

## ON THE CAMPUS

A. C. Kenny, '11, went to Graham Thursday.

F. D. Clement of the Law school went to Durham Thursday.

The courts of the Tennis Association are being improved and re-leveled.

Don't forget the illustrated lectures on the life on Christ, to be given by Rev. Mr. Hogue during next week.

Messrs. E. E. Barnett and L. N. Taylor left for Anderson S. C. on Thursday. They will be delegates to the Y. M. C. A. convention of the two Carolinas which holds its session from the 18th through the 21st.

Luke Lamb 1912, who has been confined to the infirmary for the last three weeks, left for his home in Williamston on Thursday. He will remain away until he has regained sufficient strength to get back to his studies.

If for any reason the suits you have ordered this fall do not fit call and see me. W. H. Boger, of Varsity Tailoring Company. Fits here guaranteed.

E. J. Newell, winner of the Toeh Fellowship in Chemistry, has been forced to leave the University on account of ill health.

Buie's Creek Club will banquet tonight with J. R. Baggett, '00, who is practising law at Lillington.

E. E. Barnett left Thursday for a two week's visit to his home in Florida. He is to make preparations for his departure to Brazil in July.

Notice has been received that a dance will be given in Greensboro, on the night of the Virginia-Carolina baseball game in honor of the teams and their friends. A cordial invitation is extended to all University men. It is not yet known where or by whom the dance is to be given.

Dr. Jno. A. Ferrell, B. S., '02, M. D., '07 U. N. C., has just been appointed to the position of Assistant Secretary to the State Board of Health. He is to be in charge of the campaign in North Carolina for the eradication of the hookworm.

The "Intercollegian", in its latest number, contained, among other excellent articles, an address by Mr. Frank P. Graham, A. B., of the University of North Carolina. The students here, no doubt, remember the speech made by Mr. Graham on College Night last fall when he presented the Young Men's Christian Association to the new students. This was the address printed by the "Intercollegian".

Dr. Stiles, during his recent visit here, spoke with interest of George F. Leonard, who is a medical student in Washington doing special work under Dr. Stiles toward the further research into the hook worm disease and its damaging effects. Mr. Leonard graduated here in 1907, and later studied medicine here. During his senior year it will be remembered that he was president of the Y. M. C. A. Dr. Stiles feels that Mr. Leonard's outlook is exceptionally good, as he will be one of the pioneers in the great hook worm war which is just beginning to be waged.

All those men who signed cards in the chapel on last Sunday afternoon signifying their intention to engage in the Bible study work, and have already been members of a class, will continue to be members of their regular classes. But those who have signed cards, and have not been members of any class before, will please meet with Rev. Mr. Hogue at 12:30 on Sunday next in the Y. M. C. A. auditorium. He will give an outline of the work to be covered, and will himself lead the class regularly at that hour on Sunday. This is an excellent opportunity to those who desire a short course covering much ground.

## JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. Editor in Chief, Dr. W. T. Harris, former U. S. Com. of Education. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The Etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.  
6000 illustrations.  
2700 pages.

Write to the publishers for Specimen Pages.

## SCHOOL OF MEDICINE

Undergraduate Department. The One Hundred and Forty-fifth Session will begin September, 23 1910. The course of instruction, extending over four annual sessions of eight and one-half months each, is a carefully graded and eminently practical one, beginning with the fundamental branches with full laboratory exercises, proceeding through a comprehensive system of clinical instruction in which ward and bedside instruction and individual work on the part of the students form a large part, and terminating in the Fourth Year with the assignment of students as clinical clerks in the Hospital. A large proportion (more than 80 per cent.) of the graduating classes secure positions as internes in hospitals. Entrance requirements embrace a minimum of two years of college work, including two languages other than English (French or German must be one of these) and at least one year of study with appropriate laboratory work in Physics, General Biology or Zoology and General and Inorganic Chemistry (including Qualitative Analysis).

For Further information, apply to the

Dean of the School of Medicine, University of Pennsylvania, Philadelphia.
