HOLD ON!

Are you aware that **The Literary Digest** is about the most interesting periodical in the world to-day? *It is positively always interesting!* What is more intensely interesting and important than the stories of the many crises that have threatened the destinies of nations; or of the many discoveries and inventions, theories and philosophies, etc., etc., that are changing the course of human life? Are we not now living in an age of stirring events—in peace, dissension, war; in exploration, discovery, invention; in thought theory, practice—things that the minds of future generations will read of with eager intensity? Where do you stand? What do you know of this world you inhabit, of those who inhabit it with you, and of the rapid march of its daily history? Reading world-history in the making, with its many unexpected twists and turns, is as stirring as the greatest novel, and yet positively nothing is more refreshing and valuable to the intellect.

Why Not Read Something of Value as Well as Interest?

The Literary Digest is more *vitaly interesting* to the average, thoughtful, busy man than the ordinary magazine, because it is with *things worth while* that **The Literary Digest** is constantly dealing. Each week it acquaints you with the news of the important movements of the world, gleaned from all publications, all arts, all brains, all industries, all sciences. The editors of **The Literary Digest** are provided with the best periodicals of the world, and each week they cull for you the best news and thought that these important publications contain. In brief, clear, entertaining form, **The Literary Digest** affords you each week precise ideas regarding every topic of current interest. Both sides of every question are carefully shown—absolutely without any partizan coloring—this is the editorial policy of **The Literary Digest**. You cannot afford to be without this valuable weekly.
