UNIVERSITY OF NORTH CAROLINA, CHAPEL HILL, N. C., THURSDAY, APRIL 29, 1915

NO. 28

CAROLINA CONQUERS IN NORTH WINS THREE OUT OF FIVE

Team Finishes Season in Fine Style, Losing Only to Princeton and Virginia. The Season Closes With Friday's Game

CAROLINA 3 VIRGINIA 5

Virginia drove Williams from the box while Gammon held Carolina to three hits—and Carolina lost the rubber to Virginia at Charlottesville.

Our boys could not get together. They hit the ball hard but, in most cases, a Virginia player was right there to receive the drive. But away with excuses—let's to the story.

Williams started the game for Carolina and got by the first inning easily. In the second inning Virginia found him for 5 hits. These hits together with two errors and a base on balls gave Virginia four runs.

Shields then took up the burden and allowed just one Virginian to cross the plate in the 6 innings that he twirled. He seemed to have everything and got by easily enough. The one run off Shields came in the sixth when E. W. Smith hit for three bases and scored on a fielders choice.

Carolina's first run came in the third inning when McCall, Berkeley and Phillips erred in succession.

In the fourth inning Honig hit over the right fielder's head for a home run.

In the ninth Bruce almost knocked Stickey off his feet with a line drive and scored on Bailey's drive to left field.

From a Carolina view point, the features of the game were the good pitching of Shields and the clever fielding of Honig in left.

For Virginia the hitting of Stickey and E. W. Smith and Stickey's fielding were the features.

The umpiring, to say the least, rotten.

CAROLINA:	AB	R	H	PO	A	E
Patterson, 2b	4	0	0	1	0	1
Woodall, c	4	0	0	5	0	0
Bruce, ss	4	1	1	2	2	1
Pope, 1b	4	0	0	6	0	0
Honig, lf	4	1	1	5	0	0
Bailey, cf	3	0	1	2	0	0
Zollicoffer, rf	3	1	0	3	0	0
Lewis, 3b	3	0	0	0	2	1
Williams, p	0	0	0	0	1	0
Shields, p	2	0	0	0	1	0
*Edgerton	1	0	0	0	0	0
**Hardison	1	0	0	0	0	0
Totals	33	3	3	24	6	3

VIRGINIA:	AB	R	H	PO	A	E
Berkely, ss	5	1	1	3	4	2
W. Smith, lf	5	1	2	2	0	0
White, 1b	3	0	0	11	0	1
Phillips, rf	2	0	0	0	0	1
N. Smith, cf	4	0	1	2	0	0
Stickey, 3b	3	1	1	1	2	0

Ehrman, c	4	1	1	8	1	0
Gammon, p	4	1	1	0	0	0
Totals	34	5	10	27	9	4

*Batted for Williams in third.
**Batted for Zollicoffer in ninth.
Score by innings:
North Carolina 001 100 001—3
Virginia 040 001 00x—5

Summary: Runs, Berkeley, W. Smith, Stickey. Ehrman, Gammon, Pope, Honig, Zollicoffer. Three-base hits, W. Smith, Stickey. Home run, Honig. Stolen bases, White, Pope. Sacrifice hit, Stickey. Bases on balls off Gammon, 1; off Williams, 1; off Shields, 2. Left on bases, Virginia 7, Carolina 4. Hits off Williams, 5 in 2 innings; off Shields, 5 in 6 innings. Struck out by Gammon, 7; by Williams, 2; by Shields, 2. Passed ball, Ehrman. Sacrifice fly, White. Time of game, 1:50. Umpire, Hughes.

CAROLINA 13 V. M. I. 0

With Currie pitching invincible ball Carolina easily defeated the V. M. I. team at Lexington, Va. 13 to 0. Currie allowed eight hits but was unhit when men were on bases.

The entire Carolina team hit the ball hard and timely. Capt. Woodall, Bruce, and Zollicoffer led the hitting with three hits each. Honig landed on one for three bases.

Bucher started the game for the cadets but retired in the third inning after he had allowed five runs. Pitts succeeded him and fared no better. The Virginians could not connect with the ball when a hit was needed. On the other hand Carolina hit the ball apparently at will.

Batteries:
Carolina, Currie and Woodall, Hart. V. M. I., Bucher, Pitts and Malone.

Score by innings:	Carolina	V. M. I.
	005 213 101--13	000 000 000--0
	R H E	R H E
	Carolina 13 19 2	V. M. I. 0 8 6

Two base hits, Zollicoffer, Hart, and Bruce. Three base hit, Honig. Struck out by Pitts 4, by Currie 11.

CAROLINA 8 W. & L. 2

Showing a complete reversal of form after the Virginia game Carolina romped away with the game with W. & L. to the tune of 8 to 2.

Williams returned to the box the next day after his failure at Charlottesville and held W. & L. to four hits. One of these hits was a homer with one man on the bases. His speed was dazzling and the boys from W. & L. could do nothing with him.

In the second inning Zollicoffer beat out an infield hit and scored when Lewis's line drive went over the fence for a home run. Bruce and Bailey also secured a home run each—no one being on bases when those were hit.

In the fifth Bailey got on and scored on Lewis's two bagger to left field.

Three more runs were scored on mixed hits, bases on balls and errors.

In the field Bruce did some

REVISED STIPULATIONS Societies to Vote on New Management of Yackety Yack

The committee composed of G. W. Eutsler, A. R. Newsom, T. C. Linn Jr. from the Di Society; L. B. Gunter, W. P. Fuller, D. L. Bell from the Phi Society; G. A. Mebane, G. M. Long, J. G. Cowan from the fraternities; which has been investigating the proposed plan of changing the control of the Yackety Yack from the two Literary Societies and the fraternities to that of the Senior Class has proposed the following plans, and requests that the societies and fraternities vote on the matter as soon as possible.

