter of development. Class teams are exactly what are needed to stimulate the interests of the student body and to develop material for the varsity team. Besides this class track teams will furnish exercise to many men who now do without it. By all means let each class get to work earnestly and have every preparation made and be ready for serious work by the time the track coach comes on the first of March.
Class baseball teams are beginning their work of practicing each afternoon. The class field is always covered with players seeking exercise and trying to make their team. But the field they have to practice on is enough to take the ambition out of the most enthusiastic. Ruts as much as a foot deep that have served as drains for all the heavy rains of the winter. Brush ready to grasp in fond embrace any outfielder who may stumble into them. The ruts keep the infielders scared of a grounder. The brush heaps keep the outfielders scared of a fly. Under such conditions as these it will take a
very hardy player indeed to accomplish any develoyment. How can we expect class baseball to develop men for the varsity when those who are working selves are given no encouragement selves are
whatever.

## With Other Colleges

Durham, Feb. 14.-The preliminary contest to select representatives for the Trinity-Sewanee debate will be held Feb. 26. The subject for debate is: Resolved, That a graduated income tax, with an exemptiou of in
comes below five thousand dollars per anuum, would be a desirable modification of our system of Federal taxation. Trinity has the negative. The dcbate will be held at Sewanee, the las one being held in Durham.
Raleigh, Feb, 14.-A meeting of the executive committee was held at the exellege on Thursday and Friday. Those present were: Chairman W H. Ragan, of High Point, and Messrs. O. D. Clark, of Bladen, N. B. Stickley, of Cabarrus, N, B. Brough ton and C. W. Gold, of Raleigh. Twelve archilects submitted plans for the electrical and engineering departments. After a careful study of these plans the committee accepted the plans of Architect Frank B. Simpson, of Raleigh. The board of trustees hopes to get this building constructed within the next year. This building will give a welcome relief to the over crowded recitation rooms and laboratories of these departments. The site of the building has been decided upon. It is to be erented on the ground jus west of the textile building, lying along Hillsboro street.
The prospect for a winning basebal team this year is exceedingly bright. Sexton, captain and pitcher, will round out his fourth year, and he may be depended upon to haue a good team. Tal Stafford, an old Raleigh high school star, and Robertson, a new man who is reported to be a twirler of no mean ability, will relieve Sexton in the unimportan games. "Dutchy" Seifert and John Council, both deserving men, will be in keen competition for catcher's place. There is room for a new man at the initial bag; Bost will be expected to do "stunts" around second base; Hartsell will cover shortstop in his usual magnificent way; Black will play at either third or first base. Excollsct material will cover the outer collsct mas Freeman, Brawn, and an garden as Freeman, Bravn, and an unlimited supply of new men. Coach Thompson has a squad of thirty men out each afternoou for practice, except drill days. By the first of March practice will begin in earnest, Manager Springs has just about completed the schedule, which will be ready for publication in a few days.
Carl H. Hoover, one of Penrsylvania's representatives in debate with Carolina last fall, has again been selected to represent Pennsylvania in debate, this time against Cornell.
Davidson has drawn up some new rules governing her athletics. Among others there are the following. No one may represent Davidson on any athletic team who has not conviaced the committee on athletics that he is a bona fide student. No student may play on the team whose average grade on academic work is not up to a certain standard. A student must have been in college five weeks before the season opened to play on any of the teams. No student shall play on an athletic team more than five years. No rule is made against professional ball players.
