

**Basketball Season Reviewed**  
Continued from first page

The team dropped two games to Virginia, but it must be remembered that Virginia has one of the best teams in the South. On the whole this record is not a bad one, but rather, for the first year, a very good one.

Four of the members of the team are from Charlotte. They have decided to practice together during the coming summer in the Charlotte Y. M. C. A. This will result in a well trained team next year.

**Infirmary Besieged.**

The Infirmary is undergoing its annual siege of bad colds and grippe. Probably due to the violent difference between the excessive heat of the dormitory rooms and the cold outer air into which students most go when on their way to meals and classes, an epidemic of grippe fastens yearly its talons upon the susceptible constitutions of toiling students and reduces them to the painful necessity of getting on the sick list. For the past week the halls and reception-rooms of the Infirmary have been filled to overflowing every night with suffering students. Most of them spend but the night. In the morning they fold their tents and silently steal away.

Six men were in the Infirmary Friday morning. Messrs R. R. King, H. A. Williams, S. A. Sanders, R. R. Sloan, and Oscar Leach were there because of grippe, or very bad colds. Mr. D. L. Knowles was suffering with a renewed attack of appendicitis. He was, however, a little better on Friday. All of these gentlemen are receiving the solicitous attention of Dr. Hollis McDay (col.), the house physician.

**Carolina Man in Faculty of Washington University**

Dr. William McKim Marriott, formerly of Baltimore, has been appointed instructor in biological chemistry in Washington University, St. Louis, Mo. He is the son of Mr. and Mrs. J. H. Wilson Marriott, of Washington, formerly of Baltimore, and is the grandson of the late Rev. Dr. J. W. M. Williams, long the pastor of First Baptist Church of this city.

After graduating at Marston's University School he received the degree of bachelor of science at the University of North Carolina and the medical degree at Cornell. For two years he acted as assistant in chemistry in the University of North Carolina. For one year he was tutor in chemistry in the College of the City of New York and for three years assistant in physiological chemistry in Cornell Medical School. He was lecturer on radioactivity for the United States Geological Survey at the Louisiana Purchase Exposition. Dr. Marriott has published the results of much research in pure and in physiological chemistry. He is a member of Phi Beta Kappa, Alpha Omega Alpha, Kappa Alpha and Phi Alpha Sigma fraternities.—Baltimore Sun.

In a recent news item, Dr. A. Lawrence Lowell, president of Harvard University, is reported as being opposed to organized college cheering. He laments that cheering has to a large degree taken the place of high class music among gatherings of college men. The degeneration of the popular taste in music is also described by Dr. Lowell, who states that the present condition of music is a sign that educated people are signally deficient in the art of expressing emotion.—Ex.