1. The Yackety Yack shall be published by the Senior Class.

2. The editorial control of the Yackety Yack shall be vested in an editor-in-chief to be elected by the rising Senior Class not later than April 1st, in the spring of the Junior year, and ten assistant editors to be elected by the same time, six of whom shall be elected by the rising Senior Class and four from the rising Junior Class.

A. It shall not be necessary that a candidate for the editor-in-chief shall have previously served on the editorial board of the Yackety Yack.

3. The business management of the Yackety Yack shall be vested in a business manager and an advertising manager to be elected by the rising Senior Class, and two assistant business managers to be elected by the rising Junior Class not later than April 1.

A. It shall be the duty of the Business Manager to have charge of finances of editing the book exclusive of advertising. The Advertising Manager shall have entire control of the advertising in the Yackety Yack. The two assistants managers shall be under the supervision of the business manager and the advertising manager and shall have charge of all official photographic work; that is, all work done by the official photographer.

4. The editor-in-chief, business manager, and advertising manager shall constitute a committee to award the contracts for the publication of the Yackety Yack.

5. The business manager and the advertising manager shall each receive as compensation for their services 33 1-3 per cent of the net profit of the book, and the Senior Class shall receive the remaining 33 1-3 per cent. The assistant managers shall divide equally the commission allowed on the photographic work.

A. It shall not be necessary that a candidate for either of the managerships shall have previously served in the business department of the Yackety Yack.

6. The business manager and advertising manager shall make and present to the class before commencement as full and accurate a report as possible of all receipts and expenditures, and as

DR. THORNTON OF UNIVERSITY OF VA., DELIVERS EXCHANGE LECTURES

Last of Series of Exchange Lectures is Delivered on Engineering Subjects, and an Account of a Visit to Panama

Monday night in Gerrard Hall Professor William M. Thornton, Dean of the School of Engineering of the University of Virginia, delivered the first of a series of lectures which he is to give here this week as exchange professor in the quadrangular arrangement between this University, Vanderbilt, Virginia, and South Carolina. Dr. Henderson in introducing the speaker told of the plans that had been made to carry on this system of exchange professorships each year.

Mr. Thornton gave an account of a personal visit to Panama as the guest of General Goethals, and told many interesting stories of the canal zone. He explained the system under which the Isthmus is governed, and spoke of the important part that several southern men had played in this great work. Dean Thornton especially praised the perfect system of sanitation that has been worked so successfully in that tropical region, and pointed out the surprising freedom from disease in its towns and cities. The lecture was prepared for the purpose of instructing laymen as well as those scientific training and succeeded admirably in its purpose.

During the course of his lecture he dealt with the fundamental problem of mechanics and materials with special treatment of deflection of beams. Professor Thornton gave an analysis of the methods used in the high schools in reference to the preparation they give a young man who is going to become an engineer, and likewise gave a series of suggestions as to how conditions might be bettered.

His second lecture delivered before the Elijah Mitchell Scientific Society, in Peabody Hall was a treatise of the fundamental problems from a graphical stand-

early as possible shall file a complete report with the rising secretary of the class.

7. The business manager and the advertising manager together shall have charge of the sales of the books.

8. The business manager and the advertising manager shall be bonded to the amount of \$500 each and the expenses thereof shall be charged to the Yackety Yack account.

9. The Senior Class shall be financially responsible for the publication of the Yackety Yack.

10. These stipulations shall be read at each annual election and publicly agreed to by the newly elected officers.

11. For this year—1914-1915—these stipulations may be put into effect at any time before May 15.

point as applied to the progress and advance of mechanical materials by the theory of resilience. In his third lecture, Professor Thornton dealt with the theory of least work as applied to the same problem. This lecture also was delivered in the Peabody Building.

Prof. Thornton was educated at University College, Liverpool, serving an apprenticeship in the works there from 1884 to 1892. He served as professor in engineering at both University College, Bristol, and Armstrong College. He is vice president of the Association of Mining Electrical Engineers. He has also published papers from time to time upon electrical and general engineering subjects.

Prof. Thornton is the exchange lecturer from Virginia, and is the first to appear at this institution in this series. The students of this University welcome him and appreciate the beneficial ideas which he has given them. Although handicapped by a technical subject, he has made his lectures most interesting to those even who are not interested ordinarily in scientific subjects.

The exchange series is a new development of the idea of university extension and promises many beneficial results.

COBURN PLAYERS HERE MAY 5

Will Play Moliere's "The Imaginary Sick Man"

Contrary to somewhat widespread opinion, the comedies of Moliere are not of the "high-brow" variety that holds an appeal only for the serious students of the classics and those deeply learned in the drama. This is especially true of "Le Malade Imaginaire" (The Imaginary Sick Man) which the Coburn Players will give at Chapel Hill on May 5. It has been well said that Moliere is for all ages of men; for youth there is his comic invention, his drollery, his frank fun; for the older spectator there is appreciation of his insight into human motives and his marvellous skill in portraying them, and for everyone who takes an interest in the comedy of human endeavor there is to be found in Moliere what he needs. Mr. Coburn has given his customary care and personal attention to every phase of the production of this addition to his repertoire, and it will be presented by a company of artists especially chosen for their fitness for the many sprightly parts.

Mr. C. G. Credle, '09, principal of the Carthage High School, attended the finals of the Debating Union with his teams.
